Marietta, (Georgia,) Thursday, my 1848.

Sound Views of Agriculture.

Dr. A. S. Beath, president of the New York farmers club, read the New York farmers club, year. Now deep and shallow year. Now deep and shallow ploughing are both advisable under certain circumstances. If in land like the ked River in Northern lexas, you plough but two or three inches your crops will not prove inches your crops will not prove the provent and your proposed by the provent and your proposed by the provent in Northern lands of the provent in the provent

our inches of soil contain only a given amount of plant frood, and that this soil is rapidly drained of this plant-food by annual crop-ping of will eventually become exhausted unless those elements become way supplied to the soil. Manuse and fertilizers will main that the soil in good condition if that the soil in good condition if that the soil in good condition in the soil in good condition. We can be some way supplied. Now, econo-ted keep soils productive, bet us first soils productive, bet us first soils productive, bet as first soil wie have been journaling, and it was have been ploughful and the soil productive, bet us first soils product and the soil deeper our soils product and the lower plouse of the soil of the fortilizers at the same time of the only moderately. The use of the authority of the soil of the soil of the soil of the only moderately. The use of the authority of the soil of the soil of the soil of the soil of the lage in root crops—beets carrots, ye dre.

We.

Having succeeded well the first year, let us continue to go deeper and furn up more good soil and put crop-food upon the soil and mix them intimately. Frequent ploughing aids the absorption of aerial gases and ammonia, and catallets the rootlets to obtain air and moisture; it enables the fine soil to drink in the dew and slight showers. Many have done as to pid fining by raising the subsoil not properly fertilized, and everying by it the fruitful soil out of reach of the roots of hungry plants. Deep ploughing enables in dry weather the deeper moisture to reach the roots of crops and in wet weather the superabundance of rain can sink so that the roots of the crops and in wet weather the superabundance of rain can sink so that the roots of the crops are not always the superabundance of rain can sink so that the roots of the crops are not always the superabundance of rain can sink so that the roots of the crops are not always. e. Having succeeded well the first

iral imprementation of the East. Were they reciated in the East. Were they sed in China no horrifying spectaryation of 10,000

precated in the East. Weee they used in China no horrifying spectacle of the starvation of 10,000, 000 of people could sadden the world. Were these same appliances used in Egypt the poor la bore instead of 4 cents per day would receive ten times that a mount. In all Oriental culture the carth is not encouraged to yield up fits treasures of wealth to mankind. And even in this country farmers seem afraid to penetrate the deep rich soil, lest, perchance wealth of production may be poured out in overflowing abundance. The soil is far-richer than the gold and silver mines, and if treated judiciously will never become exhausted of its treasures. The produgal and out the frugal main, comes to want.

some years ago; and he added; «An aere of land will produce corn enough to support a human being, hat an aere of water will support several persons, and could to sustain the live. y support several persons and could readily be made to be sufficiently as the following proper aid, to sustain the lives of many more. The former proper and to sustain the lives of many more. The former proper and the following working, planting many more than the following working, planting may be planting the profit is reasonably large that the same between the profit is reasonably and hard profit is reasonably and hard profit is reasonably large that the profit is reasonably large that the profit is reasonably large that the same and the profit is reasonably large that the profit is reasonably large the profit is reasonably large that the comment is reasonably large that the count affect of the profit is reasonably large that the comment is a

showers. Many have done a stupid find by residue the substant in pid fining by raising the standard of the pid fining of the frainful of the reach of the roots of lungry plants. Deep plousbing enables in dry weather the deeper moisture to reach the roots of earlier of the substant and the substant that the reach the roots of the cops are not shad and in we weather the superage of the substant that the roots of the cops are not shad the roots of the cops are not substant the roots o

Praise is not valuable unless it comes from one who also the courage to condemn.

What is the difference between a jeweller and a jailor? One sells the watches, the other watches the cells.

Nothing is troublesome that we do willingly.

In writing, always use capital letters where capitals should be used—dot your is and cross your t's—if you would have your writ-ings chirographically right.

ings chirographically right.

There is often one kind word, one look of sympathising affection, or one small act of disinter exted love, more of real noble less of spirit than in actions which law ring in the ears and found an echo in the hearts of admiring thousands.

The sure way to be deceived is POC to believe ourselves wiser than others.

Facts are very stubborn things. M said a husband to his wife. Are they she answered; then, what me a fact you must be.

De not express your apinion too freely and decidedly when it differs from those around your marrily for the sake of saying what-I think," when no good will be west sike FIBLE SOFARE.

"There," gasps John Bull, wi ping his heated brow, "thank "ca yen that hold hobelisk has landed

that last.

The following laconic epitaph carved on a Spanish temberone, should be remembered: "I was well, I tried to feel better, took ohysic, and here I am.

Mamma—SLook, Ci-sy, hore is the dear doctor coming. We favorite he is. See, even the lift the chickens run to meet him. Cissy—Yes, ma; and the little ducks cry quark, quark.

these cry quark, quark,"

The pathway of life is full of difficulties, but diggins says he has about made up his mind that one of the hardest things in the world for a man to do is to admit to his wife that he has been in the wrone. wrong.

Wrong.

It is reported that when the exact met the hero of Plevna, and congratuluated him on his bravery, the intropid Osman replied, "Sire," I fight for fatherland," "True," said the exar, "and I also fight for farther land,"

I look upon the simple and childish virtue of veracity and honesty as the root of all that is sublime in character. This reali-ty is the foundation of friendship, religion, poetry and art.—Emer-son.

Yes, lets have an American kitchen at the Parish Exposition. The cook must be seated in a cold stove, reading novels.

A passionate and revengeful temper renders a man unfit for advice, deprives him of his rea-son, and robs him of all that is great and noble in his nature.

Love teaches cunning to inno cence. and, when he gets p sion, his first work is to dig within a heart and there fie
