

CHRONICLE.

FRIDAY, AUGUSTA 5. 1814.

FROM the failure of two succeeding Northern Mails, we are without any recent information from the frontiers of Canada.

From the Augusta Herald.

A Bible Society has been recently organized in Burke County—in the choice of their officers every sectarian distinction was lost, and the prospect of general harmony, among the different religious denominations throughout that quarter of the country, in promoting the object of the society, augers well for carrying into effect its principal design, as well as promoting the general interests of religion—several small donations have been already made to the society, but that of the president, Captain JOHN WHITEHEAD, is worthy of particular notice, being no less than \$ 100.

MARRIED,

On Thursday the 21st of July, by the Rev'd John Garvin, JOHN PRINIZY, Esq. to the amiable Miss MARTHA CRESWELL, all of this place.

BY LAST NIGHT'S MAIL.

From Sackett's Harbor.

From the Correspondent of the Columbian.

Argus Office, Albany, N.Y.

Thursday morning, July 21.

A gentleman, who left the Harbor on Monday morning, informs me, that on Saturday, 300 riflemen left it in boats, for Brown's army, convoyed by two brigs.—On Sunday the riflemen were compelled, by hard weather to land upon Stoney-Island, and the brigs returned to the Harbor; and that on Monday morning, as the stage left the Harbor, a firing was heard, supposed to be occasioned by an attack of the enemy at Stoney-Island. The fleet still in port.

From Lake Champlain.

Extract of a letter, dated

10th July, 1814.

"We have anchored as near the enemy as the draught of water will admit. It is not in our power to bring them to action, as they lay under cover of four forts and can use their pleasure to bring us to action when they please, which we look for every night. Their force is by far superior to ours and they get every information of our movements. We have within a few days destroyed several masts, yards, &c. which our own countrymen were carrying to the enemy for their large new ship, which they say will be ready by the first of August."

British Reinforcements in Canada.

On the margin of the Plattsburgh Herald, received at the office of the Commercial Advertiser on Saturday morning, is written the following note;

Plattsburgh, July 8.

10 o'Clock, A. M.

"We are informed by a gentleman of veracity, who has just arrived here from Malone, in Franklin county, that he had seen a handbill printed two or three days since at Montreal, announcing the arrival of Twenty Regiments of Lord Wellington's army at Quebec, containing between 15,000 men."

ent cannon doubt exists made an attack great a force gentle man came in the immediately that place there was a descent upon were embark embarkation and before the point of arrival Izard had to Whitehall Albany.

The reportable British fleet is now arrived at the day states the large and strong
