The annual report of Nancy Galloway Guardian
 of the infant children of Robert Galloway and viz

 The distribution share of each with which the Guardian
 charges herself is two hundred and thirty eight dollars
 She has paid at three dollars per month 3600
 So broken paid for cash 3600
 \$4100

Interest for one year on each distribution share is
 \$1904 leaving each child indebted to her \$31.96 out
 of which she claims only the amount paid by her
 as taxes upon the lands which would not exceed
 three dollars to each of her wards this will still leave
 each ward indebted to her for last year about 1904
 - ten dollars which she does not exact and interests
 not to claim after the payment to the extent of the
 interest of their respective shares and the taxes on
 their lands all over this she gives and releases
