

Faculty and Class of Forty-Five Graduated From Young Harris College

NINETEEN HONOR STUDENTS WERE IN THE CLASS GRADUATED LAST MONDAY AT THE NORTH GEORGIA INSTITUTION. At the top is the faculty, as follows: Top row, left to right: Zell McGee, Leslie Jones, E. L. Adams, Sara Batewhite, Augustus McMeekin. Middle row: Georgia Haley, Mrs. Birdie Miller, Miss Mary Cantrell, Miss Mary Sample, Will Wakeford, Miss Verdie Miller, Mrs. J. W. Sharp. Bottom row: J. B. Stroud, S. B. Tolar, W. S. Mann, Dr. J. A. Sharp, S. G. Miller and J. W. Sharp. Graduating class: Back row, Evelyn Berry, Josiah Spivey, Grace Whaley, Carlyle Nelson, Zell McGee, Cecil Butt, John Foster, Martha Welchel, Otis Chatfield and Guy Clara Arwood. Second row: David Welchel, Horace Wright, Reba Lawson, Spencer Haynie, Mary Carlton, Frank Emberson, Augustus McMeekin (first honor), Gladstone Teasley, Mattie Osborn. Third row: Ernest Foy, Mary Roark, William Clark, Gyp Booth, Guy Padgett, Hettie Dunn, W. B. Mauldin, Christine Anderson, Leslie Jones (first honor), Irene Cathey, J. T. Lane. Bottom row: M. A. McDaniel, Lillian Dawson, Virgil Haynes, Helen Bailey, Leroy Jackson, Rosa Lee, Allen Smith, Hazel North, Dallas Veal, Lexie Lamb, L. Brackman and Faith McWhorter.—Staff photos by Winn.

GEORGIANS URGED TO COMPLETE LONG MEMORIAL STATUE

(Continued from Page 1)

der Dr. Long, and subscriptions were secured for the fund to employ a sculptor and carve the statue. Thus far about \$8,500 has been raised and it is necessary to secure the remaining \$1,500 without delay.

J. Massey Rhind, of New York city, one of the most eminent sculptors of the day, is now engaged on the work, having completed the clay model from which the plaster cast is to be made for a pattern for the actual carving in marble. The carving is to be done at Tate, Ga., where the Georgia Marble company has given a huge block of exquisite marble for the purpose. Mr. Rhind will make his headquarters in Tate until the statue is completed. His compensation is to be \$9,000.

Mr. Rhind has to his credit a splendid statue of the late President William McKinley at Niles, Co., and several other fine examples of the sculptor's art. The statue of Dr. Long will show him as he looked at the age of 27 years, when he discovered anaesthesia.

Subscriptions to the long memorial fund should be forwarded to Dr. W. G. Blalock at the Fulton National bank, Atlanta. The middle west, Governor Clifford Walker, has ap-

SOUTH AND EAST SWELTER IN FIRST 1925 HEAT WAVE

(Continued from Page 1)

while at St. Paul it was 93 degrees, a May record. Duluth apparently was the only cool spot in the state, the mercury stopping at 58 degrees at noon.

In Milwaukee the heat blast sent the temperature up 28 degrees in 20 minutes.

The heat wave, which started yesterday in the plains of Nebraska and gained momentum today, killed a building construction worker at Omaha, while in Lincoln, Neb., a railroad section hand dropped dead. Six deaths were attributed to climatic conditions Thursday night. Severe storms caused three deaths in southern Illinois and three deaths in Colorado.

Following the heat wave, western Minnesota and parts of South Dakota were visited by wind and rain storms which did thousands of dollars damage to buildings and wire communications.

HINT OF SURPLUS IN REPORT FILED BY COMPTROLLER

(Continued from Page 1)

Contained in the report is a table showing the property assessment in Georgia for a period of 45 years, during all which General Wright has been comptroller general. During this time the value of property on the digest has increased from \$238,934,126 to \$1,042,659,867, or approximately 436 per cent. For the same period the value of public service corporations has increased from \$12,490,525 to \$170,763,216, or 1,367 per cent.

Property Values Decrease
The value of property on digest has decreased \$133,812,201 since 1920, while the value of public service corporations has increased \$5,252,593 in the same period.

The report asks that small local telephone companies be required to make their reports to the county authorities instead of the state authorities, as they are local in character. It is also recommended that tax collectors be made ex officio sheriffs for the levying of taxes, and that tax collectors be required to give surety company bonds instead of personal bonds.

"The statements that have been made from year to year that the state of Georgia is not raising sufficient revenue to meet its appropriate needs were without foundation prior

TENNESSEE STIRRED BY PENDING BATTLE IN EVOLUTION CASE

(Continued from Page 1)

"bonds," is a neighbor and one of the "bonds" is almost in Dayton's yard, a few miles from the town limits.

The present case, in a fair way to be heard around the world, was started one night when a crowd of congenial spirits had gathered in a drug store, the town club to all intents and purposes.

Mr. Scopes was present and in a discussion of the legislative edict against the teaching of evolution, he remarked that he was teaching it in the biology courses of his science department.

Then it was the ball was started rolling that may land the Dayton case in the United States supreme court. Dr. George W. Rappleyea, a chemical engineer, manager of iron and coal company in Dayton was in the group and he at once suggested that Scopes submit to arrest that a test case might be had of the new law.

Agrees to Test Case
Scopes acquiescing, Dr. Rappleyea went before a justice of the peace and swore to a warrant for the school teacher's arrest. He was charged with teaching evolution in biology review April 21, when the
