PREFACE.

A sixth volume of Somerset Marriage Registers is now completed, making the total number of parishes dealt with to be forty-nine.

1379239

As before, contractions have been made use of—

w.—widower or widow.

dioc.—in the diocese of.

b.—bachelor

co.—in the county of.

s.—spinster, single woman.

lic.—marriage licence.

d.—daughter.

y.—yeoman.

p.—of the parish of.

c.—carpenter.

The reader must remember that the printed volumes are not “evidence” in the legal sense. Certificates must be obtained from the local clergy in charge of the Registers.

The Editors have to acknowledge the ready willingness of the Clergy in affording facilities for making the needful transcripts for the printers. Their names are given under the respective parishes. They will gladly welcome the assistance of others who may be willing to aid in transcribing Registers, for it is only by volunteer work that it is possible to print our Parish Registers.

They would gladly issue two volumes in each year, and this they can do if those who have the opportunity will supply them with the needful transcriptions of the Registers.

Marriages at Charlynch,

1745 to 1779.

NOTE.—The only Register extant is a leather bound Parchment Book. 13in. by 18in., entitled “ A Register of the Births, Marriages, and Burials for the Parish of Charlinch, 1774.

There are 19 pages of Baptisms, down to 1812. Next two pages entitled, “ An account of Apprentices in Charlinch Parish taken in 1764. Seven leaves cut out, two blank leaves. Turning to the other end of this book, we have 10 pages of Burials, and then nine leaves of another book ruled and with a printed margin inserted, and sewn to a leaf of the original, comprising the Marriage Register.

In 1832, the Rev. Samuel Starkey, Rector, reports that this was the only Register Book of a date prior to 1813 then in the chests.

These extracts were made and are printed by leave of the Rev. W. A. Bell.

Marriages at Enmore,

1653 to 1812.

NOTE.—The Register Books at Enmore are :—Vol. I., A parchment book into which have been copied, in a clear, flowing hand, the entries in an ancient Register Book, by Benjamin Kehby, curate, down to the year 1737; after that date the entries are mere scrawls and hard to decipher.

Vol. II., A second parchment book, commencing in 1750 (Marriages to 1753), ending 1812.

Vol. III., A book with printed forms for the registering of Marriages according to Act of Parliament, 26 Geo., II, commencing 1754 and ending 1812.

These extracts were made by the Rev. W. A. Bell and are now printed by leave of the Rev. J. A. Sorby, M.A., Rector.

Marriages at Stockland Gaunts

(Otherwise Stockland Bristol).

1538 to 1807.

NOTE.—The First Register :—This is on 32 pages of good paper, 16 ins. by 5½ ins. The first section of 10 leaves is in good order ; the second section of 7 leaves, is in fair condition ; and the third, comprising the remainder, is dilapidated. The first entry is of the year 1538, and the last of 1597. As a rule each year has a page to itself, on which the entries under the three headings are made separately. There is no cover. On the inner page of the first leaf is written :—

"Stoc lond Gawnts. Anno Dni. 1538. Anno Regis Henrici 8i 30. The record uppone certeyne injunctions gevyn by ye auctorite and commandement of ye Kyngys highnesse to all parsons vicars, curates and churchwardyns concerning cristenyngs, weddyngs and buryngs, the names of whom to be wretyn and regestryd after the tenor and affect contaynyd in the sayd injunctions accordingly het which injunctions were exhibited and declared by the ryght worshipfull Mastr. Doctor Sowthewode at Crokem the 26 day of the month of October, in the yere of our Lord God 1538, and the 39th yere of the raygne of our sovraigne lord kyng Henry the eight Supreme Hed next immediat onto God of this hole church of Ynglond."

The date headings throughout are given in terms of the year of our Lord, and also of the reign. The date of the coronation of Edward VI. and of Mary are noted in Latin. The year containing the accession of Elizabeth is cut out, evidently at no long time after the entries were made, as the year 1560 and 1561 are continuous and properly headed on the opposite pages of the cut leaf. The handwriting from 1538 to 1557 is very good and clear, and of the same court hand type throughout. From 1561 onward the writing varies greatly, becoming very careless and bad from 1572 to the end.

The Second Register (transcription of above) : Marriages. This contains a carefully written and fairly accurate transcript of the old register from 1559 to 1598, made in 1598. Where this transcript differs materially from the apparent spelling of the first register it is noted in this copy. The book consists of 27 leaves of parchment, in fair condition ; the first 10 of which contain the Baptisms, the next 5 the Weddings, and the remainder the Burials. The size is 7 ins. by 12½ ins. The dates included are from 1558 to 1654. The handwritings are fairly legible throughout, but the ink considerably faded from about 1632

onward. There are no covers. The outside of the first leaf is headed "Stocklande Bristowe," and the usual statement of the order for the keeping of the registers is added, with the signature of Vicar and Churchwardens of the year. There is also an endorsement in a modern hand of the dates included. Six leaves appear to have been cut out as superfluous at the completion of the Marriage entries.

The Third Register Book (parchment):—This book consists of 13 leaves of thick yellowed parchment, and somewhat thicker cover. Size, 11½ ins. by 6 ins. The cover is endorsed "Stockland Gaunts, 1655," with the statement by the churchwardens of its acquisition. There is also an endorsement of late handwriting as to the contents. The first 5 pages contain the Baptisms from 1655 to 1678; the next 3 the "Banns and Marriages," and the remainder the Burials. From 1656 to 1659 the "Marriage Contracts," and date and place of the ensuing civil marriages are given. From 1660 onward the entries are in the usual form. The handwritings vary greatly, and are often illiterate and difficult. The lower third of the fifth page has been cut off, the knife penetrating and severing the three following pages also. Five superfluous leaves at the end of the Baptisms, one at the end of the Marriages, and three at the end of the book have at some time been cut off.

The Fourth Register Book:—This is a parchment covered paper book in good condition. The size is 12½ ins. by 8 ins. It is endorsed "Stockland Bristol" on the front cover, and "Stocland Register" and some other notes are also written in faded ink on the same. No leaves are missing. The first 16 leaves contain the Burials; the next 11 are blank; the next 6 contain the Marriages; the following 5 pages being blank, excepting for one Marriage entry on the head of the third of these pages. The 19 last pages contain the Baptisms reversed, and commencing from the last page of the book. From 1680 to 1690 the writing is most illiterate and the names mis-spelt though fairly clearly written. From 1700 onward the pages are ruled for year, month and day in the case of the Marriage entries, the writing being far more careful. This book includes the dates from 1679 to 1749.

The Fifth Register Book:—This is the statutory parchment covered book, ruled and bordered. It contains the Marriages from 1754 to 1807 (with the banns).

These extracts have been made by the Rev. C. W. Whistler, Vicar, and are published by his consent.

Marriages at Cannington,

1559 to 1812.

NOTE.—The first Register is a thick parchment covered book, with parchment leaves, 10½ in. by 7¼ in. On the cover is written in a bold modern hand : “1559, Weddings, Baptisms, and Burials No. 1.”

This book has been repaired with a piece of linen pasted over the back, and half of the side covers.

The first 27 folios are numbered, the entries are transcribed from an earlier book. This is shown by the following heading :—
“Registrum Canningtonense recenter inscriptum secundum constitutiones Synodi anno 1597 examinatum per Rich : Bennet, Vic : et Johaun Payn et Jacobum Pyle, Guardianos.”

At the foot of every page of these 27 folios is subscribed : “Concordat cum originali et testisq Richardo Bennet.” They register only the Baptisms down to 1559. The next 14½ pages likewise register Baptisms from 1600 to 1644, handwriting bad, then a blank page, and on the next in modern handwriting the following Memorandum :—
“Hic jacet Do. Walterius Aishford quondam Vicarius istius loci qui obiit 11 die mensis Septembris anno Domini Millesimo CCCCº Septuagesimo Secundo. Cujus anima propicietur Deus. Amen.”

“Here lieth Sir Walter Aishford, formerly Vicar of this place (Cannington), who died 11 day of the month of September, Anno Domini 1472. On whose soul may the Lord have mercy. Amen.” In the reign of King Edward the 4th. He reigned ten years and near six months, want 4 day. N.B.—The above is on a brass plate in the chancel.

The 11 following folios also contain Baptisms from 1624 to 1644. A note on the last page says :—“The rest of the Christenings for the year 1644 you shall find att the end of the Burialls for the same year, 1644.” From 1624 the writing improves. In 1633 it is very distinct, almost like printing. Edw. Fry signs as Churchwarden, and it looks as if it were his writing. From 1635 to 1637 it is not so good ; in 1637 begins a most beautifully clear minute hand, that of Robert Reason, Vicar, till 1644.

Next the Transcripts of Burials, 28 folios, 1559 to 1599. Then ten more folios of Burials, 1600 to 1618 ; two blank pages with the following scrawled over them :—

Henry Thorne his hand and pen
God bless King George and all his men
The Bell for Him too!
Lord Jesus Red his Sool.
Andrew Haris did Teach Henry Thorne.

Then 11 more folios of Burials, 1624-44; next the residue of Christenings for ye yeare 1644; 1½ folios Burials, 1645-6; the residue of Christenings, 1646-7; Burials, 1648; Weddings, 1648-9; Burials, 1649; Christenings, 1649; Christenings, 1650; Weddings, 1650; Burials, 1650; Christenings, 1651; Burials, 1651-2-3. Then follow 16 folios Transcripts of Marriages, 1559 to 1600. Six following folios Marriages, 1600 to 1618, two blank pages, and then six more folios of Marriages down to and including the year 1654.

Between Volume I. and Volume II. there is a blank of ten years, and no records of Births, or of Deaths, nor of Marriages.

Volume II. is a parchment book, 18½ in. by 8 in., of 120 pages; 60 folios of Baptisms, 1664-1732; 16 folios Marriages, 1665-1739; two blank: eight folios Baptisms, 1732-1739; 21 folios Burials, 1664-1703; one page Baptisms, 1707; and one Marriage; 110 folios Burials, 1706-1738; one blank; 1½ pages, an account of ye Births of children in ye P'sh of Cannington in ye yr 1699.

Volume III. is a substantially bound book, 18½ ins. by 9 ins., of 60 parchment sheets with leather covers: 57 pages of Baptisms, 1739-1812; 10 blank; 3½ pages of Marriages, 1740-1754; 12 blank; 35 Burials, 1739-1812.

Volume IV. is a ruled parchment book, leather cover wanting, dimensions 14½ ins. by 9½ ins., containing Banns and Marriages for 11 years, 1754-65.

Volume V. is a parchment book 6½ in. by 10½ in., ruled and bound in leather, containing 120 folios of Banns and Marriages from 1765-1823. Five blank pages at the end.

These Weddings have been extracted by the Rev. W. A. Bell, and are now printed by leave of the Rev. C. D. E. Malet, Vicar of Cannington

Marriages at Spaxton,

1558 to 1812.

NOTE.—Vol. I. is a Parchment Book, 15 ins. by 7½ ins., and is in a very mutilated condition, mice having apparently got at it and eaten great holes in it, almost half through the book. It begins in 1558 with the Baptisms, of which there are 15½ folios. Turning to the other end of the book the Burials commence, also in 1558, there are 13 folios of them down to 1652. Then follow the Marriages, 5½ folios.

Vol. II. This book is in a far worse condition than the first one. Two inches in depth in the middle, tapering off to the top and bottom of each page, has been nibbled away right throughout this volume. There are at the beginning only three pages of Marriages, beginning in 1701 and ending in 1734. It is a Parchment Book, 13¾ ins. by 8¾ ins., consisting of 28 folios. Sixteen of Baptisms, from 1668 to 1734; nine of Burials, from 1688 to 1729.

Vol. III. a Parchment Book, 15¾ ins. by 9½ ins., originally bound in leather, which is now gone. "There are 50 leaves in this Register and no more from ye beginning." Marriages, 1735 to 1772; Baptisms 1735 to 1805; Burials, 1735 to 1808.

Vol. IV. is a leather bound book, 14¾ ins. by 9½ ins., paper leaves with printed forms for Banns and Marriage entries, according to Act of Parliament. It cost 8s. 6d., and begins in 1769; the Marriages down to April, 1772, consequently being in duplicate.

Extracted by Rev. W. A. Bell, by permission of the Rev. P. Fairfax Nursey, Rector of Spaxton.
