The issue of the eleventh volume of the Cornwall Marriages should be a matter of congratulation to all who are interested in family history, and especially to those who desire to trace the successive steps by which the present ownership of land in the county has come about. The Statute of Uses in the reign of King Henry VIII. and the abolition of the more onerous feudal tenures in the reign of King Charles II. not only afforded greater facilities for the transfer of land, but also increased the student's labour in obtaining evidence of such transfer. Modern manorial history is beset with difficulty. Younger sons and also daughters who under the old regime had often to be content with scant provision sometimes found themselves endowed with considerable estates in land. Such estates were frequently conferred by deed or indenture of which no counterfoil was preserved either in the public record offices or in the larger collections of muniments in private hands. Moreover the old system of *inquisitiones post mortem* in which such settlements were recorded was discontinued. For perfecting the history of the descent of land recourse therefore has usually to be had to the present owners whose title deeds are often of little value to the topographer, and to wills and parish registers. And for the purpose of clearing up such difficulties the present series has been found of considerable value. An illustration will make this clear. In 1640 Thomas Ericke died and after his death it was found that he had been possessed of the manor of Trethwall or Trethewell in Ludgvan, and that Mary his sister, the wife of Michael Vyvyan was his heir. In 1686 John Robyns and Loveday his wife conveyed the manor to Richard Hoblyn. The problem was to discover how the manor came to John Robyns and the usual sources of information yielded no assistance. An examination of the Phillack marriages

printed in Volume II. of the present series revealed the fact that in 1677 John Robyns married Loveday, daughter of Michael Vyvyan deceased. Other similar discoveries could be given. Moreover to the student of sociology the part played by heredity can only be adequately considered by examining a series of ancestors and to him the Cornwall Marriages should be a welcome addition to his collection of facts. Considering therefore the importance of the work to the antiquarian, genealogist, topographer and biologist, it is a matter for regret that the number of subscribers should still be very small. An increase of subscribers means an increase in the size of the volumes issued, and it is therefore hoped that those who are interested in the work will endeavour to secure the co-operation of their friends. The editors have to acknowledge the assistance given them by Miss Blanche Shadwell, who has extracted and collated the St. Wenn Marriages, and by Dr. Eagar, who has helped with St. Goran. To Mr. W. H. L. Shadwell, F.S.A., the subscribers are indebted, as usual, for permission to use the Bodmin transcripts for the purpose of correcting inaccuracies and supplying defects in the parish registers.

For the convenience of those subscribers who have joined, at different times, since the series was commenced, the following list of the parishes which have been dealt with is here given :—

NOTE.—In the First Volume of the Bodmin Registers are contained Baptisms, Marriages and Burials, the record of Marriages covering the period 1559 to 1757. In the Second Volume are given the Marriages from 1754 to 1771. Marriages at St. Wenn,

1678 to 1812.

NOTE.—The earliest St. Wenn Register now extant is a volume of vellum leaves in its original leather binding, now much worn. The leaves are in good condition, and the writing fairly legible. It contains Baptisms from 1706 to 1805, Marriages from 1706 to 1754, and Burials from 1707 to 1805. The second book of Marriages is in the form prescribed by Lord Hardwicke's Act. The covers are much worn and the leaves are loose. It contains Marriages from 1754 to 1812.

The entries have been transcribed by Miss Blanche Shadwell, and are printed by permission of the Rev. Harold Bennett, M.A., Vicar of St. Wenn.

Marriages at Lezant,

1539 to 1812.

NOTE.—The Lezant record of Baptisms, Marriages and Burials is one of the most complete in the county of Cornwall. It is practically unbroken from 1539 up to the present time. The handwriting of the first volume discloses the fact that the earlier entries in that volume are a transcript made about the middle of the seventeenth century. This volume gives Baptisms, Marriages and Burials from 1539 to 1688. Some of the later entries are badly written and rather difficult to decipher. Volume II supplies besides Burials and Baptisms from 1689 to 1791, the Marriages from 1689 to 1754. In a separate volume are contained the Marriages from 1754 to 1812. When Mrs. Glencross extracted the Marriages for the present volume she was not aware that the work had been already performed by the Rev. T. Taylor. A comparison of the extracts revealed only one trifling omission. It is safe therefore to conclude that the entries hereunder given are as complete and accurate as possible. The Rev. R. Cardwell, M.A., has kindly given permission for them to be printed.

There are no transcripts at Bodmin for Lezant.

VOLUME I.

Marriages at St. Goran,

1668 to 1812.

NOTE.—The following list of Marriages has been made from three Registers. The first, a small folio volume, with parchment leaves and calf bound, gives the Baptisms from 1661 to 1724, Marriages from 1668 to 1724, and Burials from 1661 to 1725. The second, very similar to the first, continues the record of Baptisms from 1724 to 1797, Marriages from 1724 to 1754 and Burials from 1725 to 1797. Hardwicke's Register, which was introduced in 1754, gives the Marriages up to 1812.

The entries have been extracted by the Rev. T. Taylor, with the assistance of the Vicar, the Rev. A. R. Eagar, D.D., who has kindly consented to their being printed.
