County Court Clerk.

Which report being unexpected to be by the Court in all things confirmed.

And it appearing to the Court from said report that the personal assets of the estate of Est. Marler, deceased, have been duly exhausted by the Administrator in the payment of homestead debts and charges against said estate, leaving bonafide debts and charges against the same still outstanding and unpaid to the amount of Three thousand six hundred and ninety (\$3609.00), not including amount due to Administrator for his services as such in this cause and the cost of this proceeding.

And it further appearing from said report that said Est. Marler died seized and possessed of the real estate set out and fully described in the bill and set out in said report; that it is necessary to sell said real estate, together with the remainder interest in the homestead and dower set apart to the children and widow of said decedent to pay said outstanding liabilities; said real estate is described as follows:

Also 7 Acres off of the South side of the 90 acre tract in the second range, West of the East Line, Township 1, and section 28, being a part of the South-east quarter of said section, and being partly in Meigs County and partly in Bradley County, State of Tennessee, and the said 7 Acres lies on the South side of said 90 acres, being about $4\frac{1}{2}$ rods North of the South-west corner of said 90 acre tract, and running East to the East boundary line of said 90 acres, so as to include 7 Acres off of the South side of said 90 acres, south of the line to be run from West boundary line $4\frac{1}{2}$ rods North of the South-west corner thereof to said East boundary line. Also 1 acre of land bounded on the East by James Sears, on the South by the road leading from Cleveland to Georgetown, on the North by Marler, said being in Bradley County, Tennessee. Said 7 and six acre tracts being conveyed to Est. Also 40 acres in the South-east corner of the North-east quarter of section 34, Township 1, Range 2, West in Bradley County, Tennessee. Also 10 acres off of the South-east quarter of section 34, Township 1, Range 2, West of the base line across district, Bradley County, Tennessee, and being in all 208 acres more or less. Said real estate is including with homestead and dower estates set apart to the wife and children of said Est. Marler deceased, as a homestead and dower, which are described as follows, to-wit: Said homestead is described as follows: Commencing at the section line near R. C. Also 26 $\frac{1}{2}$ acres of timber land, being off of the South side of the West 40 acres of timber land near or at the grove yard at Mt. Zion Church.

It is, therefore, decreed by the Court that the Clerk, after advertising said real estate according to law proceed to sell same at public sale on the premises to the highest and best bidder on a credit of six, twelve and eighteen months (except ten per cent, which he will require to be paid in hand, taking notes drawing interest from date, with approved security for each installment of the purchase money, and retaining lien on land for further security. Said Clerk will first sell said land not encumbered by homestead and dower estates, and then sell the homestead and dower estates subject to said homestead and dower rights, and then he will sell the same as a whole subject to said dower and homestead rights, and he will adopt and report as the sale the sale that brings the best and highest price. In advertising said real estate for sale, said Clerk will only give a general outline in neighborhood description of said real estate with the terms and conditions of said sale, and on day of sale he will give a full and complete description of said real estate. Said sale will be made subject to the crops for year 1899, which are reserved.

The Clerk will report his action on the premises to the next term of the Court, until which time all further questions are reserved.

July 3, 1899

To the Honorable County Court of Bradley County:
In obedience to an order from your Court, we your Commissioners, elected by your body do make the following report for the improvements of certain Public Roads as provided by an act of the Legislature of 1899. After employing Engineers who have personally examined various roads in the County and hired men making surveys and estimates of cost of same. We find we have not been able to complete the estimate, maps, charts, profiles, &c. in time to submit full report of the same to this term of the Court, and would respectfully ask that you give us till July 24th to submit said report. Your Commission has not yet fully decided on any route, but after carefully looking into the road interest of the whole County, we find that the seven roads we are instructed to build cannot be so located as to accommodate the first and ninth districts, and would therefore ask that we be instructed to survey two lateral roads, one from Bates Bridge through to Charleston road, and one from the Champion branch down into the 7th district so as to connect with the Charleston and Georgetown roads, and these two roads to be built and maintained same as the seven roads laid down in the bill. After examining the vast amount of natural material, our engineers are of the opinion that all the roads can be built within the limit of the appropriations.

Report of
Road
Committee

To the Worshipful County Court of Bradley County:
 We your committee appointed at May term to lay off and estimate cost of improving the seven roads named in the Acts of the Legislature of 1899, have completed said work and beg leave to report as follows: That we employed D. A. Drumham and E. C. Brown as engineers and a number of necessary assistants whose names will appear in the report of the Chief engineers. We have surveyed about 127 miles of road and traveled 690 miles, and have located the seven roads as follows:

July Term 1899

All roads to begin at the crossing of Ocon and South Streets in Cleveland

1st.

The Public road leading from Cleveland to Benton to the Polk County line to run north on Ocon Street to Berry Street, then on Berry Street to end of same, thence via M. L. Julian's, following the old Benton road via of Jno. K. Howards, except such changes as are noted in survey, and going the Northern Survey at Crowell Hill with other intermediate changes. This survey lacks about 400 feet of going to the Polk County line because of a large hill on the line, and as we expect to get the Court of Polk County to join. Bradley in opening a new road around said hill.

2nd.

The Public road leading from Cleveland to Spring Place Ga. to the Ga. line to run from the beginning point, south on Ocon Street to Linn Street, thence east on Linn Street to Pinson's Saloon, thence south over the present Spring Place road via of Stivers, James Rippers, Henry Dupper, Helker Post Office and Warrick's Bridge to Dunlop's, with such changes as made in the survey and will appear in the engineers' report.

3rd.

The public road leading from Cleveland to Charleston road to run north on Ocon Street following the old road known as the Walker Valley, Cleland and

Charleston road with such changes as made by the survey.

We also made a survey of the Chatala Valley road to Charleston. We recommend the Walker valley route for the following reasons: 1st. There is greater traffic on the Walker Valley route and we believe it will accommodate more people than it will virtually accommodate Mouse Creek Valley, as well as Walker Valley. This route, however, will cost more money to build it, but taking into consideration the large number of people to be accommodated we feel that we are fully justified in recommending its adoption. We also feel that the lateral road mentioned hereafter in section 5 will accommodate the 1st, 2nd & 7th districts to a very large extent.

4th.

The public road leading from Cleveland to Harrison to the James County line to run from the beginning point, west on South Street, thence by the Linn Street Johnston place, Dobbs ford bridge, Prospect Church, Lea Brans, Meredith Chicks, Jesse Mills, on to the Mahan Gap, via the old to James County line, subject

July Term 1899

to the changes made by the survey.

We also surveyed the route from Prospect via of Achley and Triplett to Jesse Mills place, but found that it would cost \$575 more than the Lea route, and we believe the Lea route will accommodate a larger number of people.

5th.

The Public road leading from Cleveland to Chattanooga to the James County line to run from the beginning point, west on South Street to Lea Street, thence south on Lea Street to the present Chattanooga Road following the latter via of J. W. Tucker farm, Black Mt. Post Office to the John Tucker farm, thence south via of Landers back farm and Frank Mitchells place to the cross roads at William Smiths at James County line.

We also surveyed a route from the John Tucker farm via of Tucker's Springs and Mc Donalds to Winkles Switch, but found that it would cost \$754 more than the Mitchell route, owing to the cost of the McDonald route and its proximity to the railroad and the number of crossings, we recommended the Mitchell route as first named.

6th.

The Public road leading from Cleveland to Georgetown to the Meigs County line to run from the beginning point up Ocon Street to Windsor Avenue (between the residences of Julius Hardwick and Arthur Draymond), thence with Windsor Avenue over the Stewart Bridge, thence through the farms of Burger, Hagler and Hamilton to the old Georgetown road following the same via Lea Bridge, Champion Branch via the new survey through Brown Bros farm, thence by the old road on to the Meigs County line. We also surveyed the route from R. C. Johnston's farm through the Johnston Lane via the old road to the farm of Dick Hughes, Col., but found that it would cost about \$200 more than the Stuart Wagner route. We further consider that the Stuart Wagner route will accommodate more people along the line and that the material for building a road is much better and no grade on it. This route is practically graded to reach the Stuart residence west of the Stewart Bridge.

7th.

The Public road leading from Cleveland to Red Clay Ga. We surveyed one route, leaving the Spring Place road at Station 74 + 38 ft. south back of the Right Spring over the ridge road to the old Levi Sawhitt place, thence via of Spring Garden or Chatsworth, thence
