Elizabeth McEwen Feby Term 1842

Kingston October 22^d 1839

Calling to mind the uncertainty of life and thinking I might die at a time when I may not have it in my power to make a formal Will. I will now write down what is my wish respecting the disposal of what property I may die possessed of. I have long thought that Slavery was an evil that every individual that had it in their power ought to do some thing to get clear of but still have thought mine were in a better situation with me than they could be placed in our Country. I have still kept them in slavery and I wish to leave them in the hands of my executors having entire Confidence in them exercising properly any discretionary power vested in them. I do hereby give to my Ex^{rs} the power to liberate and and set free all or any of the Slaves with their increase that I may own at the time of my death not binding them to do so unless in the opinion of my Ex^{rs} they shall think my S^d Slaves shall from their good Conduct be deserving of their freedom and if my S^d Ex^{rs} shall think it not proper to liberate my Slaves I give them the power to sell such of them as they may deem unworthy and the proceeds of such sale I direct to be applied to the promotion of the American Colonization Society in a way that that they may think proper. Should my Ex^{rs} think proper to send any or all of my Slaves to a place of Freedom I wish them to do so at my expense and in a way that they will be comfortable as I can not tell how much the expense will be I leave it entirely at the discretion of my Ex^{rs} to use as much of my property in that way as they may see proper and whatever they may give them they are not to be accountable for.

I wish my good bed and furniture to be given one to Robert and one to Matthew as I have given one such to each of my other Children for which they were not charged. I wish Margaretta to come and examine and

Elizabeth McEwen Contd

take charge of my papers and destroy all that will not be necessary to keep. I wish her to keep all my cloths and all things she may find in my drawers as she contains little that would be prized by any other than a daughter should it so happen that I should outlive Margaretta. I wish some of my own Children to examine and dispose of them as she may see proper but should Margaretta be alive I wish her also to take the things in my press and sideboard and dispose of them as she sees proper. The rest of my household and kitchen furniture I wish divided in a friendly manner amongst my living Children.

I wish the remainder of my property including all real and personal property left me by the will of my late Brother Matthew Stephenson of Washington County to be equally divided between my Children Williams S. McEwen Robert A. McEwen Matthew P. McEwen and Margaretta A. Gillespie and the equal part that was intended for my late son John Columbus McEwen I now wish to be equally divided between his Children the girls to be considered of a girl at eighteen.

I do not leave out my dear Elias Children for want of affection to them but owing to an arrangement already made with Mr. Mason and believing they have already got a full share of all the estate and that I would be doing an act of injustice to my other Children is as I to leave them more.

I appoint my trustees Williams Stephenson, McEwen Robert Newton McEwen and Matthew Perry McEwen My Executors to this my last will should I not make a more formal one.

Test L. W. Jordan

W. S. Patton

I wish no security required of my Executors having full confidence they will act correctly nor have I named any fund to be used.

in the removing my Slaves to a place of freedom as I do not know to what point they may be taken or what will be needed to defray the expenses it may be that it will be necessary to provide something for their support at first going I therefore wish my Executors to keep enough in their hands to answer all purposes until they ascertain what will be needed.

Should my single sons wish to continue housekeeping I wish them to have the use of my house and furniture as long as they live unmarried or as a family to gather.

as my executors may wish to dispose of my House and lot while some of the Slaves are under age they are authorized to do so at any time they may see proper and in all their acts I wish them to use their discretion in respect to my property as I give them full Liberty to do so.
