

# TECH STUDENT TO LECTURE AT THE UNIVERSITY

WILLIAM KIMBROUGH WILL LEC-  
TURE ON WIRELESS TELEGRA-  
PHY AT THE ATHENS COM-  
MENCEMENT.

William Kimbrough, a student at the Georgia School of Technology, who will graduate this year in electrical engineering, will go to Athens to attend the Uni-

WILLIAM KIMBROUGH.

versity commencement and will deliver an illustrated lecture on wireless telegraphy. He will have with him all the apparatus necessary to demonstrate his subject.

At the last commencement of the University the Tech was represented by D. D. Towers, who delivered an address on Textile subjects, and his lecture was so well received by the students at the University that Captain Hall has been urged to send another student to Athens this year. Mr. Towers' address was demonstrated by samples of the textile work done at the Technological school, and it was said to have been very fine.

Mr. Kimbrough is one of the leading students at the Tech school, and besides is an excellent speaker. He has made a special study of the subject on which he is to lecture and is well prepared.
