Gray's Station, Saturday, March 24.

GOOD FRIDAY comes on the 30th of March, and Easter Sunday the 1st of April.

It is estimated that London in another century will contain eleven millions of people.

Mr. HENRY BEHON, the founder of the society for the prevention of cruelty to animals, is dead.

THE LATE Emperor William, of Germany, is reported to have left estate valued at \$5,000,000.

THE great storm throughout the north and east, last week, is said to have been the severest known since 1855, which is 33 years ago.

PRESIDENT NORTHERN is earnestly at work in the interest of the State Agricultural Society. The coming Fair will no doubt eclipse anything of the kind that has ever occurred in the State.

A FEARFUL disaster occurred a few days ago, near Blackheath Ga., in which a number of persons were killed and a great many wounded. A trestle gave way while a train was crossing and the entire train was demolished.

THE GRAND Inter-State Military encampment and Celebration which comes off at Austin Texas, May 14th to 19th inclusive, promises to be a grand affair. There will be offered twenty-five thousand dollars, (in gold), in cash premiums.

MR. JENKINS, of Jenkinsburg, who does plumbing at Floriova for the East Tennessee, Virginia and Georgia railroad, flits his tank by 3 o'clock in the evening and then walks to Jenkinsburg, ten miles. He says he had rather have the exercise than the free ride on the train. Mr. Jenkins is between sixty and seventy years old.—Floriova Gossip.

GOV. HILL, of New York, has two brothers living in Missouri. Erasmus W. Hill resides at Malden, is 55 years old, and is engaged in the real estate business. His youngest brother, Dr. Alonzo D. Hill is a practicing physician at Dexter, and served in the Federal army. Both are Democrats. The Governor is prepared to appeal to both Northern and Southern voters should he become a candidate for President about the year 1900.—Savannah News.

FOUND DEAD.

Yesterday afternoon, Mr. J. A. Anchors, of Jones county, came into the city to purchase a casket of Undertakers Wood & Bond, for the remains of Mr. Edward Blount.

The story connected with the death of Mr. Blount, is distressingly sad. The deceased was about 55 years old, and a brother of Judge David D. Blount, and half brother we believe, of Congressman Jas. H. Blount. He was living on the Blount plantation, near Hadoch station, was a bachelor and lived a retired life in a house which he occupied alone. Frequently he would come from his home and would be gone for several weeks, hence, his last disappearance excited no suspicion, for it was supposed that he had taken one of his trips.

Yesterday morning the startling discovery was made that he was dead. We have been unable to learn the full particulars of the finding of the lifeless body, but, we understand, that parties who were attracted to the house, had to break down the door in order to effect an entrance. The body was found in a very advanced stage of decomposition, almost unrecognizable, suggesting the belief that he had been dead almost two weeks without any knowledge of its being known to any one. No suspicion of foul play is suspected, but it is thought that Mr. Blount died from natural causes. It is said that he was last seen about 10 or 12 days before his dead body was found.

The casket for the remains was shipped this morning on the Augusta train. The burial will take place on the plantation in Jones county.—Macon News.

ITEMS OF INTEREST.

When a Boston girl reads one of Howells' love stories she generally is affected to tears, and little circles form on her cheeks.

A big burr oak tree was recently felled in Pike county, Missouri. It was cut up into 429 railroad fence posts and nine cords of store wood.

While plowing in a cotton field the other day, Jack Reinhardt, of Lincoln county, North Carolina, stumbled upon a rich vein of gold. He has been offered \$20,000 for it but refuses to sell.

A ranchman at Sayara, Col., has a pig that has a perfect dog's head, with dog's hair covering the head and neck. Excepting this and a short and bushy tail, the rest of the animal is like a pig.

One of the weekly newspapers of Hartford, Conn., goes this week to this address: Hopwoodway, Y. Moodlar, care of Sierlar, R. Carolina, Viadurumg Moodlar, Rest-ays Post, Pousa, India, Bombay Pres.

Opoponax is the name of a new perfume that has suddenly become very popular in Paris. It is said to be made chiefly from carrots, and has what may be termed a modified smell of that vegetable.

The largest block of granite ever quarried in this country was recently quarried at Auburn, Me. It is 70 feet long, 35 wide, and 20 feet thick, and contains 49,000 cubic tons, and will weigh about 4,900 tons.

Mrs. Eliza Garfield was the only woman who saw her son, the late President of the United States, Washington's mother was living in Fredericksburg Va. when the Father of His Country was inaugurated, but she did not witness the ceremony which took place in New York.

A Philadelphia shoe house recently received an order for a pair of slippers from a member of the Japanese royal family, the Princess Tanabe Kin. The order was accompanied by a piece of paper on which was traced the outline of the royal foot, with the necessary measurements. It calls for a No. 21 slipper.

Of 6000 tornadoes in the United States not more than 75 were east of the Allegheny Mountains. The warm air tempestuously driven from the Gulf of Mexico up the Mississippi Valley is caught by the polar winds and driven in gyratory tornadoes across the prairies. Appalachian range serves on the Atlantic slope as a barrier against the storms of that sort.

Charles Boogher is the name of a well known character in the Bradford (Pa.) gas and oil regions. He has contended for some time that he could tell where natural gas could be got by boring simply by walking over the district. He says that its presence below the surface affects him with a strange tickling in the throat and choking sensation. Finding no one to put any faith in his claim in Pennsylvania he recently went over to the Ohio gas field where he succeeded in getting assistance. Since then he has discovered a wonderful gas spot at Delphos, in that State, a well sunk into which is said to be giving out some 5,000,000 feet of gas per day.

Of an iron egg in the Berlin museum the following story is told: Many years ago a prince became afflicted with a lovely princess, to whom he promised to send a magnificent gift in due time the messenger arrived, bringing the promised gift, which proved to be an iron egg. The princess was so angry to think that the prince should send her so valueless a present that she threw it upon the floor, when the iron egg opened, disclosing a silver lining. Surprised at such a discovery, she took the egg in her hand, and, while examining it closely, discovered a secret spring, which she touched, and the silver lining opened disclosing a golden yolk. Examining it closely she found another spring, which, when opened, disclosed within the golden yolk a ruby coronet. Sopecting that to an examination she touched a spring, and forth came the diamond ring with which he affianced her to him.

FROM GLOVERS.

Farmers are very backward in getting so much cash. Very little plowing has been done, and the Court House in said county within the legal hours of sale the high bidder for cash the following property to wit: One 31x8 horse power Farquhar, "Ajax" steam engine mounted, one 50 saw Brown Cotton gin, and one cottoniser, one long and one short rubber belt used with said machinery, one circular wood saw, frame and shafting. All the above mentioned property is in good order and almost new, and can be seen at the gin house on the premises of Thos. J. Green now occupied by Joseph Chiles. Said property is levied on as the property of Thos. J. Green to satisfy a judgment of the Superior Court of said county in favor of a R. Farquhar & Co. vs. Thos. J. Green. This the 28th day of Feb. 1888.

Dr. W. P. Glover has received the brick for his store at Clinton and it will soon be in course of construction.

Hon. N. S. Glover we are glad to say is improving, and when the roller chair arrives, we will be bringing him around in the open air.

Mrs. Green Pippins, mother of T. C. Pippins has been very ill several days and she is not expected to live. Drs. Holland and Anderson's physicians attending.

Dr. Charles E. Clark, of Texas surprised his friends and relatives a few days ago by peering in his appearance. He has not ten here in about thirty years. He is still a great talker and splendid company. He lived and practiced in Hawkinsville Ga. for over thirty years. The only thing to regret is that the Dr. makes such short stay.

The old dispensation is passed away and the new order, affairs are full of surprises. Previous to the coming of the railroads into this country, the sight of a ton of iron was a show. Now they can be counted by the hundred. Car loads of iron are being shipped at the different stations on both the C. & M. R. R. and the E. T. V. & G. R. and judging from appearance, our farmers are dealing largely in foreign fertilizers. Success comes from experiment, judgment and management, and we trust that the department from old forms will lead to success. Without a venture, Columbus would have never discovered America, nor Washington our country.

We are adverse to talking, and prefer listening, to writing and profer reading. We have opened the ball from this place, if you will excuse the expression, and as this will be our last, we hope some one will still give the HEADLIGHT the current news from this section. We know we have no Demoschenes or Ciceroes but the brightest genius is the handwork of the hardest labor.

own personal worth. My opinion here enters of his capacities, and the possible extent of their development, determines in his career whether he shall resemble an ostrich that hides its head in the sand or an eagle that cleaves the storm-clouds with wings that cut their way to the empyrean. Adieu, March 14th 1888. "Ike."

We regret very much to lose such an able contributor, as "Ike" has proven himself to be, and hope, however, he still declines to favor us with articles in the future, we trust another may fill his place. Ed.]

TOWN AND COUNTY.

—E. G. HARDEN, Local Editor.

Governor Gordon has accepted the invitation to deliver an address at the Commencement of Wesleyan Female College.

Dr. Mays speaks of building an office near the hotel for the purpose of collecting and exhibiting specimens of the minerals of Butts county.—Jackson Argus.

There is a certain *clown* town so well trained that whenever Mr. Edwards, the beef seller comes around unloading the door bell the cat meets him, ready for a piece.—Florilla Gossip.

The *Headlight* can say without boasting or fear of contradiction that it has as good a corps of correspondents as any weekly paper to its age in the State. We hope they will still continue to contribute to our columns.

A colored man from the extreme portion of the county called for a glass of ginger ale at Ballard's the other day. After drinking, paying his nickel and then making other purchases he said "give me another five cent worth of that wat I jus now drank."—Putnam Enterprise.

Mr. L. J. Poulin brought to town last Monday night a large watermelon, which he had kept stowed away in his room since last September. The melon is in a good state of preservation, and looks as fresh as if it had been but recently plucked from the vine.—Madison Advertiser.

On last Thursday morning as Dr. S. E. Brown was driving out of town in his road cart, his horse, from some cause began to back. The Doctor seeing the danger, leaped from the cart, and the horse and cart tumbled backwards into a gully. The cart was demolished.—Eaton Messenger.

Macon Telegraph of Monday, contains a special from Whitesburg and in it we note the following notice of one whom we Clintonians are interested in; "Whitesburg School is full to over flowing under the management of Prof. A. L. Barron, school larger than for years and growing, hope to number one hundred, etc."

The Madison Home Guards have given out a contract for thirty-five uniforms to Jacob Reid & Sons, of Philadelphia, through their agent, Mr. W. H. Burnett, in this city. The suits will be of very dark navy blue, with orange trimmings and gold braid. It will be an attractive uniform, and our boys deserve none other. Now let every member go to work in earnest for his company.—Madisonian.

The frightful accident at Hurricane river one mile from Black-shear Ga., on Saturday last, was the most dreadful that ever occurred in the state. The engine, passing over the trestle safely, but the rest of the train fell through to a distance of fifteen feet. The combination coach fell first, on it fell the passenger coach, the sleeper, and special car in which was President Wilbur. George son of Jay Gould and wife, the former with one son was wounded, another son was killed while both Mr. and Mrs. Gould were slightly injured. Twenty two persons were killed and thirty four wounded. The scene was heart rendering beyond description. The gallant Conductor W. L. Griffin, of Savannah was terribly wounded and may die.

CLINTON LOCALS.

Wasn't the weather just lovely last Sunday?

Preaching Sunday night by Rev. A. M. Phillips.

Mr. James T. Finney paid us a "popcall" on Friday.

Clinton school is growing every week. 20 scholars now.

Judge R. T. Ross and wife have both been sick last week.

Mr. and Mrs. Jeff Stewart are visiting Mrs. Samuel Parsley.

Prof. Will Renfro began teaching at "Springs" on the 12th inst.

Mr. Willis and Miss May Stewart of the Ridge spent Sunday in Clinton.

Kato Childs, daughter of our friend "J. R." has been very unwell from a severe cold.

Mr. T. J. Cator who died in Perry Ga., last week, was long years ago in business with F. S. Johnson Sr. in Clinton.

Annie, eldest daughter of Sheriff Hannon had quite a severe attack of pneumonia for the past ten days. We are glad to hear that she is improving.

Mr. Charles T. Griswold accompanied by his wife, have left James for Southern Georgia and Florida hoping the change will prove beneficial to the former.

The burial of Mr. Elmond Blount brother of Hon. J. H. and Judge David E. Blount, on Monday at the Bowen Cemetery near Haddock's was attended by Judge D. E. and Mr. Joseph G. Blount and Miss Alice Bowen of Macon. Mr. Blount has been an invalid for years.

At Dr. James F. Barron last Saturday a number of the family were assembled, the visitors were Mrs. A. J. Ben, Joseph W. Barron, Mrs. R. J. Smith, with Mr. and Mrs. J. T. Williams. Miss Sallie was also at home from Wesleyan College. The petite and charming Miss Annie Evelyn Williams who was celebrating on this day, her fifth birthday, interested the crowd by several very sweet recitations.

FROM ROUND OAK.

Mr. Edmonson.—As you have no correspondent from this point and I feeling an earnest desire for the prosperity of our county paper I will say aside my timidity and beg you for a small space of your valuable paper so that I may give you a few dots from Round Oak. When I tell you this is my first attempt in this line, it will be useless to add that I approach the *Headlight* with fear and trembling as I fear that formidable waste basket.

Mrs. Howell, from Warrenton is spending some time with her sister, Mrs. Marshall.

Round Oak is a thriving little town on the C. & M. R. R. about 27 miles from Macon and it is the most flourishing place between Macon and Monticello.

There are two stores at this place, one kept by Mr. J. J. Smith and his efficient and accommodating clerk, D. H. Barefield, who is doing a good business and is also Post Master.

We have a nice church, a large grist mill and one of the best grist mills in Middle Georgia and the best miller, Mr. Thomas Wilburn, he is a clever and jolly fellow and will give you just such meal as you want.

Messrs. T. M. & R. B. Hunt's store is a large two story building and they are doing a thriving business, and will sell you goods for cash or on time with approved papers. It will be hard to find two merchants that have made more friends and built up a better trade in so short a time.

Mrs. J. M. Hunt had the pleasure last week of entertaining her Uncle and Aunt, Mr. and Mrs. Winch from Boston, they were accompanied by their daughter and grand daughter Mrs. Hunt had never met her Uncle and Aunt before, and it was a pleasant meeting indeed. Mr. Winch is one of the largest wholesale shoe dealers in the United States, his business reaches up into the millions. They have been spending the winter in Florida and are on their way back to Boston, they express themselves highly pleased with the South, we hope they will come again.

The farmers in this vicinity are

rather behind with their work owing to so much bad weather. We hope however that they will soon catch up as they seem to be working with a vim.

"Round Oak."

FROM HADDOCKS.

"Winter lingers in the lap of Spring," was the expression of those who found the north wind last Thursday.

The presence of a non-descript poet drummer from Milledgeville made Haddock enjoyable one day this week.

Miss Lora Lamar, one of Macon's most popular and admired ladies, is the guest for a few days of Col. Mongdon's family.

Leroy Holt left on the Augusta train, ostensibly for Macon, but whether the time was spent there or elsewhere, dependent upon the not.

Miss Sallie Woodfolk, honored Haddock's, recently with a "short visit" to her home in Little where she will remain a brief period as a guest in that most hospitable home.

"This said and generally believed that there exists a 'blind tiger,' within a few miles of the Station. To splice the main brace, therefore, is not altogether impracticable to the initiated.

Off with the old love—on with the new. It is no secret that Ed Coleman has been desperately in love three times in as many months, and don't even remember all of their names.

An unusually pleasant Sabbath drew to Haddonville a good congregation. Macon supplied some of its fair daughters, whilst, our delegation of the beam-mound, were there in high feather and as they thought the observed of all observers.

Even now conversation more or less touches Superior court. This, a few weeks more, and numerous and diverse jurors, witnesses etc. will be found wending their way to "sweet Auburn"—Clinton court.

There is a fascination beyond meeting friends and acquaintances, that prompts us to make that semi-annual pilgrimage.

If the thought is not too straining love's young dream has fastened itself upon one of our young bachelors to that degree, that whilst the bane have not been published, it is said to aver that "ere many moons wax and wane, Jones and Macon will call to its aid, Orange blossoms, etc. This unexpected always occurs, but in this instance it has served them well, B. H.

FROM ROUND OAK.

Messrs. Harris and Conates of S. T. Coleman & Co. spent the day taking orders from our merchants. It was quite refreshing to witness the courteous, urbane and business manner of these young knights of the grip sack.

En passant. 'Twas not our fault if we overheard a rambling soliloquy, not unlike the melancholy Dana words interjected such as "though lost to sight, to memory dear," deeply emphasized. Console thyself, however, these are simply mimosas, and not as bad as measles.

Jasper's luck is fully exemplified in obtaining the services of Miss Lida Lester, the pride of the county to take charge of a school near Monticello. In this instance, fortune has tossed thee a jewel ye Jasperites; but it is "proclaimed in Gath," that not another shall be so ruthlessly taken. Voila tout.

Within a radius of two miles more or less there are three schools whose curriculum precludes the necessity of any one sending their children abroad. Mrs. Lester embodies a life time of learning. Mrs. Gus Pitts is pre-eminent as an instructor, whilst Miss Norman, enjoys a distinction in that particular.

Consistent therefore, demands that all of ours shall be there, and they shall.

In the memory of that obituous creature, the "oldest inhabitant," a Guano famine was never before known in this locality, but it prevails all the same, and it is possible, yet probable that the sellers, sought to be a little previous, and in lieu of the usual famine in collections deemed it best to have it prevail in the beginning. Their foresight is to be commended. A limited inquiry develops the fact that the "farmers alliance," is being agitated in our midst, and whilst it has as yet assumed no tangible shape, if some one with proper energy would formulate a plan of action, we would all be in a position before very long to enjoy the many benefits that other counties already possess. No politics, no paid office, no absorbers. Think of it ye progressive

gentlemen with a view to measures of concert.

Quadrangle reigns supreme at Haddock, which by the way is a good one, for the sovereignty of the soil are low putting in their best foot. Patterns are limited to the "Barrelle-bronze" sort, and professionals who have forgot something that causes their making another trip, thereby practicing a little deception upon the "girl left behind me." Should your curiosity prompt you to make inquiry concerning certain ration, who were to make up those confabulated suits, be somewhat cautious as to those you address. It is a very tender subject herabouts. "Fareth."

An Orlando (Fla) newspaper man substituted a pair of sand-hill cranes for watch dogs, and he finds that their loud clear note of warning when a tramp comes near, is an effective means of protection.

Planters Read.

We have this day contracted with Messrs. JOHN MERRYMAN & Co to sell, at all stations on the C. & M. Railroad, their

—CELEBRATED BRAND OF GUANO—

Merryman's A. D. Bones,

Merryman's GEORGIA TEST.

We can say without any fear of contradiction that Merryman's Fertilizers are to-day, as they have been for 30 years, at the very top in excellence, and the perfect satisfaction they give to planters.

While most of the popular brands on the market in past years have changed the grade of their goods by lowering their grade, Merryman has continually improved. We do not make these statements at random. We refer to any planter in Jones and Jasper counties who have used Merryman's Guano, and will stake our reputation on the result.

—WE ALSO HANDLE—

SOLUBLE BONE DUST

for composting, which is the highest grade acid on the market. We sell cheaper acid phosphates; also Kainit, and are agents for the Macon Oil & Fertilizer Company for the sale of their Cotton Seed Meal.

We can give low prices on these goods and are ready to deliver now.
