THE REGISTER for 1868, contains the information usually given, the form and style being somewhat improved. The enlarged form, which was commenced last year, is continued and will hereafter be the form, until it becomes necessary to enlarge it again. In the compilation of the work, it has been our endeavor to have every part revised by society clerks and those who have the best opportunities for obtaining the desired information. It is impossible, in a work containing over 11,000 names, to be exact in all names and facts, but it is hoped that many of the old errors have been avoided in this year's issue; but often the information which is given by those making returns is incorrect, when there is no chance for the publishers to correct it.

In the list of Attornies, no names have been inserted but those who are duly authorized by the Courts to practice in the State; and also the Clergy, who are not regularly ordained Ministers, have been excluded from the lists.

Those who furnish matter for the Register, or desire any changes to be made, are reminded that the work goes to press about the 10th of November. Hence the reason why some information has not been attended to.

Commissioners for other States should give information of any additions or changes directly to us.

Clerks of the various societies mentioned in this work, will confer a favor, by sending a copy of their annual Reports, when issued, to the Publishers.

Its editorial pages keep pace with the events of the day. Foreign and domestic matters are discussed with candor. Politically it does not follow the blind lead of any party, though advocating fearlessly the cause of the Union; it will always aim to cultivate amity and harmony on sound principles throughout the length and breadth of the land. It will seek to be in advance on all public questions, and will criticise men and measures independent of

In issuing the REGISTER for 1869, the publishers desire to present their thanks to all those persons who have aided in correcting the information given in the work. The Register for 1869, contains the information usually given, the form and style being the same as heretofore. In the compilation of this work, it is our endeavor to have every part revised by society clerks and those who have the best opportunities for obtaining the information desired. It is impossible, in a work of this character, to be exact in all names and facts, but it is hoped that many of the old errors have been avoided in this issue.

In the list of Attornies, no names have been inserted but those who are duly authorized by the Courts to practice in the State; and in the Clergy lists, all who are not regularly ordained Ministers, have been excluded from the lists.

Those who furnish matter for the Register, or desire any changes to be made, are reminded that the work goes to press about the 1st of November. Hence the reason why some information has not been attended to.

Commissioners for other States should give information of any additions or changes directly to us.

Clerks of the various societies mentioned in this work, will confer a favor, by sending a copy of their annual Reports, when issued, to the Publishers.

P R E F A C E.

In issuing the REGISTER for 1870, the publishers desire to present their thanks to all persons who have aided in correcting the information given in the work. The Register for 1870, contains the information usually given, the form and style being the same as heretofore. In the compilation of this work, it is our endeavor to have every part revised by society clerks and others having the best opportunity for obtaining the information required. It is impossible, in a work of this character, to be exact in all facts, but it is hoped that unnecessary errors have been avoided in this issue.

In the list of Attornies, no names have been inserted but those who are duly authorized by the Courts to practice in the State; and in the Clergy lists, all who are not regularly ordained Ministers, have been excluded.

Those who furnish matter for the Register, or desire any changes to be made, are reminded that the work goes to press about the 1st of November. Hence the reason why some information has not been attended to.

Commissioners for other States should give information of any additions or changes directly to us.

¶ Clerks of the various societies mentioned in this work, will confer a favor, by sending a copy of their annual Reports, when issued, to the Publishers.
