

As the period of the life of man is at
all times uncertain, I think it proper
to make the following Regulations be-
fore I set out on my now intended
Voyage to Europe which if I shall hap-
pily meet with the hand of death before
my return, I wish to be understood as
my last Will and Testament
1st That my debts shall all be paid and
every creditor satisfied

2nd That all the property remaining
both Real and Personal shall be enjoyed
by my well beloved Wife, and my son
George Hunt, a Moiety to each and to
their heirs forever, and it is further
my Will that my affectionate Wife
shall be my sole Executrix to manage
and direct the Affairs of my Estate
after my decease
