Richmond Va March 18/62

General

The recent act of Congress in relation to officers of the Army published in Genl Order No 22 (current Ser.) authorized the President, upon the recommendation of the General Court, to discharge from service, any officer who has no command and cannot be assigned to any appropriate duty, or who is incompetent or inefficient, or who may be absent from his command or duty without leave.

I am directed by the President to call your attention to this act, and request that you will cause subordinate commands to report the names of such officers as come within its provisions, and forward their reports, with the remarks of intermediate commands fully & fully presenting each case, and your own recommendations concerning the grade upon which you may approve or disapprove.

Each name will be reported on a separate paper: will state the grade, company & Regiment or Battalion of the officer if absent by what authority and where he may be found, and if absent under what duty, and by whose authority he may have been assigned.

You will note the provision in the act which accords to an officer so dropped the privilege of summarization by a board, if demanded within thirty days after the notification of his being dropped has reached him.

The order that the Army may be at once relieved of incompetent and unworthy officers is important that their reports be made promptly.

Very Respectfully Your Obedt Servt

Orangeburg S.C. June 1 1865

Lieutenant:

I have the honor to request of ~~those~~ ^{return} ~~no authority~~
the ~~restoration~~ ^{return} of a wagon taken from me three days
ago by an agent of the Government acting under orders
from Brig. W. O. Ows — This wagon was originally the
property of the U.S. but became the property of the then
C.S. Gov't by a series of exchanges ~~thus~~: After the battle
of Trevilian Station Va and during Gen Sheridan's ~~advance~~
an officer of Gen Custer's brigade left this wagon, ^(then broken down) with a
citizen as compensation for a wagon impressed from him, in
a like manner an officer of Gen Hampton's command
made an exchange with the same citizen leaving with him
a C.S. wagon and taking this a U.S. wagon
The wagon became my property, as an officer in Gen.
Johnston's Army, in the distribution of the transportation
of that army in accordance with the terms agreed upon
by that Genl & Gen Sherman and I base my claims to the
wagon alone upon the fact that it is a part of the transportation
of the army and was allotted to me in the distribution

Capt^l Halsey

Dear Sir, I have been in expectation of meeting with you for months to no purpose. I saw your Brother some 2 or 3 times since who promised to introduce to you my great desire of a personal interview, & now I will try & get this on direct thro' Mr. Henry - the purpose is two fold - To ascertain all the particulars concerning the death of my son Max Cohen a member of your company at Bentonville Mo. Ca. and to receive his remains if it be practicable - I am truly & most respectfully and on what is most anxiously desired an interview with you whenever it suits your convenience to visit this City where I will be most pleased to see you any afternoon at my residence 1107 Ashley St. I have written by advice to no purpose (resp. none) to his Minister Messrs. S. & S. Patterson - have addressed them at Blacksville & Bainsville can't know perhaps neither place did they receive it - should you know their whereabouts I would thank you for the information as I have in doubt as they were & I hoped to inter my Son - Very Respectfully Sir

Yrs
Max Cohen
I had scarcely written the above when a letter was received from Mr. S. S. Patterson who says - My poor Boy lived some 10 or 12 hours after being struck on the first day of the fight by Sharpshooters

statist engaged in pulling out a line that was
burning a line - & that after playing him in the
shade he had to follow the change that was
induced in the room time leaving him to be
revived by the Hord & Holders left for that purpose
& that he was revived by a man named Dyer
from the up country - some papers were found
which were handed over to Mr. Harry Mores of the
Credel Hospital his cousin (which I have since got)
but his clothes were lost to be honest as he could not
take care of them but have long shot & long compulsion
to walk - but his Box of Dental Instruments being
very heavy - & Mores not coming for them - The
Officers advised Mr. Patterson to take them over to the
Ambulance Officer - He thought the Officer had them
home & take by & get them - but does not say
anything of the spot where my son was injured,
nor the probability of obtaining his remains - any
light thrown on this matter by you - may be
connected with time when alive - or anything
belonging to him till he has cleared his most burning
experience & gratefully ready to go very truly
yours

General Lee is informed that notwithstanding the order on the subject, intercourse and conversations still take place between our pickets and of the enemy. He has received credible evidence that many deserters and sagacious officers on their picket lines to influence our men to desert, and that many desertions that occur at night, are arranged in the conferences that take place during the day. The General directs that intercourse be stopped, and that officers be detailed on picket lines charged particularly to prevent conversations between our men and those of the enemy, and held responsible for the faithful performance of this duty. In any case where a violation of this order occurs, the General directs that the officer in charge be promptly arrested and charges preferred against him. Division, Army & Regimentsal Commanders must give special attention to the enforcement of this order and see that the same is effectually suppressed.
