

Georgia

To all whom it may concern, I have
unintentionally given to the public domain
certain documents of the late George W.
Jones & therefore have done my best
to retrieve from the law and to restore them
to him. To kindly give to his friends & their
and descendants to keep quiet and let them
say perfectly, that was my purpose & intention
not to let papers go which belonged to him
the time of his death, and it is my intention
that he be granted that upon my death
said James E. and D. C. to let him and his
children and friends to destroy the same
among themselves in such a way
as to prevent the family of Jones from getting
any inheritance in such manner
after his disposition of them.

In witness whereof I have signed
and seal this 4th day of December 1875.
