PREFACE.

The first volume of the Marriage Registers of Cumberland is now placed in the hands of the subscribers, and the Editors hope that it will be possible to continue this series until all the Registers of the County have been printed down to the year 1837, when civil registration began.

These volumes are issued under the patronage of the *Cumberland and Westmorland Antiquarian and Archæological Society*, who have undertaken to subscribe for thirty copies of each volume—a subsidy which, it is hoped, will enable continuous and steady progress to be made with the work.

It has not been thought needful to print the entries verbatim. They are reduced to a common form, and the following contractions have been freely used :—

w.=widower or widow.

p.=of the parish of.

co.=in the county of.

dioc.=in the diocese of.

lic.=marriage licence.

It must be borne in mind that the existing early Registers are themselves but transcripts, made under the order of Elizabeth in 1597, from the original paper Registers.

The following general facts in the history of Parish Registers may be usefully noted :—

Thomas Cromwell, the Vicar General, issued the order for keeping Parish Registers on 29 Sept., 1538.

Cardinal Pole required the names of sponsors to be added to the register of Baptisms, 1555.

The Registers were directed to be transcribed anew on parchment, from the beginning “but especially since the first year of her majesty’s reign” (1558), and minute regulations laid down for their preservation, 25 Oct., 1597.

These regulations were embodied in the 70th Canon in 1603.

The Commonwealth directed “Parish Registers” to be chosen 22 Sept., 1653.

Civil Marriage was instituted 29 Sept., 1654.

These Civil Marriages were legalized by Act of 12 Car. II., c. 33, in 1660.

Duties on the registration of Baptisms, Marriages and Burials, 1694, 1698.

Lord Hardwicke’s Marriage Act took effect 25 March, 1754. Commencement of a new series of Marriage Registers with fuller information entered according to a set form.

Duty of 3d. on every entry in a Register imposed by 23 George II., c. 71, 1783.

And repealed 34 George III., c. 2, 1794.

Rose’s Act, 52 George III., c. 146, took effect 1813. Form of Register again altered and commencement of a fresh series of books.

Civil Registration began 1 July, 1837.

After this date all Registers kept in duplicate.

It should be remembered that previous to 1752 the year was calculated as beginning on the 25th of March, instead of the 1st of January, so that a marriage taking place on say 20th February, 1625, would be on that date in 1626 according to our reckoning; but as the civil and ecclesiastical year were both used, this is sometimes expressed by 20th February, 162⁵.

In all cases where the marriage is stated to have taken place by licence, that fact is recorded, as the searcher thereby knows that further information as to the age, parentage and vocation of the parties is probably recoverable from the Allegations in the Archdeaconry or other office from which the licence was issued.

Thanks are due to Miss Patricia Curwen for undertaking the laborious task of copying the bulky register of Workington, and to the Rev. H. J. Allen for performing the same service for the registers of his own parish of Moresby.

In the case of Cumberland arrangements have been made by Mr. Ruston-Harrison by which the abstracts of each Marriage Register will be collated with the Bishops' Transcripts, and deficiencies in the original Parish Register supplied from that source, so far as it exists. This will render the Cumberland series of Marriage Registers one of the most complete and valuable for purposes of reference.

No index is issued with this volume. To avoid that great evil, a multiplicity of indexes, it is thought better to issue general index volumes, combining six or more volumes of the series in a common index, and the Editors would be glad to hear from anyone willing to help in the preparation of an index on this plan. It is of the highest importance that we should not delay in printing the Registers as rapidly as possible, as this is the only way in which their contents can be effectively preserved. Greater care undoubtedly is taken of these invaluable personal records than was formerly the case, but loss of Registers still goes on, and it may be mentioned that in more than one instance Registers have been lost since they were transcribed, although it is but fourteen years since this series of printed Parish Registers was begun.

It may be well to remind the reader that these printed abstracts of the Registers are not legal "evidence." For certificates application must be made to the local clergy.

Cumberland Parish Registers.

Marriages at Workington,

1670 to 1812.

NOTE.—The Marriage Registers of Workington Parish Church, before 1812, are contained in six volumes.

Vol. I (14 $\frac{3}{4}$ x 10 inches) contains Baptisms from 1663, Marriages from 1670, and Burials from 1664 to 1713. The book, which is of paper, is much tattered, and has apparently been also used as a commonplace book. A few notes on various subjects still remain, but many of the leaves have been cut out. Up to 1696 the registers are beautifully written and seem to have been copied from some earlier volume.

Vol. II. A parchment book measuring 13 $\frac{1}{2}$ x 7 $\frac{1}{2}$ inches, contains Baptisms, Marriages and Burials from 1714 to 1745.

Vol. III, in parchment (17 x 12 inches), is in good condition. Marriages only extend to 1754, Baptisms and Burials to 1783.

Vol. IV. 1754-1783.

Vol. V. 1783-1800.

Vol. VI. 1800-1812.

These last three volumes contain Banns and Marriages and are in a very good state of preservation.

The Bishop's Transcripts, which are kept at Lancaster, begin 26th April, 1720. Information from them not in the Registers is given below in *italic*.

The present transcript has been made by Miss Patricia Curwen, by permission of the Rector of Workington, Rev. S. P. Curwen, by whose leave they are now printed.

Marriages at Moresby,

1676 to 1812.

NOTE.—Moresby, in the County of Cumberland, was in the Archdeaconry of Richmond and diocese of Chester until 1856, when it was transferred to the diocese of Carlisle. The Church is dedicated to St. Bridget.

Vol. I., size $12\frac{1}{2} \times 8\frac{1}{2}$ inches, has evidently been rebound in boards covered with parchment, as many of the leaves which are of paper have been trimmed. It contains Baptisms (28 April, 1717, to 1 Dec., 1812) at the beginning; Marriages (26 November, 1717, to 7 March, 1754) in the centre; Burials (5 August, 1717, to 12 December, 1812) afterwards. On the inside of the cover, in modern handwriting, are some extracts from the "Parish Book." Then come two leaves stitched in (probably when the book was rebound), one containing a list of the Registers the other containing parish notes in contemporary handwriting. At the end are inserted (1) "Journal of remarkable occurrences in this parish, 1804 and 1805; (2) A Churchwarden's account for 1803; (3) Agreement dated 7 January, 1726, that Parton shall be responsible for its paupers apart from the rest of the parish; (4) Letter from Mr. Peter Hodgson to Mr. George Sowerby, dated 22 Sept., 1798, stating that Parton wishes to have the poor rate one for the whole parish; (5) Account of an appeal made and lost by Parton *re* poor rate, dated 1799.

Vol. II., measuring $15 \times 9\frac{1}{2}$ inches, bound in boards, is the usual Register of Marriages under Lord Hardwicke's Act. It extends from 5 May, 1754, to 1 Sept., 1782.

Vol. III., measuring 12×10 inches, printed for both Banns and Marriages together, bound in old leather; Marriages, 16 Sept., 1782, to 2 Dec., 1812.

The Bishops' Transcripts, which are kept at Lancaster, begin in 1676, but 1677-1689 and 1693 are missing.

This transcript is made by the Rev. H. J. Allen, B.A., Lond., Rector of Moresby, by whom leave is given for its publication.

APPENDIX.

MARRIAGES AT WORKINGTON 1813-1837.

„ „ MORESBY 1813-1837.

NOTE.

Since the Workington and Moresby Marriages previous to 1813 have been transcribed and printed, it has been decided to bring the abstracts down to 1837 in each case. There are two reasons which make this date more appropriate and durable as a stopping place than the ending of the parchment volumes and the change brought by Rose's Act in 1812. Firstly, Civil Registration began in July, 1837, after which date all registers exist in duplicate, and are, therefore, not only more readily accessible, but are free from that great danger of total loss or destruction, which is one of the chief reasons for printing the contents of the earlier volumes. Secondly, since Mr. Phillimore originated this scheme for printing the Marriage Registers throughout the country and issued the first volume [Gloucestershire] in 1896, the date 1837 has receded fourteen years further back into history, members of families who have any personal recollection of their family history previous to that date have nearly all died off, and it is becoming increasingly apparent that the records of the reigns of George IV. and William IV. are essential to the working genealogist.

It is hoped, therefore, that the *whole* of the Series for Cumberland, as well as most of the *future* volumes for other counties, will be brought down to 1837.

These later Marriages, like the earlier ones, have been copied by Miss Patricia Curwen and the Rev. H. J. Allen respectively.
