A black and white photograph showing a dense forest scene. In the foreground, a large, textured tree trunk is visible on the left. A ruler is placed horizontally across the middle of the image, spanning from the left edge towards the right. The background is filled with various trees and foliage, creating a complex pattern of light and shadow. The ruler appears to be a standard measuring tool, likely used for scale in a scientific or ecological study.

A dark, high-contrast, black and white photograph showing a close-up of a textured surface, possibly a rock or mineral specimen. The surface is uneven and appears to have some crystalline or fibrous structures. A ruler is visible at the bottom of the image, providing a scale for the specimen's size.
