

The Sea of China
and the Indies.

*A map of Virginia discovered to 41 deg. and
104. Lat. From 35 deg. N. to
Florida to 91 deg. bounds of new England.*

S^r Francis Drake
was on this sea and landed
in 1575 on 27 deg. where he took
possession in the name of Q.
Elizabeth calling it new Albion.

*While he lay here, in his short march south to find out, we have seen from the head of James River, over the hills
and through the rich adjacent valleys beset with a profitable river, which may easily and run into plentiful
Sachins being to be followed, by the evening brought of great provision and joye of all was brought.*

1651 Map of Virginia drawn by Virginia Farrer, published in America Richly & Co. London, 1651
