#### A SURPRISE.

Tuesday during the noon o' court, Col. Weir Boyd of Dahlonega, addressed a large audience in the court house. From a man with a democratic record of forty years standing, his speech was a great surprise to his many White county democratic friends.

In some points we heartly en dorse the views of the venerable Colonel, but consider his a tuck upon the president and house, as yet untimely. When after the se of sufficient time for safe legislation, nothing has been acgrand chorus demanding that our ballots be not violated. But now no. Two months, or four or size months is not too long time to devote to the tearing down of a financial system, that has been thirty years building, and which when done, must be built up again after a different design.

The passage of any bill, totally disrecting by one stroke our oresent financial policy, bad as it most dispresent financial policy, bad as it is, would result in the most disastrous money panie the country

In the resolutions, which appear belov, and which were read by Col. Boyd, and almost unan-mou-adopted by the assemblage, the bread shoulders of the president are made to bear the heavy responsibility of all this delay, and filibustering in house and senate, when in fact he has nothing to do with it. The president has his own view of the silver question, certainly; but every democrat who knows his record, sees him in precisely the same attitude he was four and eight years ago.

Just no

Just now, we would pro-mulgate the doctrine of patience, and after proper time, if our lead-ers have betrayed us, then it is would upbraid and condemn

It is vague y reported that Col. Boyd has an eye on a sent in our next state senate, as Lumpkin county is entitled to the meaber ext time, and that he is taking a policy course. That may do in impkin county, but it won't work here, for we must know just where to place our finger on him now, before either party takes him up. Come off the feace, colonel; we believe you to have been always a stanged dese been always a staunch dem-at, but it does strike us most tibly now, that praise of Tom teen, and the utterance of the rds to the effect that Tom

Temperator lecture.

Tuesday night the people of Cleveland enjoyed the rare treat of listening to one of the masters of estoquence, in the person of Hon. M. G. Boyd, of Dablonega, who delivered a lecture on the temperanes question.

The Baptist church, where be delivered his lecture, was crowled, and he held his audiance for an hour and a half, eager listeners to the truths, he told them of the danger attending the youth and manhood of this mountain country.
