THE OFFICIAL CALL.

FOR THE TWO CONVENTIONS OF THE DEMOCRATS OF GEORGIA.

The national democratic committee having met in the city of Washington on the 23d of February, 1888, and having appointed Tuesday, the 5th day of June 1888, at noon as the time, and the chosen city of St. Louis as the place of holding the national democratic convention. And having declared in accordance with the established usages of the party that each state is entitled to representation therein, by delegates, equal to double the number of its senators and representatives in the congress of the United States, and that each territory and district of Columbia have two delegates, and a regular call having been issued to that effect, the democratic executive committee of Georgia being duly assembled in Atlanta on this the 21st of March, 1888, do issue this call to the democrats of the state for a convention of delegates to assemble in the house of representatives in Atlanta on the 9th of May, 1888, it being the second Wednesday of said month of May, then and there to appoint delegates and alternates to the convention to be held in St. Louis and to transact any other business that may be deemed appropriate under the above mentioned call of the national democratic committee.

The democratic executive committee of Georgia will meet at 9 o'clock a.m. on the 9th day of May, 1888, in the senate chamber.

STATE CONVENTION.

Another call is now issued for the state of Georgia for a convention of delegates to assemble in the house of representatives in Atlanta on the 8th day of August, 1888, it being the second Wednesday of said month of August, then and there to appoint electors and their alternates for the presidential ticket, and to nominate a candidate for governor, and for attorney-general, and the other officers usually called the statehouse officers; to appoint a new executive committee, and to transact any other business that may be deemed appropriate.

The committee adopted the following recommendations which we are instructed to make known in connection with the above:

Resolved, That the state democratic executive committee recommend that the democracy of Georgia, in each county, select their delegates in such mode as the executive committee of each county may adopt, for the first convention, on the first Wednesday in May, and for the second convention on the first Wednesday in August.

Resolved, that each county in this state be entitled to double the number of votes that the county has representatives in the lower house of the general assembly.

Resolved, That each county be requested to select as alternates the same number of persons at the same time and in the same manner as it selects delegates; and that the committee recommend that each county at the time of its election of said delegates pass resolutions requesting the state convention not to admit any delegate unless he be regularly selected, either as a delegate or as an alternate, and that no person not a citizen of the county be allowed to represent said county as a delegate by proxy, and these resolutions apply to both conventions.

BENJAMIN H. BINGHAM, Chairman.
W. D. ELLIS, Secretary.
Executive Committee of Georgia.
Democratic papers throughout the state are requested to publish this call.

IMMIGRATION.

THE CENTRAL'S BUREAU AND THE STATE FAIR.

TO THE PEOPLE OF GEORGIA:—The Central Rail Road, in connection with the State Agricultural Society, has just established a Bureau of Immigration, that promises great good to the State, if the people will give to it their encouragement and active aid. The object of this communication is to get the plans of the Bureau fully and properly before

the public, in order that all the different sections of the State may cooperate in bringing their help to the enterprise.

The Central Authorities have selected Mr. W. L. Glessner, of Americus, a gentleman in every way qualified to take the management of the Bureau. Mr. Glessner will begin an early day, the publication of a monthly paper, to be known as "The Southern Empire," devoted to the Agricultural and Industrial interests of the State.

The purpose of this publication will be to disseminate, throughout the North and West, reliable information about our climate, soil, field crops, minerals, woods, etc., etc., in order to induce parties from these sections to purchase our unoccupied lands, take up their residence with us and help us to build up the material interests of the State. Ten thousand copies of "The Southern Empire," will be distributed where they will effect the most good.

About mid-summer, the Central will fit up a handsome Car, beautifully lettered in the name of the Society, to be filled with samples of vegetables, field crops, minerals, woods, etc., etc., illustrative of the resource of the State. The car will be taken, under the management of Mr. Glessner, to the State and District fairs of the North and West, to aid more effectively, in advertising the State. With this car, Mr. Glessner will spend several months in the State north of us, in the interest of Immigration. In addition to the copies of "The Southern Empire" taken with him, Mr. Glessner will be glad to carry also, any number of circulars and pamphlets, furnished him by any county or section desiring to advertise its general advantages. It must be understood that the Central does not confine this scheme to its own line of roads, but it is desired that the benefits shall be all parts of the state equally and alike.

During his stay North, Mr. Glessner will make up large excursion parties to be brought to the State Fair. The car under his charge is intended to represent Georgia in miniature, and the State Fair is expected to illustrate the products and resources of the State abundantly and in profusion. The success of the undertaking, therefore, must depend largely upon the success of the State Fair. If the counties desiring immigration will send to the State Fair large exhibits, beautifully arranged, our visitors from the North will be interested and attracted, and we will doubtless secure large numbers of them as settlers. If, on the other hand the people of the State are indifferent and allow the State Fair to be a failure, the Bureau of Immigration will be a failure also, and we will be left again to the slow methods of the past that bring gradual decay. In addition to these unusual advantages, the counties making exhibits can enter for the splendid premiums offered by the society for the best county display.

We will be glad to make room in our agricultural building for any and every county that will bring us worthy exhibits of field crops, vegetables, minerals, woods, etc., etc. Applications for space should be made as early as possible, so that we may determine in time the additional buildings necessary to accommodate exhibits.

I am now in correspondence with the railroads of the State to secure the lowest possible rates for the transportation of exhibits. Many of the roads have agreed to take county exhibits to Macon and return them without charge for freight. The results of my efforts with other roads will be given to the public in due time.

In its plans for building up the State, the Central does not stop with the scheme for immigration here presented. The authorities of the road I found equally in earnest to help in introducing whatever changes may be needed, in bringing about better methods upon our farms, that will produce better results and establish thrift and prosperity among our own people. In addition to subscribing liberally to the funds of the Agricultural Society, the Central has offered the Society every facility for disseminating useful information among the farmers, and for bringing them together in local and district clubs, for the purpose of counsel and concert of action.

Realizing the benefits that may

come to farmers by an actual comparison of methods and results, Mr. M. S. Belknap, General Manager of the Central, authorizes me to say that the Central will transport free from all charges for freight, all exhibits intended for local fairs, held under the management of the State Agricultural Society.

Surely there is nothing left to be added to the action of the Central in the scheme that it has opened up for the good of the State. This is but the beginning of an enterprise which the Central is willing to continue as long as the people will lend the help necessary to carry it through.

The State Fair is to be a large factor in the results to come from this scheme. It is a State institution held not in the interest of anyone section, or for the exclusive benefit of any one class, but for the purpose of developing all the resources of the State. Under its present advantages, from its connection with the Central Bureau of Immigration, the generous aid offered by other roads, and the services tendered by the press of the State, it deserves the help of every patriotic citizen that it may meet the highest expectations for good. It will be my pleasure to answer any inquiries upon the subject matter of this communication.

Papers favorable to the enterprise will please publish.

Planters Read.

We have this day contracted with Messrs. JOHN MERRYMAN & Co to sell, at all stations on the C. & M. Railroad, their

—CELEBRATED BRAND OF GUANO—

Merryman's A. D. Bones, Merryman's GEORGIA TEST.

We can say without any fear of contradiction that Merryman's Fertilizers are to-day, as they have been for 30 years, at the very top in excellence, and the perfect satisfaction they give to planters.

While most of the popular brands on the market in past years have changed the grade of their goods by lowering their grade, Merryman has continually improved. We do not make these statements at random. We refer to any planter in Jones and Jasper counties who have used Merryman's Guano, and will stake our reputation on the result.

—WE ALSO HANDLE—

for composting, which is the highest grade acid on the market. We sell cheaper and phosphates; also Kainit, and are agents for the Macon Oil & Fertilizer Company for the sale of their Cotton Seed Meal.

We can give low prices on those goods, and are ready to deliver now. Our Agents will call on the good people of Jones and Jasper counties, and we trust will receive their orders.

Mr. Lark Stewart and family spent Sunday in town.

Rumour of a wedding in Clinton before long. Whose is it?

Several Clintonites went fishing Saturday,—caught a few minnows.

Mr. Card and Miss Pearl Holmes visited Macon Saturday via the C. & M. R. R.

Mrs. E. H. Pottle and Mother, Mrs. Charles Hamilton are in town, the guests of Mrs. A. S. Hamilton.

Telephone poles for the line of the C. & M. R. R. have been shipped and soon the wires will be flashing news.

Miss Mande Hardeeman is spending the week with Miss Irene Stewart and Mrs. Park at Hadlocks.

Master Henry Penn, of Monticello, spent an hour with us last Friday. He is a bright boy, and we enjoyed his visit.

Quite a storm of wind and rain swept over Clinton Monday at 5.30 a.m. Much apprehension of a cyclone was felt.

The wind on Monday blew our esteemed old friend J. W. Turk of Monroe county into Clinton. He made a short stay, and returned to his farm Tuesday.

T. B. Artope put up last week two very handsome monuments over the graves of Mr. Frank H. Greaves and Mrs. Mary P. Finney in the Clinton cemetery.

The rumor that the HEADLIGHT had been sold is without any foundation whatever. It has never entertained such an idea and will continue to be issued on the same firm basis, without any change.

The dailyolla perida served to the readers of the Macon Evening News is splendidly gotten up.

"Tattler" writes well and tersely, bright and original, and always on topics of interest. The News is one of our ablest exchangers.

The HEADLIGHT was highly complimented last week by the Prices of Rail Roaders, Col. Maeben, who says "he just can't do without it, and whether in New York or Georgia reads every word in it." Such words infuse zeal and encourage us much.

The storm of last Tuesday night seems to have swept over the entire state, causing much destruction to property and loss of life in some places. Fortunately Clinton escaped without any damage, except a very heavy rain, accompanied by much thunder and lightning. Again on Monday at 9.30 a.m. a very severe wind and rain storm attacked the old town.

The Madison Advertiser says: "There is hardly four miles of track to be torn down between Monticello and Madison. The trestling over Little river is about completed, and the two forces laying track at each end are vying with each other to reach Indian creek first. The building of the bridge over this creek is progressing finely, and we may expect the engine from Macon rolling into our city in the course of a few days."

Oh! this changeable and changing spring weather! Our garden was growing nicely, Irish potatoes five inches high, but! alas! the biting winds and frost have killed them, and worse, the fruit is all killed we fear, all except the earlier varieties of peaches (which have not yet bloomed). This is a calamity, for who does not like fruit? First we have hard rains, and then cold, and more rain, and the poor farmers are having "backsets" on all sides.

Our talented friend Montgomery M. Polson will soon don editorial robes, and has taken control of a weekly paper to be printed in Cedar-town Ga. He must succeed as a writer, polished and sprightly he hasn't a peer in the state. Most of his contributions are gems. We are sure that the good wishes of the Georgia press follow him. We expect much from his weekly and we feel we shall not be disappointed.

The HEADLIGHT gladly places the Cedar-town Standard on its exchange list.

If our friends who are behid with their subscription knew how bad we are in need of money, they would not delay paying up any longer.

Macon, Ga. March 24th.—Dear Headlight.—Thinking you would like to hear something from your "city cousin" I thought I would give you a few items.

Clinton and Macon have long been so closely identified with each other, (many of Macon's most valuable citizens having come from there) and now that they are bound with "bars of iron," they feel almost as if they were one. Just think of it, your Macon friends can take "their knitting" and you can return the compliment by doing the same with us. Let me assure you, you will find the "hatch-string" outside.

The city council has promised to keep the dust down, so the last barrier to Macon's prosperity will be removed.

There has been quite a religious influence pervading our city for several weeks. There has been special services held for nearly three weeks in the Baptist church, and Mulberry street Methodist church with good results. Dr. Warren has been assisted by Mr. Harris from Columbus, Ga., and Dr. Kendall by Rev. Dr. Munhall, an evangelist, who is one of the most entertaining speakers I ever listened to. He has none of the sensational about him, but is a deeply spiritual man and impresses every one with his earnestness as a Bible reader and expounder. There are several new features in a prayer service held at the Central R. R. shops, and much interest was manifested by the R. R. men.

—Oh! you all come over to some of these services. I enclose you a card of invitation, which will admit as many as will come. "Macon."

For The Juvenile Readers.

BY MRS. E. G. H.

A gentleman friend writes me that his family as soon as the HEADLIGHT is received the children want to read it before the "grown up folks" have a chance to look at it. This set me to thinking, and I decide it is too bad that the dear little readers have never found anything in our columns that would interest them. Petting aside the letter, I have picked up my pen now to tell you how greatly you Georgia children have been blessed during the past few months and weeks, for here in Georgia the fruit trees are in full bloom, the peach limbs have their delicate rosy mantle thrown over them, their plum bushes are covered with their wreaths of white feathers, while the beautiful pear trees are lovely with the masses of star-eyed blossoms of white mingling with tiny green buds and leaves. The birds seem to have breathed the spring air and are beginning to trill their first songs, while even the little boys have slyly slipped off shoes and stockings, and are looking up fish hooks and bait gards, ready to hie away to the branches to catch a "mess of minnows," maybe they will bring home a half dozen henny heads as long as Papa's little finger and a few "wild violents, with heart leaves," even in, but they'll have "hundreds" of 'em!

This is Southern April and springtime no more, but in the cold North states, the people have been shivering in their houses, even while sitting by blazing fires of coal, the fierce winds have been blowing great rifts upon rifts of snow over house tops, fields, roads and streets. It is said, that the snow storm of last week was by far the most severe ever known. For days the streets of New York city were impassable, the thousands of vehicles, which daily travel, were not to be seen. The steam and street cars had to stop running, the cows were shut up in their stalls waiting the milkman, who could not deliver his accustomed allowance of this useful article. How many poor families suffered! How many poor little half clothed children, with pished cheeks and swollen eyelids, had to go to their straw beds supping, and shiver with want, carrying through the long cold nights. Many of them, we can imagine, closed their eyes in cheerless, fireless rooms only to open them in Heaven! No night, no snow, no hunger there! Many lives of grown people too were lost by accidents on the cars, caused by deep rifts of snow, and on the Ocean, white the winds blew so hard. A long funeral procession of over thirty carriages with hearse in front was literally snowed up! We thought the cool keen winds last week were terrible didn't we little HEADLIGHT readers? And we pined and fed the good old Georgia hickory wood fires and wished warm weather, came enough warm weather would come, but, suppose that snow blizzard had just struck old Georgia. Oh! you rosy cheeked rascals cry out, "wish it had! we would have had an awful jolly time a snow-balling and playing in it!" Well we old folks wouldn't have enjoyed the snow any more than our Yankee friends did.

I wanted to tell you all about a ride I had in the country the other day about the little old fashioned play house I saw in a fence corner, with pieces of broken crockery for dishes etc, but I am at the end of the paper and snowed out!

Thank you little readers and may you continue to be the first to open your HEADLIGHT. Reading helps more than any other thing to make people "healthy, wealthy and wise."
