### OUR TICKET.

FOR PRESIDENT:  
**Grover Cleveland**  
OF NEW YORK.

FOR VICE-PRESIDENT:  
**Allen G. Thurman**  
OF OHIO.

FOR GOVERNOR:  
**John B. Gordon.**

FOR CONGRESS 6TH DISTRICT:  
**Hon James H Blount**

Baldwin, and Jasper Counties, has instructed for Hon. Jas. H. Blount for Congress, and John B. Gordon, Governor.

The betting in New York is ten to seven on Cleveland, and the republicans are not taking the bets at a very lively rate even at these figures. The confidence of the republicans in the success of their ticket is not as great as they pretend it is.

At a prayer meeting in Indianapolis the other night Mr. Elliott F. Shepard of the New York Mail and Express made a political speech, in which he abused Cleveland and Thurman. Nobody ought to expect anything better of Shepard. He is a crank.

Jumbo Jewett was in Macon, on exhibition the 4th of July. Jumbo weighs 649 lbs. He has a good looking and intelligent face, and his feet and hands are of ordinary size, but his body, legs and arms are simply fearful in size. He says he suffers no inconvenience from his fatness, beyond pain in the feet, caused by supporting such an immense weight, never has the heat and is an average eater. He weighed six pounds at birth and up to the time he was twelve years of age was an ordinary boy. At that age he began taking on flesh, and lots of it has been taken on. He was twenty-five years old last March, and has no idea when he will stop increasing in weight.

### JURY TRIAL.

The principle of being "tried by the judgement of our 'peers'" of the vicinity, is one of the great elements of a republic, and the greatest characteristic of a free government.

The Jury room is a school in which the citizens of a Republic learn to weigh facts, to balance arguments, and the habit of deliberation—in a word it is the school in which the man is educated into the citizen. The true popular element of our judiciary is to make the citizen a member of the court in the administration of Justice, between the state and the citizen, and between citizen and citizen. And no consideration should out weigh the advantages resulting from a personal Participation by the citizen in the administration of Public Justice." This view of the Jury question is an important one, a view or point from which our people have not as fully considered it as they should. It is a question which should be considered by the Jury commissioners in all of the counties of this state. The question before them, is not, will 2, 3 or 5 hundred or one thousand names in the Jury Box be enough. They should consider the importance of this schooling in a Democratic or Republican government, to its citizens and give every "intelligent and upright citizen" of the county a chance to take part in the administration of the public justice. This is the magna charta idea, and there is no star chamber in it.

Athens Banner-Watchman: The C. & M. under the management of Col. Machen, is moving into Athens just as fast as possible. A gentleman who passed over the line yesterday says that in the next thirty days the cars will whiz in the Apalaches. The bridge over the Apalaches is finished, and the first engine passed over the bridge Thursday. Two much praise cannot be given to Col. E. C. Machen, the gallant Kentuckian, who has surmounted every obstacle and is now ready to roll into Athens.

ITEMS OF INTEREST.  
There have only been fifteen different versions of "Sheridan's Ride," and now that he is getting better the other twenty ought to come in.

It has been discovered that there are at least 150 Mormons living in Atlanta, but eggs are at no use. They put in a year learning to dodge 'em.

The idea of zinc pads under a draught horse collar was original with an Englishman, and he sold his knowledge to a Yankee for a glass of beer.

A Chattanooga girl dreamed that her lover asked her to go out and eat ice cream, and she sprang out of her chamber window in eagerness to accept.

Jay Gould receives an average of ten begging letters per day, and seven of them are certain to end with, "And I will always pray God to bless you."

Mr. J. B. Toomer, of Athens, has several pieces of silver that his family brought over from Wales in 1647. It is worn considerably, but still used as coins.

Wagons bearing immense advertising signs are permitted to follow Chicago funeral processions through the streets. There is no ordinance to prevent, and the Fool Killer never takes in that town.

The grand Centennial Exposition at Cincinnati opens on the 4th, and will close on Oct 27th, '83, bids fair to be a success. Worthen thanks to Chairman Printing and advertising committee, for courtesies extended.

The Countess of Aberdeen is a warm friend of Ireland. She wears shamrocks in her bonnet in London and one of her handsomest costumes is a gray Irish poplinembroidered with sham rocks.

Mr. Hector Thomas, a brother of Colonel L. P. Thomas, and for many years a resident of Atlanta, was killed by moonshiners in Indian Territory a few days ago.

Billy Newberry, of the city engineer's department in St. Paul, is a man of phenomenal natural strength. He is able to lift a heavy man by his teeth, and can snap steel stove poker like broomsticks by twisting them aloft and bringing them down quickly over his left forearm.

William A. Smith, who died a few days ago in Richmond enjoyed a unique distinction. He resigned a seat in congress because he did not think he had sense enough to properly represent his constituents. This is the first and probably the last instance of the kind.

Dade City, Fla., exhibits an alligator fourteen feet long and with a spread of jaws capable of taking in a cigar barrel. If this reptile is worked as he ought to be Dade City will succeed in getting up a boom.

A woman was passing through the grand hall of the Glasgow exhibition a few nights ago with a baby in her arms, when the band began to play. The child screamed with fright and died.

The gold mines of North Carolina are again being vigorously developed, and exceptionally rich yields are reported from most of them. At the Mann-Arrington, in Nash county, some men who were at the tailing merely are said to make \$24 a day.

The skeleton of an Indian princess was found near Montgomery, Ala. the other day, and on it were found in a fair state of preservation a silver coronet and silver bracelets and necklaces. These relics were presented to the agricultural and mechanical college at Auburn, to be placed with the Strassburger collection.

THE FARMERS' ALLIANCE.

Declaration of Purposes by the  
Farmers of Georgia.

We, the farmers of Georgia, feel-  
ing the importance of a closer bond  
of union between us, in order to  
secure a better regulation of our  
financial and home interests, naturally  
agree to form ourselves into an as-  
sociation, to be called "The Farmers'  
Alliance."

These are our principles:

1. We believe in the existence of  
a Supreme Being, who rules and gov-  
erns the universe.  
2. We believe the Bible to be our  
Book of Truth, and adopt it as our  
way-kill through life.  
3. We believe in and assert the dig-  
nity of agriculture.  
4. We aim to bring about the adop-  
tion, by our class, of more improved  
methods of farming.  
5. We believe in the acquirement  
by all who can, of a knowledge of  
scientific agriculture.

6. We labor for higher education  
of our class generally.

7. We favor the adoption of all la-  
bor-saving implements and machinery  
for farm work.

8. We labor to adorn and beautify  
our homes and render farm life more  
attractive.

9. We labor to bring about among  
our class a better feeling socially.

10. We labor for the education of  
our class, in the science of economic  
government, in a strictly non-partisan  
spirit.

11. We believe in the enactment of  
but few laws, to be faithfully ex-  
ecuted.

12. We believe in the principle of  
equal rights to all and special favors  
to none.

13. We believe in the principle of  
letting the office seek the man, and  
not the man the office.

14. We are unqualifiedly averse to  
anarchy, socialism and agrarianism,  
in whatever form it presents itself.

15. We believe it essential to free  
government that every man own a  
permanent interest in the soil.

16. We are utterly opposed to all  
monopoly, as contrary to our institu-  
tions and dangerous to the liberties  
of the people.

17. Lobbying we believe to be  
against the welfare of the people, and  
should by law be punished.

18. Dealing in "futures" in agricul-  
tural products we believe greatly de-  
moralizing to the country, deranging  
to just values, and should by law be  
suppressed.

19. We aim to inaugurate among  
ourselves a system of co-operation in  
buying and selling, and to try, by all  
just means to better our condition  
financially.

20. We believe in the doctrine,  
"pay-as-you-go," and urge upon farm-  
ers the abandonment of the credit  
system as speedily as possible.

21. We wage no war upon any  
other class except extortioners; but  
recognize the right of all to better  
their condition by just and honest  
methods.

22. We believe in the right of every  
man to acquire as much money as he  
can, honestly, provided he does not  
use it to the injury of another.

23. It is against the spirit of this  
order for any brother to go to law  
with another, but all disputes should  
be settled among themselves; or fail-  
ing in this, by arbitration.
