

A

COMPENDIUM

OF

ARKANSAS

GENEALOGY

HOW TO USE THE COMPENDIUM

In the COMPENDIUM the surname is listed, then the given name for individuals and families, the County (if known) the data and reference.

If you find a reference which states, See:---, and you turn to the name and do not find it, the data will be on the pages included in the next issue. If you need the information immediately send a self-addressed, stamped envelope or card and it will be sent to you.

If you find a name or reference listed in a published volume and you would like to have the data;

- a. Check to see if your local Libraries have the publication.
- b. You can write to Libraries, give the publication and page numbers, and see if they have a photo-copy service of this type - some do, at a reasonable rate.
- c. Contact a researcher to procure the material for you.

This procedure also applies to the unpublished records in the Arkansas DAR Volumes, with the exception that copies will not be in your local Library. You can also order copies of publications of the various Historical Societies that publish them. You may write the Editor about the DAR Records.

Arkansas Counties are listed, with data pertaining to each County, as Court House records, Cemeteries, etc. Names of Arkansas Cities and Towns and Counties in which they are located are also given as a research aid, along with some historical locations and roads.

You will notice that the pages are numbered A-1, A-2, B-1, B-2, etc. This will enable you to bind the COMPENDIUM as a separate book in hard covers at the end of the year. This is especially recommended for individuals and Libraries where the volumes are in constant use. The COMPENDIUM will contain approximately 250 to 300 pages in itself.
