(recorded 20. March 1797)

Whereas a difference is now subsisting between David Sloan of the one part, & Polly Sloan, Widow of William Sloan deceased of the other part; Which difference or dispute, is submitted to our arbitration by the bonds of the respective parties bearing date the 24th June last. And Whereas we the said Arbitrators have met with the said Parties on this 24th September 1796. in order to inquire into & adjust the said difference or dispute. — David Sloan produces to us a bill of Sale of two Negroes, named Sambo, and Joo, executed by Wm. Sloan, bearing date the 16th July 1794. and vesting the right of the said Negroes in him the said David. — This Bill of Sale or such a paper was sufficiently proved to have been executed by the said William at the time of its date: but no consideration was proved to have been given by David, nor delivery of the property to have been made by William, neither at that time nor at any subsequent period; nor does David plead the one or the other. Polly Sloan, produced several witnesses on her part, whose testimony corroborated & strengthened each other, substantially proving that one Hunter in Georgia, at the first settlement of this Country, had employed Wm Sloan as a Deputy Surveyor, and had put Warrants, from the Georgia Land Office, into his hands to survey a Quantity of land, which was not done by the said William to the satisfaction of the said Hunter who commenced suit for Damages in this State v. the said William, who obtained a non suit in our Court vs. the said Hunter, who received his suit by writ of Attachment in Georgia, that said William attended the Court to which the said writ was returned — That the attachment was circulated in Court as illegal, or some how improper, on, or about the 15th of July 1794. That the said William was informed by his counsel, his friends, or both, that writ was preparing by said Hunter to take him in Georgia, and he was advised, with all possible speed to cross the river into South Carolina which he did, but told a Witness he would immediately make over his property, least Hunter should recover unjustly against him. — That the bill of Sale bears date the 16th July 1794. — That he the said William afterwards told the said Witness and several others, that he had made over his property to his Brother David, — or that he had given a bill of Sale of the two Negroes, by name Joo, for Sambo to his said Brother David, on purpose to secure them from Hunter, in case he should recover against him. — That the said William since offered to call both of the said Negroes or one that appear after the date of the said bill of Sale, and test shortly before his death. — That the said Witness told this to David Sloan after the death of William — That David Sloan said that if his brother had called them he should have been good, that his said Brother was always at liberty to take them back again any time in his life.
