

The Headlight.

THOS. R. PENN., Publisher.
Gray's Station, Saturday, February 11.

THE KENTUCKY LEGISLATURE is considering the question of moving the capital of that State from Frankfort to Lexington.

A \$4,000 MONUMENT to Gen. Garfield will probably be erected in Chicago, and the money will be raised by popular subscription.

AFTER TWENTY-two years of the abolition of the gallows, Iowa returns to it with vigor and hearty enjoyment. One or two other states have had a similar experience.

GERMANY and Austria have published a treaty of an alliance for aggressive and defensive purposes. Its tone is conservative and conciliatory, but it is a warning to Paris and St. Petersburg that the confederation along the Rhine is complete.

CONGRESSMAN MARTIN, of Texas, has introduced in the House a resolution instructing the Ways and Means Committee to report a bill repealing internal revenue taxation. He will hardly meet with the success that he did when he blew out the gas—Savannah News.

The proposed celebration in New York of the one hundred anniversary of Washington's inauguration will probably not take place. "The committee having the matter in charge is composed of 100 members. A dozen good men might have accomplished something, but a committee of 100 is unwieldy."—Ex.

MISS FREEMAN, the Omaha school marm who, during the blizzard, saved her pupils by trying them in line to a piece of twine and leading them out of danger, has since received nine offers of marriage. The men probably think she would keep the little ones in the paths which they should tread.—Savannah News.

ADELINE PATTI never takes any out-of-door exercise. She is very much afraid of cold air, and when she goes out for a drive in winter she wears herself in furs, the up her feet, and even puts cotton in her ears. She never speaks in the night air, and when she runs from the stage door to her carriage her mouth is covered by the scarf that goes over her head.

MR. and Mrs. William B. Wright, of Michigan, were married for the second time the other day. The pension business was at bottom of the affair. They were first married in 1840, but lost their marriage certificate. Mr. Wright is the recipient of a large pension from the government, and knowing that, in the event of his death, it would be very difficult for his wife to draw the pension without having a certificate, he had a new ceremony performed. He now awaits the coming of the grim monster with composure.

THERE is said to be a row in the First Presbyterian church, Washington, which the President attends, over a fiddle that has been introduced into the choir. Since Mr. Cleveland took a pew there that old fashioned place of worship has been looking up, and has become the favorite of fashionable people, who thought it would add to the attractiveness of the services to hire a full orchestra to support the choir. Most of the congregation is pleased, but some members object to that use of such musical instruments in sacred worship.

ANOTHER foot race for a bride has taken place, this time at Fulton, Mo., and between a Texan and a young Lochinvar who came out of the West. The girl favored the Westerner, but the father vote for Texas, who was wealthy. Both lovers procured a license, and, seeing it was a matter of speed, started out of the Recorder's office on a night run. The distance to the young lady's home was a half mile, and the Texan, whose wealth had implanted within him habits of ease, came puffing in 100 yards behind the Westerner, just as the marriage ceremony was completed. Poverty was better than riches in that case.

TARIFF.

From the Jasper County News.

Mr. Editor.—I recently received a specimen copy of the Atlanta Constitution, in which they beg and beseech each one, in whose hands it reaches to subscribe for the great family paper, and help them to raise their subscription list to two hundred thousand and in this same issue they advocate a high protective tariff, as the correct policy of the government, and as strongly advocate the abolition of our internal revenue system, and thereby hangs their hope of retaining the iniquitous import duties upon the necessities of life. I venture the assertion there is not a fair minded gentleman in Ga. that will say that it is better for the masses, to cheapen the price of whiskey, rather than the necessities of life, and yet this is just what the Atlanta Constitution advocates. Let us see what becomes of these two taxes. Who pays the tax on whiskey? the consumer, and the revenue derived from it, goes into the U. S. treasury, and this revenue goes to the support of the government, and to the extent of the revenue derived from whiskey, to that extent the great body of the people are relieved from taxation. Some of your readers might ask the question; why is it, that the Constitution advocated a policy, that in its operations upon the masses, tends to make the poor, poorer, and the rich richer; the question is easily answered. Mr. K. P. Howell and Henry Grady are interested at Ansonia Ala., one of the great Iron Centers of the south. It is readily seen that the power behind the throne, is not the good of the poor people, but the building up of their private fortune, regardless of the oppression which our odious tariff laws bear upon the very farmers, who they ask to assist in building up their circulation, such affronts to the Iron business and why should the government with its strong hand tax every citizen that uses a piece of Iron manufactured at Ansonia, and then turn the entire tax over to the manufacturer. This is protection per se, and only goes to fill the already overflowing coffers of the monopolist, and this is what the great family paper, the Atlanta Constitution favors, but on the other hand the tax from whiskey, which goes to bear the expenses of the government, and lessen the burdens of taxation of the poor man, it favors total abolition. To illustrate this issue more fully, we have recently been beneficiaries of a Rail Road through our country, and all honor to Mr. E. C. Tichenor, indomitable will and perseverance. The tariff on steel rails used by this road is seventeen dollars per ton, estimating about eighty tons per mile, we have \$1350.00 per mile bonus to the manufacturer of steel rails. The road from Macon to Monticello being about 50 miles, gives us \$67,500.00 added to the cost of construction, by operation of our tariff laws. Who pays this \$67,500.00? surely not the constructors of the road, the people who patronize the road both in freight and passenger traffic will pay every dollar of it, and this extra tax levied upon the people, under the guise of taxation, does not one dollar go to support of the government, but every dollar of it goes into the pockets of eleven manufacturers in the United States, who have a monopoly in the manufacturing of steel rails. And when we take into consideration the vast number of miles of Rail Road in Ga. and that these rails have to be replaced every ten years, we are confronted with a robbery of over \$2,800,000.00 dollars annually, that the patronage of Rail Roads in Ga. have to pay, and when I say patrons of Rail Roads, I do not mean the merchant and the man who travels for pleasure. I mean the consumer, the farmers who consume the freightage of these Rail Roads. And when we reflect that this is only one, out of the 4000 articles that the patronage of Rail Roads furnish as protection to the manufacturers, we are confronted by a stealage, whose enormity is inestimable. And this same great family paper, the Atlanta Constitution, advocating this policy such deception and demagoguery never existed even in a ward politician. Why should the farmers patronize a paper, whose every issue is teeming full of protection per se, when this policy of the government is crushing to earth, the very foundation stone upon which the prosperity of all nations are based on.

E. L. Campbell.

ITEMS OF INTEREST.

Scientists say that shutting the eyes makes the hearing more acute. It is said that it takes every year 100,000 horses' tails to keep a Pawtucket, R. I., hair-cloth factory in running order.

The British government is making efforts to cultivate oysters on the shores of Tasmania, and is said to be meeting with good success.

It is said that Alaska will become a great mining country within a few years, and will furnish salmon enough to supply all creation.

A Salt Lake mother arose in the night at the solicitation of her daughter and rubbed 50c. worth of cough medicine on the latter's rheumatic limbs. The cure was immediate, but the pains returned as soon as the mistake was discovered.

Among peculiar dishes which form the food of Spaniards are odd combinations in which black beans, dried codfish and dried red peppers are the chief ingredients. To almost every dish a Syenard adds black, red and white pepper and onion, garlic and olive oil.

A mule that weighs 1,500 pounds and lacks only two and a half inches of being six ft. tall is owned by a St. Louis firm. From morning until night Jumbo tramps away the time in a two-horse tread mill grinding feed for hundreds of horses and mules and grows fat with the exercise.

A curious fashion of boring through wet sand is being practiced in Eastern Europe. A row of iron pipes is driven through the yielding sand, a freezing mixture generally chloride of magnesium cooled by expansion of ammonia, is then passed through the pipes, returning is means of smaller tubes contained within larger ones. By the mixture the wet sand is frozen for a considerable distance around the pipes, and is then easily excavated and the pit shaft built. The same plan was recently adopted in making a tunnel under the city of Stockholm.

Patrick Casey, of St. Paul, killed one of his geese and found a peculiar metal in its crop. His curiosity led him to slaughter another goose, the crop of which contained about the same quantity of the same metal. About a teaspoonful was taken from the crops of the two geese. The mineral was taken to the jeweler, who pronounced it gold beyond all question. The geese were most of the time in the river, which is very shallow, or on the gravelly bank near a spring, about which is much gravel, the accumulation of ages.

When the first vessel completed the passage of the then Erie canal, in 1825, there being no such thing as a telegraph in those days, the news was communicated to New York and to Buffalo by cannon played within hearing of each other all the way along from Albany to each of the other cities. The signal was passed along in this way from Albany to New York city and back again to Albany in fifty-eight minutes. This is quicker than a telegraph message can be sent over the same route and answered nowadays, considering the time usually consumed in the delivery at each end.

A railroad velocipede is at present experimented upon by the military authorities of France. It is a wagon of very light build and little weight and has four wheels of 30 inches diameter, with rims constructed for running on rails. One man can move it at a speed of forty to fifty miles an hour. By means of a brake it can be stopped in a distance of five yards; that is, almost instantly. It can be easily lifted off the rails by one man to get out of the way of a locomotive, for instance, and as easily replaced after the train has passed. By fixing gutta-percha rings around the wheels the velocipede can be prepared to run on country roads. The durability of these machines, as constructed by the French, is said to be marvellous. Such an engine, if practicable, might solve the problem of private conveyances running on railroads as on highways.

SHERIFF'S SALES FOR MARCH.

GEORGIA—Jones County.

ON the first Tuesday in March next during the legal hours of sale before the Court House door in said County, I will sell at public outcry two hundred acres of land more or less, being one hundred and fifty acres off of lot seventy-two, all of said lot south of Long Slash, and fifty acres off lot sixty, parallel to lot fifty nine in the sixth District of said State and County and known as the Tom Stewart place—adjoining lands of John Baker, Mrs. Nancy Balkom and others. Leveled on by virtue of a fi fa issued to the April Term 1888 of Jones Superior Court in favor of Elizabeth J. Lowe vs. Lafayette Balkom, as the property of said Balkom, the same being in his possession. Written notice of my served said Balkom as tenant in possession. This 25th of January 1888.

W. W. BARRON,
Sheriff Jones County.
Printer's fee \$9.90.

TOWN AND COUNTY.

Mrs. E. G. HARDEMAN, Local Editor.

Hon. A. H. Colquitt visited Macon
this week.

The farmers have had several
pretty days for work.

A baker may have his shop in the
west, but his work is always rising
in the east.

The State Agricultural Society
will hold their convention at Way-
cross, the 14th inst.

February will have five Wednes-
days the present year, which is a
very unusual thing.

Pigeons are so numerous in Al-
bany that it is feared they will be-
come a nuisance.

There is one good thing about a
wire fence—it cannot be used for
posting patent advertisements.

A new paper to be known as the
"Floville Star" will make its ap-
pearance at that place in a few days.

There are twenty-seven pensioners
in Whitfield county, and \$251 is
paid to them each month from the
pension office.

Capt L. W. Robert has been quite
busy for several days collecting sub-
scriptions to the C. & M.—Jasper
County News.

There are several small enter-
prises on foot for Grays which if
carried out will be of considerable
value to our town.

The HEADLIGHT wants a corres-
pondent from every section in the
county, who will send us each week
the news items of that section.

Any person who will get us up a
club of ten subscribers (to be sent
to one post office), and send us \$10,
will receive a copy of HEADLIGHT
for one year.

The officers of the C. & M. R. R.
have engaged rooms over the store of
N. B. White & Co. and will hereafter
transact business at that place.—Jas-
per County News.

According to a recent count,
made for leap year purposes, there
are in Griffin 165 widows, 23 wid-
owers, 24 old maids and 23 old
bachelors. This is startling, if not
terrifying.

There are nearly 200 divorce
cases on the docket of Fulton Su-
perior Court. Some of these suits
have been in the court several years.
For the most part they are devoid
of romance or sensation.

THE BRILLIANT.

Biscuit Smith is now the presiding
genius of THE BRILLIANT
MAISON, the finest in Macon. He
gives his customers the best to eat,
best to drink, and furnishes full beds,
doing more for his patrons than any
man in Macon.

CLINTON LOCALS.

Mrs. Virgil Pagan of Port Valley
spent Friday with Mrs. Greaves.
This is rather moist weather to
begin gardening, however some of
us have planted.

Mrs. Blow an aged widow lady
died at her home near Pine Ridge
one day last week.

A marriage in town Thursday
night, the high contracting parties
were of the colored persuasion.

Miss Ida Stripling, with her
nephew and niece Gussie and Olive
Roberts was in town Thursday.

Mrs. Ida Ingram visited Macon
Monday. Miss Sallie Bowen is also
in the Central City, the guest of
Judge David Blount on Walnut
street.

Mrs. F. S. Johnson of Macon ac-
companied by her guest Miss Marie
Lynum of Oswego, New York, is
visiting Judge Richard Johnson of
Clinton.

Mr. Robert Bradley our young
jailer is wearing a long visage since
he began housekeeping, he has had
not one boarder this year. None at
all present.

Judge Ross has so far recovered
as to be at office and able to preside
at regular last Monday County Court.
There was quite an attendance at
the court last Monday.

Mrs. Dr. Hardean and daughter
Maggie of Haddocks have recently
returned home from a pleasant visit
to relatives in Macon, Sandersville,
Dublin and Jefferson county.

Sunday was regular preaching
day with us, and although this was
the first service at the Methodist
Church since November 1st, very
few attended;—excuse the fearful
mud.

We are glad to learn that Mrs. J.
T. Finney is thought to be improv-
ing some. We hope she will soon
be restored to health. She has
been critically ill for a number of
weeks.

The weather is bright and farm-
ers are brightening up and begin-
ning to fix up plow gear. May we
not soon again "behind the weeping
of the clouds," for indeed we have
had enough of the days that are
"sad and dark and dreary."

Blanton Hardean, the worthy
and only shoe-maker of the village,
has a hen which has been carefully
noticed for nine years, the time
since she was hatched. She not only
hatches and raises two broods of
chicks per annum, but scratches
for other chickens in the intergen-
ium.

Theodore Bryant carries off the
"palm" as a pork raiser. He shipped
from Morton's Station (near his
farm) on the evening of Feb'y 3rd
to Macon a dressed pig weighing
500 lbs. It was sold to Butcher
Woods for \$35 and required seven
men to put it in the car. Mr. Bry-
ant has killed the past season five
of these porkers, has the other four
(2000 lbs) in his smoke house.

Universal regret and surprise is
expressed by all upon the sudden
death of Mr. J. H. Campbell, who
had many friends in this county.
Since his connection with the Ma-
con Telegraph the great improve-
ment in the paper has been notice-
able. His place as one among the
most reliable citizens of Macon will
be hard to fill. He made a success
of all he undertook, and was a popu-
lar man with all classes. Suitable reso-
lutions of sympathy etc., were passed
by the Board of Trade of which
he was a member, the Typographical
Union and the Police force, upon his
death. Mr. Campbell's wife was
Miss Fannie Blount was born in
Jones county and was a daughter of
Judge David E. Blount, and niece of
the Col. J. H. Blount. She died
about five years ago, leaving two
daughters Misses Maude and Emma
Lee. Mr. Campbell was a most de-
voted and indulgent father.

Mr. J. C. Barnes, of Butts county,
carries a minnie ball in his pocket
that was shot through his body dur-
ing the war. The ball entered his
right side and passing through his
kidneys lodged in his left hip. Af-
ter annoying Mr. Barnes for several
years he took his pocket knife and
cut several inches into his flesh and
removed it.

FROM WAYSIDE.

Mr. J. T. Finney will have charge
of the school this season.

Mrs. J. J. Barfield has returned
from Hawkinsville much improved
in health.

Mr. T. J. Green will soon com-
mence the erection of a handsome
country residence.

A young man of this neighbor-
hood who is continually trading
horses here at last secured one that
will work no where but to the plow.
This gave him a good deal of trou-
ble in mind, as he was wanted to go
to Macon in order to mortgage him
for advances. He at last hit upon
the idea of shipping the horse on
the C. & M. R. which he did and
now is as happy and serene as ever.

In company with several friends
on Sabbath afternoon last, we vis-
ited the old homestead of the elder
Carsons, one of the pioneer families
of Jones county.

The three following items are
clipped from the Madisonian:

Eight carts and wagons belonging
to Capt. Toon Powell, passed through
here Wednesday en route to Shady
Dale where they go to haul dirt for
the Macon and Covington railroad.

Messrs. Powell & Davenport, rail-
road contractors, passed through the
city yesterday on the way to their
camp between Madison and Montic-
ello, where they have a contract to
lay cross-ties for the Macon & Cov-
ington railroad.

The Macon & Covington road is
paying all demands as fast as they
are presented. Messrs. Turnell
Brothers, of this city received a
check from them several days ago for
over \$3,000.00 due on provisions fur-
nished last year. We congratulate
our friends on their collection, and
the road on its solvency.

FROM BRADLEY'S.

Mr. J. W. Bradley has completed
his store and has a very fine stock
of goods on hand.

Messrs. D. T. Middlebrooks and
J. W. Jolly went to Macon last
Sunday and returned Thursday.

We attended a lively hop at Mr.
Frank Clark's last Friday night.
Everybody had a gay time. Three
charming young ladies from Clin-
ton were in attendance.

Our good friend Bill Winters was
in our little village yesterday. He
has just recovered from a severe
attack of rheumatism, and we were
glad to see him looking so well.

We enjoy reading the communi-
cations from your correspondent at
Haddock's very much, but think he
is most "too fresh" for a salt water
fish. Samba.

to sell, at all stations on the C. & M. Railroad, their
—CELEBRATED BRANDS OF GUANO—

Merryman's A. D. Bones,

Merryman's GEORGIA TEST.

We can say without any fear of contradiction that Merryman's Fer-
tilizers are to-day, as they have been for 30 years, at the very top in
excellence, and the perfect satisfaction they give to planters.

While most of the popular brands on the market in past years have
changed the grade of their goods by lowering their grade, Merryman
has continually improved. We do not make these statements at random.
We refer to any planter in Jones and Jasper counties who have used
Merryman's Guano, and will stake our reputation on the result.

—WE ALSO HANDLE—

SOLUBLE BONE DUST

for composting, which is the highest grade acid on the market. We sell
cheaper and phosphates; also Kainit, and are agents for the Macon Oil
& Fertilizer Company for the sale of their Cotton Seed Meal.

We can give low prices on these goods, and are ready to deliver now.
Our Agents will call on the good people of Jones and Jasper coun-
ties, and we will trust to their orders.
