### VOTON, CHILLIES

The second secon

COUNTY, GA., PERRUARY 27, 1845.

Will the Pederal Union, Rec

SOUTHERN COURANT.

THURSDAY, FEBRUARY 27, 1845.

CT We present the Speech of Mr. Stephens, on the Texas question, entire, in this day's paper, believing that our, readers would prefer it (though taking up so much room,) to having it divided. It will secure their perusal without any recommendation

### The Texas Question.

The Trace Question.

Our region will use fail to an index of the self-length extraction of the s Our readers will no; fail to see in the speech of the Hon. Mr. Stephons, evidences of that subtle logic, bold attack of opposi-

MEXICO AND THE UNITED STATES Mr. S. think, that the United States will not make herself a party to the war-between Mexico and Texas as formerly she would have done, because Mexico has failed to Astablish her authority over Taxas or to make efforts to effect it-because there has been no actual war as was threatened within the last 12 or 19 months - because Mexico is weaker and more pow eriess than when those threats were sade ories than when those internal dissentions and civil strifes. So far from coming to the same conclusion with Mr. S. where to one directly the opposite. Banta Anna one directly the opposite. Santa Anna to one directly the opposite. Santa Anna has been experitiven. He has been experited the Napoleon of that section of this continent. As the overthrow of Napoleon gave peace to Rurope, so, the overthrow of Santa Anna will give peace to Mexico. Such is the opinion of annible writers and obtained the section of the control as riving age in that country. Her dissections therefore, being ficated, her people becoming united, she will be better prepared to war upon Texas, and to injure the United States If the latter becomes a party to tou States II the latter becomes a party to that war. That war will be declared a gainst the United States by Mexico in the event of the apprexision of Texas, has been lectared by her. Minister to this againty. by her authorities at home, and by the a posers of Santa Anna, who now have to fisputed control of the Government.

ADMISSION OF NEW STATES.

acquire foreign territory by the ad-of Texas as a new State. They nothing but the advantages of the equire nothing but the advantages assection, and merely cularge the the Union. Well really it would us, that if Terms is admitted the

and ous-on-in the compact which said-that the Constit little of the constitution of the baltimis. It tution should be ratified within a given titte, within one two or ten years. Besides North Carolina and libred Island went are o recon-

arra United States of no. Inc. Opined State-referred to in the Constitution, when declar-ing the qualifications of representatives, that Constitution would be related by represen-tation of Texas in Congress, until she had been in the Union the terms of years required. By this method of seasoning a new State ought, be admitted whose inhab-itants (suppose them to be Mexicans, or Spaniards, or Dutchmen) neither knowing ur language or laws would be entitled a once to representation in our National Le

gislature.

REASONS FOR ADMISSION OF TEXAS.

Mr. S. frankly declares that so far as pecuniary advantages will result, they will chure to the North and West and not to the South. He says, "the South will have no-South. He says, "the South will have no-thing to sell to the people of Texas but will feel sorely her formidable competition in the production of cotton and sugar, her great staples." But this disadvantage he thinks will be counterbalanced by benefits and reasons of another character. He thinks that the cotion and sugar interests of this continent should as far as possible be subject to the same laws to prevent undue advantages that Texas enjoir dotts for here by treaty. We shall offer no comment upon this view of the tasks out simply remer's that as he he haple of cotton to which we are most interested here. All the advantages of a Union would be in 'nor of Texas and against the ear of the cotton growing claimest. As to shipping cotton has to United States from Texas paying the dairy, and being extilled to a deawback of the same upon exportation, it would be this continent should as far as possible be of the same upon-exportation, it would be very easy to make such a discrimination as

would prevent it thereafter.

The reason assigned for the measure, that our people reast new lands, and are disposed to reason is not sufficient to meet the posed to rous is not summer, weight of dauger, that may attend the so-conclishment of the scheme, nor can we

cotted. The Union was subtent her becomes the first second given (which we in fore her submission, and offer-it, is in each control of the co
