Witness my hand & seal this 5th day of June 1854

On Saturday 5th of Instant, I was at my son Wm Harveys house he was very Sick but I believe in his Right mind after some conversation he told me his Business were not settled and further said he wanted me to settle it for him, it being late in the Day & I very poorly, & as he did not appear to be Dangerous I would come in the Morning but asking him few Questions how he would make his will, he told me the Deed of Gift of Mr. Andrews gave him was not Recorded, I promised to have it done he told me he did not want his Negroes sold, but he would lend all to his wife Nancy during her single life, then it would be Time Enough to Divide, to the best of my knowledge, I ask'd him who he would chose for his Executors, I told him I supposed Nancy, but who for the other he reply'd he would leave it to her to choose who she pleased, we also Talked of what he owed me, & further wanted me to Take some of his Papers & collect his Money from the Wm Daniels

I told him if I could hear of their coming I would come & let him know of it, & would then if he requested to try to collect it, a True account of what was said & tell him us to the best of knowledge —
