A Doubtful Experiment.

The appointment of Judge Gresham to the first place in our nations cabinet, is a doubtful, and nations eshinet, is adoubtful, and herefore dangerons experiment. He is not, nor has he ever been a Democrat. While we entertain no fears that any direct or voluntary act of his will jeapordize the interest of the Democratic party, his appointment is very encouraging to the "Mugwamp" element at the North, and infuses new life into the independent ranks of the South.

It has been truly said that half the world does not know how the other half lives. Comparatively few of us have perfect health, few of us have perfect health, owing to the impure condition of our blood. But we rub along from day to day, with scarcely a thought, unless forced to our attention, of the thousands all about us who are suffering from scrofula, salt rheum and othe serofula, salt rheum and other serious blood disorders, and whose agonies can only be imagined. The marked success of Hood's Sarsaparilla for these troubles, as shown in our advertising columns frequently, certainly seems to justify urging the use of this excellent medicine by all who know that their blood is disordered. Every claim in behalf of Hood's Sarsaparilla is fully backed up by what the medicine has done and is still doing, and when its proprietors urgo its merits and its use upon all who suffer from impure blood, in great or small degrees, may certainly mean to include you.
