VOL. I.

GRAY, GEORGIA, SATURDAY, MAY 19, 1888.

NO. 28.

The French Republic put \$312,000,000 isto the Panama Canal before ahe got discouraged.

The English steamship companies anticipates large increase in Irish immigration the coming season, and will run extra steamers for that purpose.

If the expenses of carrying the mails in the United States were paid direct from the pockets of the people pro rata, each citizen would pay an average of eighty-five cents a year for having his mail carried.

The Atlanta Constitution declares that the fact that the farmers are able to give mortgages aggregating \$1,200,000,000 shows that the land they own must be worth considerably more, and thinks that this makes a very good showing for the farmers.

The latest Iowa idea is a coal palace which is to be bullt in Oskaloosa of big blocks of coal. It is to be finished by the middle of August, the very time when the ice palace is a fond dream of the soul and the thought of coal a misery.

But the Iowa people must amuse themselves in their own way.

selves in their own way.

In Denmark young men are apprenticed to farmers all over the king-dom for two or three years under the oversight of the Royal Agricultural Society. They work one year as learners for shall wages. The second year they are transferred to a farm in another part of the country, and they spend the third year on a third farm in a district where a different kind of agriculture is practiced. In this way a thorough knowlied.

edge of practical farming is obtained.

At a recent sale of old coins in New York one American piece brought a high price. The collection belonged to this price. The collection belonged to this late Thri - thickerman, Director of the United States Mists, and the piece referred to was the 190 silver dollar, of which only twilve of fourteen examples were ettrick. The last one sold brought \$1000. That was three years ago. But Dr. Linderungs was undoubtedly the mest in existence, being a perfectly sharp, uncirculated specimen. Still it went for

for the last similar coinsuld acconsidered.

The assistant edites of the Full Mell Genetic, Henry C. Norman, who is making a tour ground the globe, says that the chief surprises the wise to Canada was the prevalence of the six for Canada was the prevalence of the six for Commercial union, between the United States. The abstract question of commercial union, between the prevalence and Canada, according to this writer, is "intimately interroped to the writer, is "intimately interroped to the personality of its foremost acting the personality of its foremost acting the company of the personality of the personal the personal pers

The Cedartown Standard, contains the Iollowing:
"Is it possible that the Jones
County Headlight is extluguished? Although the Standard is
mailed there regularly it never appears in our sanctum.

The Standard is certainly on our exchange list, a copy of the Head-LIGHT will hereafter find its way to the sanctum of that spicy and interesting journal.

The wide-awake Jasper County News, has done a great deal for Jasper county, and for its town, the News has no superior in the state. Monticello ought to be proud of it, and evidently is, it has this to say;

"As we now have the rail-road with all of its facilities and advantages, is it not about time for our people to wake up? For years our county has been afflicted with an ailment called "land poor," and we then thought and said if could only get a rail-road, so that could only get a rail-road, so that, we could come in contact with the outside world and a market for our surplus land, we would be on the look out for purchasers, invite people to come in our midst, and would offer such inducements as would cause them to settle with us. that we have the road, all seem to nave subsided, and we are failing to utilize and avail ourselves of the utilize and avail ourselves of the many advantages now at our door, and are letting the golden opportunity pass. If we vish to, see our county built #p.aga-dour.surplus and waste lands utilized, let us yake. up and show the world bat ofts is a grand old country, and that we have room, and extend a welcome to others to come among us. There are many people in the North who would be glad to have a winter home and many in Florda who would be would be gliad of a summer resort with us, and the day is not far distant when our county will be in a few hours ride of county will be in a few hours ride of the North and Florida, therefore let us wake up and tackle them as they pass, and let it be known who we are and what we have. If we remain sileqt, other localities will offer inducements and attract the population that we want away from us. This is no time for "pent uputica" or "old fogyism" or selfishness if we wish a prosperous."

DIBLIC SCHOOL NOTICE.

### PUBLIC SCHOOL NOTICE.

The attention of patrons and cachers of Public schools is called to the following point in the revised and amended school law, and to the instructions of the State School

1st. Schools must use the text books adopted by the county Board of Education. No pupils, who uses other books, will be allowed to receive the benefit of the public school

The following are the text book The following are the text books adopted by the beard last Dec. for five years to wit: Sander's School Primers, Swinton's spellers, readers, geographics and histories, American graded readers, Cathear's literary readers, Robinson's Arithmetics, Wells grammar, Wobster's Lebond dictionaries, Smith's physiolation of the property of the ogy and hygiene, Spencerian copy books. 2nd. It is encumbered on Coun-

ty Boards to establish one school, each, for white and colored children in every school district, as near as he every school district, as near as practicable to the center of the dis-trict, preference being had to any school-house already erected, and to population of said school district and to the location of white and colored schools with regard to contignity; no additional school can b of in the sub-district with established in the sub-district with out the enrollment therein of not less than twenty-five pupils.

1 will be in Clinton on May 31st

for the purpose of examining teach ert of Public Schools, who have no ert of rubus Schools, who have not yet undergone an examination. Those holding unexpired license are not included. All Public Schools will open on 1st Monday in July. A. H. S. McKAY. County School Commissioner. May 5th 1888.

PAY DAY AT HAND.

Madison, Ga., May 15 .- Today was pay day on the Covington and Macon railroad. All day long crowds of laborers, bosses and con-tractors have thronged our streets, vaiting to receive their pay. It waiting to receive their pay. It learned was among to see how impatiently some of them would wait for their money. But their doubte and deared pay was received, and all have returned to their work with 188. Witness my hand officially, cheeful suiles and glad hearts.
