Concord, N. H., Tuesday morning.

a bungling job. Almy's feet
touched the floor when he went through
the drop and he was strangled to death.

The biennial session of the Order of
Railway Conductors at Toledo, O., closed
Wednesday evening. A large number of
amendments to the bylaws were adopted,
but no general interest. Resolu-
tions in regard to Sunday observa-

May, 1895.

The First National bank of Cedar
Rapids, Iowa, suspended at close of
business Tuesday, being involved by
the brother-in-law of William M. Fields,
and the settlement of horses. The

liabilities of Fields will be nearly as
much more.

A Toronto special of Friday says:
The old custom of ringing the curfew
in the evening has been revived in all
the villages and towns throughout
Canada. An act passed at the last
session of the dominion parliament
provided that at 9 o'clock the curfew
shall be rung, and if any persons un-
der seventeen years of age are found
on the streets they shall be locked up.

Mr. James E. Murdoch, the well-
known tragedian and teacher of elocution,
died in Cincinnati Friday. He
was eighty-three years of age. During
the late war he visited the army and
gave readings to the soldiers in camp
hospitals. He was one of the few
members of the Ohio commandery of
the military order of the Loyal Legion,
chosen from civilians, who rendered
services to the government during the
war.

A Chicago dispatch of Thursday
says: John D. Rockefeller has given
\$100,000 to the University of Chicago
in order that Martin Ryerson's gift of
\$100,000, conditioned on the raising
of \$400,000 more, might become avail-
able. About \$100,000 has been raised
already, and the university has
\$150,000 to complete the half million
needed as an equipment fund. The
money must be secured by July 1st,
or the Ryerson and Rockefeller gifts
will be lost to the university.

Advices from London say for the ef-
fect that the second clause of the
home rule bill, conferring authority
on the Irish legislature to exact laws,
was passed Wednesday in committee
in the house of commons, as amended
by the rejection of Sir Henry James's
amendment to the fact that the
supreme power of the imperial parliament
would remain undiminished by any
provision of the home rule bill. The
clause as amended was adopted by
a vote of 387 to 308. The debate pre-
ceding the division was both terse
and bitter.

The firm of N. H. Warren & Co., at
Chicago, closed all its deals on the
board of trade Thursday. It is esti-
mated that 600,000 bushels of corn
were sold on the firm's account. Nath-
an Warren attributed the suspension
to the tying up of his money in the
stock of the Columbia bank. The suspension
was precipitated by a hoaxman for
Warren & Co., with the Columbia bank
notifying the board of trade that
the firm would no longer agree to
identify traders against losses on
margin transactions by the fluctuations
of the market.

Secretary Hester's weekly New Or-

have moved out to their country home

the treasury department: Samuel
Rhodes, Jr., of Maryland, chief
of the stationery department; de-
partment, vice A. L. Sturtevant, resigned

The president, Wednesday, made
the following appointments: Robert
T. Hough, of Ohio, solicitor of internal
revenue; William A. Andrey, of
North Carolina, assayer at master of
the assay office of the United States
at Charlotte, N. C.

The president has decided to appoint
Mr. Kerr Craig, of Salisbury, N. C.,
third assistant postmaster general.
Mr. Craig is one of the strongest law-
yers in North Carolina. He re-
ceived the nomination for congress,
but declined it. Mr. Craig is Senator
Ransom's personal friend. He is a
North Carolina delegate, however,
and endorsed and urged him upon the
president.

The president, on Friday, appointed
Kerr Craig, of North Carolina, to be
third assistant postmaster general.

Assistant Secretary of the treasury
department, on Tuesday, decided to
appoint to the position of chief clerk
of the treasury department, a Chinese-
man, business left N. Y. on Tuesday.
A Chinaman, who has been in the
treasury department for some time,
has been transferred to the department
of the interior, and has not yet been
refused entrance, but has not yet been
transferred to the department of the
interior. It may be that the
general office of the treasury is finally
disposed of.

A Washington special says:
The rumors which have been in cir-
culation in the interior department during
the last several weeks, which bring
in serious question the official in-
tegrity of W. W. Simonds, the com-
missioner of patents, took a tangible
form Wednesday by the filing of for-
mal charges against Simonds and
Foster and Freeman, attorneys, in

of customs vice S. V. Holliday, of
Pennsylvania; resigned; Robert M.
Cass, of Ohio, to be deputy

McMillan, district of Columbia, re-
signed.

Investigating Texas Pension Claims.
It is stated at the pension office that
up to last Tuesday the pension ex-
aminer now in Norfolk, Va., investigating
claims filed by Pension Attorney
Dewey, had completed four hundred
all of which had been found to be in-
correct or fraudulent. The pension
office officials are searching the files
for claims filed by Dewey, which
have been allowed, and so far 160 have
been found and forwarded to the ex-
aminer at Norfolk. No computation
of the amounts paid on these claims
has been made, but as all of them were
paid under the law of May 27, 1890,
which allows \$15 per month, as the
maximum rate, it is probable that the
amount will fall below \$100,000.

Dewey is now serving a one-year term
in jail for fraudulent transactions in
pension claims.

A Man's Weight After Disaster.

Why does a man weigh a pound
more immediately after eating a pound
of food? A man's reflection will readily
explain this apparent mystery. During
the process of mastication, digestion,
and assimilation, certain muscles are
active, and the exertion of any mus-
cles necessitates a temporary waste
of its tissues, and a certain amount of
carbon is eliminated and passed off dur-
ing the course of the day. This carbon
is, in effect, as compared with that of
respiration and perspiration, both of
which are increased during the various
operations of making a meal.

The length of time taken to eat a
pound of food makes a great differ-
ence to the man who eats a pound of
food. A man who eats a pound of food
in ten minutes will be heavier than a
man who eats a pound of food in an
hour. The man who eats a pound of
food in ten minutes will be heavier than
the man who eats a pound of food in
an hour. The man who eats a pound of
food in ten minutes will be heavier than
the man who eats a pound of food in
an hour.
