Expecting the Commission to have been taken in 20 p. further on the Western Waters of North Carolina

These Lands situated on the Waters of Tennessee they cannot be inspected with safety at this Season of the year and therefore it would be prudent to range such other Land as the Principals or their Surveyors should be paid of February next unless the Surveyors should desire to be brought for their own safety in which Case they may name their Lands inspected. You may receive Deeds for the same in our names if the Lands should be sufficiently inspected by any Gentleman or Farmer of Character.

You may give Receipts in our names for the same, but the Signs or some other distinct marks remain for the purpose of this Deed as the Deed is only given in One of three names. Perhaps the 3. One in your Opinion should be sufficient.

The Other Comrs on the Waters of Cumberland they might complete with by the 20. of June next and that in manner as before described or bring such for every one.

They may think that I am not bound to have them inspected but I would wish that they should all be made acquainted that it is their place to make out Titles for such Lands as are described in their Bonds.

Many has given their Bonds for any spot of Land and they cannot make good their Titles to the Land given away. Take care therefore if it becomes the Description and of the Situation to be equally good. Should any Title be offered that by the convenient Situation of. You should find it more valuable than the Land specified in their Bonds in such case you may take up in quantity if it shows Growth and depicts the Survey of the Land.

I wish the Lands you receive to be stated as follows Viz A. B

and to describe the Location and mention the South

point out also in the Map where the land lies by S. 1 2 &c then lay across the plate thus South 320 poles

at Liberty to accept of the same but at a lower price than the
