

THE FIELD

THE MARIETTA WIRELESS

Marietta, Ga., April 2, 1878.

The Marietta Paper Manufacturing Co. Manufactures the best of News and Wrapping paper, at lowest prices, and delivers to all customers.

EMERALD.—In the article "On the use of Emerald" in the 10th paragraph of the 10th of March, 1878, it is stated that "the Emerald is a gem of 1778."

The health of the city of Marietta is such that it is a population of some thirty-five hundred, the City Marshal reports no deaths for February, and but four in March—two whites and two blacks.

We have just passed another climatic crisis, and fruits and early vegetables are still scarce, with abundant promise. The farmer and gardener looks with fear still upon the caprices of April and May.

The sales of the farmers in Georgia have been so successful, and the purchases in the city so large, that the farmers are appreciating improved modes of culture.

CAUGHT SOME OF THEM.—Owing to the hard times, it seems that many of our colored citizens are trying to make money easy for themselves, in appropriate other goods to their own use. Mr. John Sanges, our worthy Deputy Marshal, arrested three negroes for stealing bacon, and another for breaking open a store and stealing money, during the past week.

WE ARE PLEASED to see that our excellent Mayor and worthy City Council have taken the graves of the fallen heroes in hand. Much praise is due Alderman Wilson for his move, and it is to be hoped that future Councils will look upon this with the same memorial eye.

EMIGRATION TO THE SOUTH.—The tide of emigration Southward, from the North and East, seems to have really set in. Large settlements have been made in Tennessee—in some instances large bodies of land have been occupied by whole colonies, and other colonies are in process of formation with a view to settlement in Tennessee or further South.

SOME MEN gobble all they can grasp, and though full, still cry for more. Such a character was illustrated in the life of Alexander the Great. History philosophy, teaching by example.

A MULTITUDE were led on five leaves and two little fishes, and the fragments were gathered up for the faithful.

McClatchy is one of the nearest and most complete Family Groceries in Upper Georgia. In their seasons, you can always find fresh fish and choice varieties. At all times, you find the best of Canned Goods, Confectioneries, Crackers, Biscuits, and to these may be added fine varieties of coffee, sugar, and dried goods. Pickled Fish, etc., in endless variety. The display of Canned Ware is not surpassed. History furnishes everything in fact a householder needs, and at moderate prices.

NOT A PART.—The Pope of Rome and Holy Ingersoll in the earthly future of man. The Pope, in his pastoral letter, reviewing the growth of civilization, affirms the perfectibility of man. Ingersoll, in closing his lecture on hell, says: "I believe the time will come when every criminal will be treated as we now treat the diseased and sick; when every criminal will be a patient, and not a patient, and that if criminals go there with hatred in their bosoms, they will be healed by the power of love." There is no religion but goodness, but justice, but charity. Religion is not a theory; it is life. It is not intellectual conviction; it is divine humanity, and nothing else."

But wider than the poles under are the two parties as to a state or place of eternal torment.

J. B. O'Connell & Co. have removed their store to U. S. Street, and stand on the east side of the Square. They have a nice store, embracing General Merchandise, and will take pleasure in waiting on customers.

A Jasper county farmer predicts frost on the 10th of the present month, and as the weather is so warm, he predicts too a killing frost about the same time.

The Legislature of Maryland has passed the bill instructing the Attorney General of Maryland to exhibit a bill in the Supreme Court of the United States, on behalf of the State, praying the Court to make a revision of the electoral college, in behalf of Tilden and Hayes.

The Farmers have, by estimate, some one hundred and thirty thousand pounds of cotton, and are reported to be making every preparation to ship.

Some of the Henry county farmers are planting corn.

Mr. Brewster thinks that corn will be so scarce, that it will be sold at a high price.

The Bone Courier thinks Dr. Felton ought to establish a mill at Dallas, in Paulding county, as that is about the center of the copper region.

Mr. Seymour, a northern gentleman, will soon work Winters & Hammett's gold mines in Cherokee county.

The caterpillars are making their annual appearance in Tennessee, as well as in Mississippi and Arkansas. They are becoming a national pest, or nuisance, and are about to destroy the green leaves, not breaking forth. Says the Memphis Appeal.

Texas has 4,000 fugitives from justice, with forty counties yet to hear from. Seven hundred and fifty of these persons are murderers, and 800,000 in reward have been offered for three hundred of them. One hundred thousand horses have been stolen in three years.
