P R E F A C E

THE present is the eleventh volume of Nottinghamshire Parish Registers, and includes a series of six marriage registers from the north part of Broxtowe Wapentake. These are fewer than in former volumes, but the population of several of the villages included is much greater than the average of the parishes whose registers have already been printed. Thanks are due to the parish clergy who have permitted their registers to be printed. With the exception of Skegby, for which Miss M. A. Dodsley has been responsible, all the registers in the present volume have been transcribed by Mr. G. G. Bonser.

1379212

The entries, as before, have been reduced to a common form, and the following abbreviations adopted :—

w. = widower <i>or</i> widow.	d. = daughter of.
s. = spinster, single woman, <i>or</i> son.	p. = of the parish of.
b. = bachelor <i>or</i> single man.	dioc. = in the diocese of.
f.w.k. = frame-work-knitter.	co. = in the county of
	lic. = marriage licence.

The spelling of the surnames is in all cases the same as in the original registers, but the Christian names have in most cases been translated or modernised.

It must be remembered that these printed abstracts of marriage registers are not "evidence" in the technical sense. Certified copies must still be obtained when evidence of a marriage is needed for proving a pedigree in a court of law, or when registering it at Heralds' College. For such certificates application must be made to the clergy in charge of the original registers.

It should be borne in mind that previous to 1752 the years were calculated as beginning on the 25th of March, so that a

marriage entered as having taken place on, say, the 20th of February, 1624, really occurred on that day in 1625 according to our reckoning. This is sometimes expressed by "162 $\frac{7}{8}$ " or 1624-5.

No index is issued with the volume, as the Editors believe that it is better to print as many registers as possible, and to defer index-making until the registers still in manuscript are placed beyond the risk of loss.

The next volume is already partly printed, and will contain parishes in Thurgarton Wapentake.

Nottinghamshire Parish Registers

Marriages at Eastwood,

1711 to 1812.

NOTE.—The Registers of this Parish commence in 1711 and are 12 inches by $5\frac{1}{4}$ inches, are of parchment with parchment covered boards. They are in excellent condition and fine handwriting. The first entry records that “The old Registers of christenings, marriages & burials of the parish of Eastwood in the county of Nottingham, being lost in the burning of my parsonage house the 2nd day of June, 1711, this year begun by me, Peter Lalouel, Rector of the said Parish.” On the cover is an entry that Sarah —, late of this Parish, was excommunicated 1718. It is remarkable that the name of the Parish is spelt in so many different ways by the Registrar, Eastwood in 1711, Easwood and Eastwith in 1753, Estwayle in 1769, Estwaite in 1783, and Estwayte in 1784.

Volume II. is of parchment, 12 inches by $6\frac{1}{2}$, bound in calf. It commences: “The Register of Easwood or Eastwith in the county of Nottingham, 1752, New Style.” It contains nothing of much interest. One entry in 1762 is to the effect that no affidavit was received that Mary Whiting was buried in Woollen according to a late Act of Parliament, and on the inside of cover a Memo. to the effect that Robert and Samuel Granger were Churchwardens in 1782.

Volume III. is of paper, $9\frac{1}{2}$ inches by $7\frac{1}{2}$, and is in the form prescribed. It commences December, 1754, and finishes December, 1781.

Volume IV. is of paper, bound in calf, and of the same size as Volume III. It commences in 1782 and concludes in 1798.

Volume V. is of paper, bound in calf, 15 inches by $9\frac{1}{2}$, and in the form prescribed by the Act 26 George II., commences in 1798 and ends in 1812.

The Registers have been transcribed by Mr. G. G. Bonser, and collated by the Revd. A. H. Plumptre, the Rector, by whose permission they are now published.

Marriages at Selston,

1559 to 1812.

NOTE.—Vol. I. of the Selston Registers is $12\frac{3}{4}$ ins. tall by 6 ins. across, and is the Transcript of 1603, all the entries up to 1612 being in the same hand. It is in good condition, except the two first leaves, which are damaged at the edges, and the covers are all but destroyed. It has 56 entire and two half leaves, and on the last page but two is written: "Memora. that theire is but 53 leaves in this book when it was delivered to William Wood, being Churchwarden, 1631. William Fox, Robert Poole, Richard Claye." It is clear that some leaves must have been inserted, especially as there are 9 entries in 1633, 7 in 1634, 7 in 1635, 9 in 1636, 2 in 1647, before the Memo.

Both Baptisms and Marriages commence in 1557, Burials in 1558. They are very interesting and contain several entries peculiarly so, and they have been transferred to these columns although they do not relate to Marriages. It is most probable that Henry Denham, who last signs in 1641, was ejected from the Living by the Commonwealth Board of Tryers. There are nearly two blank pages between the Weddings of 1636 and 1641, and no entries from then till 1653, when an interesting one appears, for which the reader is referred to that date.

Volume II. is $10\frac{1}{2}$ inches high and 6 inches across, and is of parchment. It contains entries of Baptisms and Burials only. The back has had a large part eaten away by mice and there are no entries of interest, except that a whole page is taken up by an entry in large hand as follows: "1662. William Pearson, Vicar, Richard Clarke, Richard Lawrence, Churchwardens," from which it would appear that the Revd. Chas. Jackson was ejected by the Act of Uniformity, he being a Presbyterian. "A great Snow" on 30 Nov., 1658, is recorded. There are only 11 leaves and the entries run from 1654 to 1659.

Volume III. is $12\frac{1}{4}$ inches high and $6\frac{1}{4}$ inches across, and is of parchment. Of one leaf only about a square inch remains, there are 11 leaves complete. It commences in 1669 and concludes in 1689. An interesting entry as to the Burial of "Ferdinando Babbington, rightful heir to their estates, &c., &c.," is crossed out.

What may be called a Volume consists of 6 loose leaves of parchment with ragged edges, but well written, though with no regard to sequence in dates. The earliest entry is in 1684 and the last 1693. The most interesting entry is the baptism of James Clarke, whose parents are entered as "citizens of London."

Volume V. is 15 $\frac{3}{4}$ inches tall and 5 $\frac{1}{2}$ inches across, commences in 1694 and closes in 1736. It is in excellent condition and well written. The following interesting entry appears under date 8 Nov., 1709: "Sam., son of Jonathan Clee . . . baptis'd in a Barn "upon Dove Green by a Dissenting Teacher."

Volume VI. is of parchment, 12 $\frac{1}{2}$ inches tall and 7 inches across, and is bound in calf covered boards. A note in the cover states that it was "bought att an auction, paid 2s. 8d.," John Cooper being Vicar at the time. It commences with Burials in 1735-6 and finishes with Baptisms of 1786. Two pages at the end of the Register seem to have been reserved with the intention of keeping Baptisms by Dissenting Ministers together, 11 of the 15 entries being children of Richard and Mary Clark.

Volume VIII. is the form prescribed by the Act of 26 George II., A.D. 1753, is of parchment, and commences 1754 and closes 1790.

Volume IX. is of parchment bound in calf, commences on 6 Dec., 1790, and the last entry is on the 30 Dec., 1812.

These Marriages have been transcribed by Mr. G. G. Bonser, and are now printed by permission of the Rev. C. Harrison, the Vicar, who has also collated them with the originals.

Marriages at Sutton-in-Ashfield,

1572 to 1812.

NOTE.—The Registers commence in the old Paper Volume in 1592, but as the page is numbered 17 it is evident that the preceding pages are lost. In the Parchment Transcript they commence with one entry in 1572. Vols. I. and II. have been carefully arranged and re-bound by the kindness of the Revd. J. B. Hyde, late Vicar, and now Vicar of Kirk Ireton. The Paper Register measures 13½ inches by 6 inches, the Parchment 18 inches by 6 inches; the former containing entries from 1592 to 1753, the latter 1572 to 1714. The variations between the two Registers are noted in this print.

Vol. III. commences April, 1754, and ends July, 1780, is of Paper and well kept all through, the Revd. John Green being Curate, and making the entries till 13th July, 1767, then to Nov., 1773, the Revd. James Brown. The Revd. T. Hurt, son of Revd. T. Hurt, Rector of Teversal, publishes Banns 2 Jan., 1774, and first celebrates marriage at Sutton, 4 March, 1774.

The Revd. Thomas Cursham signs as Curate [Assistant] for the first time 11 April, 1775, in beautiful old copper-plate writing, making frequent entries till Feb., 1796, when he signs as "Minister of Annesley."

Vol. IV. commences 20 Sept., 1780, to 2 Jan., 1801, though an entry has been made of a marriage on 3 Sept., 1826. It is of Paper, bound in Parchment, and exceedingly well kept.

As the Church of Sutton was given by Gerard de Sutton to Thurgarton in c. 1268, and was perhaps served by Curates from Mansfield after the Dissolution, or by Curates without institution till 1747. No institutions have been found in the Register at York before that date, it is therefore all the more pleasant to find the Registers as good as they are.

The Marriages have been extracted by Mr. G. C. Bonser in 1903, and collated with the assistance of Mr. T. M. Blagg, and are now printed by the permission of the then Vicar, the Revd. W. H. Williams, now of North Muskham.

Marriages at Kirkby in Ashfield,

1620 to 1812.

NOTE.—The Kirkby-in-Ashfield Registers are five in number, Vols. I., II., and V., containing the Marriages. These do not commence till 1620. Vol. I. is of Parchment and is evidently a Transcript of the original Register now lost. It measures $13\frac{1}{4}$ inches by $10\frac{1}{2}$ inches and finishes in February, 1739. Vol. II. is of Paper, commencing 1739 and ending June, 1786. Vol. V. is of Parchment, $13\frac{1}{4}$ inches by $10\frac{1}{2}$ inches, commencing 1786 and ending 1812. A Transcript has been made of Vol. I., which has this entered on the first page: "This Register transcribed in the year of our Lord, 1771, by James Dowland."

They are all well kept, as is to be expected from the Rector of so important a living as that of Kirkby, one of whom was Dean of Wells and Rector, another being Archdeacon Kaye, while the Revd. Brooke Boothby was one of the last Prebendaries of Southwell early in this century.

These Marriages have been extracted by G. G. Bonser, by permission of the Rector, the Revd. J. Butterwick, M.A.

Marriages at Skegby,

1569 to 1812.

NOTE.—It may be mentioned that Skegby was anciently a chapelry in the parish of Mansfield. The Registers of this parish before 1813 may be thus described.

Vol. I.

This Volume is of parchment, without cover, and appears to be two books sewn together. The smaller portion measures 8 inches by $5\frac{1}{4}$ inches; the larger 9 inches by $5\frac{1}{2}$ inches. Half of the last leaf (recording baptisms and burials, and possibly some weddings also) is gone. In some places the ink has faded so completely, that a few of the entries are totally illegible. Handwriting generally beautifully clear and neat, and very closely written.

Vol. II. 1676-1750.

This Volume is without a cover, and consists of 35 parchment leaves irregular in size. Average measurement 14 inches by 7 inches. The leaves are discoloured and in places the ink is very faint. The first leaf is torn in several places. The entries are in the handwriting of several different people, and in some cases are mixed up with baptisms and burials.

Vol. III. 1750-1812.

This Volume is bound in calf. The cover measures $14\frac{1}{2}$ inches by $8\frac{3}{4}$ inches, and it is in rather poor condition. The leaves are of parchment measuring 14 inches by $8\frac{1}{2}$ inches. The title on the cover is to some extent indecipherable, apparently eaten through by the ink:

“A Register of the Baptisms, Marriages, and Burials in
[*word gone*] in the County of Nottingham, in the
Archdeaconry of [*word gone*] and Diocese of York.”

The pages number 73, and are in places much discoloured. The marriages and banns are entered together in two places.

These extracts have been made by Miss M. A. Dodsley, and are now printed under her supervision by leave of the Rev. H. J. Stamper, the Vicar.

Marriages at Teversal,

1572 to 1812.

NOTE.—The Teversal Parish Registers commence, Baptisms 1571, Marriages 1572, and Burials 1571.

Vol. I is of parchment, and measures 15 $\frac{1}{4}$ inches by 6 $\frac{3}{4}$ inches, and is very well kept, although the ink is much faded and the leaves dogs eared.

Vol. II. is also of parchment, and is 19 inches by 6 inches, and on the cover is written "This Book was bought of Clement Elis A.D., 1690, pm. 5s.—6d." It is headed "A Register for Tevershall from Mr Francis Chapman's Induction into the Rectory, July 25, 1676."

Vols. III. and IV. are of parchment, and are for the most part written in bold characters and good ink.

The entries both of Baptisms, Marriages, and Burials of the Molyneux family are of much interest and some detail.

The Registers have been transcribed by Mr. G. G. Bonser, of Sutton-in-Ashfield, and collated by him, with the assistance of the Revd. G. E. Eaton, the Rector, by whose permission they are now printed.
