

HILLSIDE CEMETERY, SECTIONS TWO AND THREE.

near Graniteville.

General Remarks.

This is the newer part of the Cemetery, which was opened in 1882. The older part occupies pages 33 to 61. Mr. Davis transcribed all the inscriptions taken in this part of the cemetery. The gravestones and lots were copied in rows running from south to north (left to right); unless otherwise noted, the gravestones and monuments face east towards Richmond Avenue. The majority of the monuments in the newer part of the cemetery are granite.

Nos. 1501 to 1510 comprise four rows in the large plot evidently laid out for single graves and east of lots 1 to 4 inclusive. No. 1510 is a few feet east of lot 4 in the north-west corner of the plot; and No. 1501 is in the south-east corner, close to the entrance to the cemetery.

The image shows a large, rectangular object, possibly a piece of machinery or a large box, lying on a flat surface. The object is composed of numerous smaller rectangular panels, some of which are labeled with handwritten text and numbers. The panels are arranged in a grid-like fashion, with some sections being larger than others. The object is oriented diagonally across the frame. The background is a plain, light-colored surface.
