FRANK PEIRCE,

Sole Agent for

"Shultz's" Raw-Hide Belting, Lace and Picker Leather,

No. 128 PEARL STREET, BOSTON, MASS.

For Race, Mule, Stripper, Card, Counter, Speeder, Cone, Winder and Driving Belts, in fact, for
HARD PLACES it is acknowledged to be the BEST in use.

This belting is tanned only on the Surfaces, retaining all the strength of the Raw-Hide, and, by a new Patented Process of Fulling, is made perfectly pliable. It does not get hard. It does not tear out at the lace-holes or rivets. It stretches less than any other belt. It hugs the pulley better, and displaces one third more power than any other belt. There is no acid, alkali, salt or astringent used in its manufacture; the process is entirely mechanical. In competitive tests with all the leading Oak Tanned Belts, it has severed them with only one half their width. The Lace-Leather is made of Raw Hide, without any Tanning, and is stronger and will wear longer than any other Lace-Leather in the market.

THE FOLLOWING WELL-KNOWN MANUFACTURERS HAVE THIS BELTING IN USE.
