John H. H.	1	M					Pa. Aug			Sept 1880	2 "
John H. H.	7	F					Pa. June			Sept 1880	4 days

Remarks: The Typhoid fever has raged to more extent than usual in this County and there is no particular cause, owing to the physicians for the same. The fever has been less prevalent than usual. The water is free from slightly impure water in places with deep stone springs and wells are bath used mostly of the latter kind. Water is found from 10 to 15 feet deep and is generally a sharp taste of iron.

James	75	F	B	I			12 July		Keap-ghough	5 days
Isaac	26	F	B	I			Jan Sept		Keap-ghough	5 days
Isaac Moore	23	F	B	I	M		12 June		Keap-ghough	15 days

Remarks. There are five places in the County where cotton is raised. Big Hatchers River runs through this County from an Eastwardly to a Westwardly direction. Another is much smaller and that is to be seen for cultivation. Most of the hemp land is for production and where it is used it is generally in cultivation. There are but few rocks to be seen in this County and they are generally what is termed sand rocks. There are

Remarks: Bar of any kind except iron and but slight appearance of that. The land is on high lands and oak. Hickory Poplar Gum Sycamore Pine are the bar lands. Peach Hickory Walnut and Cypress and Gum the last season was unusually wet. There is a large portion of the land that is in cultivation that is very much washed away by the state of cultivation but little or no pains has been taken.
