## A JOKE ON JOHN L.

Some of His Friends Propose Him for Mayor of Boston.

Boston, July 14.—There is a rumor about town that a strong wing of the democracy urges the nomination of the great pugilist, John L. Sullivan, for next mayor of cultured Boston. That the report is not altogether an idle one is proved by the attention given it by an influential morning paper, which says: "John L. Sullivan is unquestionably a big man nowadays—in some people's estimation—but we are not quite prepared to believe the report that he is to be put in the field for mayor by the Boston democrats."

Hon. M. M. Cuniff, the democratic boss, was asked what he thought about it. "What do I think of that?" said he. "I don't know what to think of it. This is the first intimation I received that John was in the field. That may be merely a little paper joke, but still it may be serious. Stranger things have occurred. Sullivan is very popular, and with the present incumbent opposed to him John would be sure to make a tough fight. Here in Boston I can imagine some good aristocrats and club men standing up for him. He would draw largely from the Anglo-Saxon and Somerset clubs, where he is very popular."

"The man who arrested Sullivan" is now considered about the biggest man in Nashville. Everywhere he goes he is surrounded by a crowd of men and boys who want to hear him tell how he took the tiger."

## WHAT A WOMAN CAN DO.

There are lots of things that a woman can do that a man can not.

She can come to a conclusion without the slightest trouble of reasoning on it, and no sane man can do that.

Six of them can talk at once and get along first rate, and no two men can do that.

She can safely stick fifty pins in her dress while he is getting one under his thumb nail.

She is as cool as a cucumber in half a dozen tight dresses and skirts while a man will sweat and foam and growl in one loose skirt.

She can talk as sweet as peaches and cream to the woman she hates, while two men would be punching each other's head before they had exchanged ten words.

She can throw a stone with a curve that would be a fortune to a base ball pitcher.

She can say "No," and stick to it for a time. She may also say "No" in such a low voice that it means "Yes."

She can sharpen a lead pencil if you give her plenty of time and plenty of pencils.

She can dance all night in a pair of shoes two sizes too small for her, and enjoy every minute of the time.

She can appreciate a kiss from her husband 75 years after the marriage ceremony is performed.

She can go to church and afterwards tell you what every woman in the congregation had on, and in some rare instances can give you some faint idea of what the text was.

She can walk half the night with a colicky baby in her arms without ever expressing the desire of murdering the infant.

She can do more in a minute than a man can do in an hour, and do it better too.

This year's peach crop is estimated at 2,798,000 baskets.

The Georgia Legislature has buckled down to work in earnest.

California will have the largest grape crop this year ever grown, and Spain reports the same prospect.

Private Secretary Halford will be in charge of the White House during the President's absence at Deer park.

The Twenty-third Georgia regiment will hold its annual reunion at Emerson on Aug. 31. Senator Colquhoun and other distinguished confederates will be present.

A woman at Pittsburg, Pa., on being arrested for some misdemeanor, convulsively hugged her baby so violently in bidding it goodbye that she squeezed it to death.

A new dog from Holland has a long mane, a short body, a sharp bark, a head like a pig, big ears and no tail. He has appeared at English dog shows, and is fashionable and expensive.

Dick Hawes who was to have been hung last Friday in Birmingham, Ala., has been granted a new trial. His case will be carried to the Supreme Court and will not be tried until some time in December.

A competitive examination will be held in this county on the last Saturday in August by the County School Commissioner to determine who shall be entitled to the scholarship in the Ga. School of Technology. Each County is entitled to as many scholarships as it has representatives. For particulars apply to the county School Commissioner.

Mrs. Oliver of Athens is a remarkable woman. She is 87 years of age, and does not remember to have ever taken a drink of water; in fact, she cannot bear to drink the fluid. Her eye-sight has returned to her and she can now do the finest of needle work without the use of glasses. She is as hale and hearty as if only 50 and bids fair to reach her 100th anniversary.

It naturally takes a big man to turn over a building as large as the new capitol of Georgia, and another of the same size to receive it. This was the case in Atlanta when Capt. Evan P. Howell turned over the completed structure in behalf of the Capital Commissioners, and when Governor Gordon received it in behalf of the people of the State.—Augusta News.

"If you will pay me 50 cents apiece I will eat as many flies as you set before me," proposed a drummer in Athens, Monday. Several gentlemen who were present accepted the banter, made up a purse of 50 cents, and capturing a big green fly that had just been gorging itself in a pile of filth passed it over to the epicure, while the third man held the stakes. Without a word the drummer passed the filth insect into his mouth, reduced it to a pulp between his teeth, and then swallowing the nauseating dose, took in the money. The crowd was equally divided between surprise and disgust and refused to pay for a repetition of the show, although the fellow was anxious to swallow many more flies at the price. He stated that flies had no effect whatever on his stomach, and he rather relished them, having acquired his disgusting habit by stopping at cheap boarding houses.—Athens Banner.

"I have here a letter of introduction from Hon. J. H. Blount to Hon. Jeremiah B. Clark, secretary of agriculture at Washington, D. C., through whom we expect to obtain a large lot of jute seed to be distributed among the most reliable planters in Georgia.

"Do you think jute can be successfully grown in Georgia," asked the reporter.

"Most assuredly I do. You no doubt are aware of the fact that cotton is supposed to have originated in India and that India is also the home of jute. There is no reason why jute cannot be raised here. It is raised in Florida, Mississippi and Kentucky to a small extent. I have mentioned the matter to several well informed planters who are anxious to experiment—one of these, Mr. B. T. Ray, of Bibb County, says, 'you give me the jute seed and I will show you the jute next year.'"

"When will you go to Washington?"

"I shall go to Washington in a few days and obtain all the information possible as to the cultivation of jute, time of planting, etc. We are perfectly willing to invest \$1,000 in this enterprise and to that extent, if necessary, we shall go.

"Do you know the cheapest kind of machinery is used in making jute bagging? Well, such is the case, and I hope in a very few years our factories all through the State, owned by planters and merchants of this state, turning out first class jute bagging. As certain as the sun shines we can succeed, and if our planting friends will display energy at once in the matter success will surely crown our efforts. We will then settle forever the bagging 'trust.'"

"Have you any other plans in view?"

"My concern will also invest fifteen hundred dollars to help the alliance fight another 'trust,' of which I will tell you more in a few days. This latter 'trust' have their plans made to completely kill cotton, similar to their building in the smaller towns of this State and built by planters mostly.

"In this latter case, however, the farmers have the 'key,' and our greatest efforts shall be to help the planters to hold that key and keep said 'trust' locked out. C. S. Oil Mills.

"We think it is the duty of every merchant in the State to aid the alliance as far as possible. We surely they are our best friends. If the merchants will aid the alliance, then I say many millions of dollars now going North and West will be kept here."

Where there is the most money there is the best chance to make it. So let all pitch in and encourage the alliance and they will succeed in making real money.—Macon Evening News.

The Worthing Scheme Which Will Be of Great Benefit To All Concerned—Important Meeting Held Yesterday Afternoon.

The News on yesterday made mention of the proposed visit in a few days of Mr. Mitchell Rodgers of the firm of Rodgers, Worsham & Co. to Washington City.

To-day a News reporter met Mr. Rodgers and asked him what prompts his firm to interest themselves in the jute seed business.

Said he: "Last season we sold to the county alliances of Bibb, Houston, Jasper, Taylor and parts of the counties of Crawford, Jones, Dooly, Twiggs and Macon. These alliances were entirely ignored by all other merchants. The alliance has succeeded so well in all their efforts that to-day all merchants are endeavoring to get their trade. You see the world thought the alliance would succeed no better than the old State Grange."

"Well, these alliances have appreciated our efforts so much that they have come to the conclusion to spend a portion of our profits each year in their behalf."

A TRUE TONIC.

When you don't feel well and hardly know what ails you, give B. B. B. (Botanic Blood Balm) a trial. It is a fine tonic.

T. O. Callahan, Charlotte, N. C., writes: "B. B. B. is a fine tonic, and has done me great good."

L. W. Thompson, Damascus, Ga., writes: "I believe B. B. B. is the best blood purifier made. It has greatly improved my general health."

An old gentleman writes: "B. B. B. gives me new life and new strength. If there is anything that will make an old man young, it is B. B. B."

P. A. Shepherd, Nyack, Va. August 10th, 1888, writes: "I depend on B. B. B. for the preservation of my health. I have had in my family now nearly two years, and in all that time have not had to have a doctor."

Thos. Paulk, Alabama, Ga., writes: "I suffered terribly from dyspepsia. The use of B. B. B. has made me feel like a new man. I would not take a thousand dollars for the good it has done me."

W. M. Choshine, Atlanta, Ga., writes: "I had a long spell of typhoid fever, which at last seemed to settle in my right leg, which swelled up enormously. An abscess appeared which discharged a copious amount of matter a day. I then gave B. B. B. a trial and it cured me."

Mrs. S. M. Wilson, Round Mountain, Texas, writes: "A lady friend of mine was troubled with humps and pimples on her face and neck. She took three bottles of B. B. B. and her skin got soft and smooth, pimples disappeared, and her health improved greatly."

We will give One Hundred Dollars for any case of Deafness (caused by catarrh,) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free,
