May Term 1835 for the purpose of establishing the
North West corner of a certain tract of land granted
to Henning & Scott wherein James Gardner
now lives have met agreeably to order and have
proceeded to take evidence as follows

128
The evidence of John Gardner he states he became acquainted with this corner about the month of May 1796 it was shown to me by Mr. Mahan & Pipe Martin and has ever since understood it to be the true corner of the aforesaid 640 acres granted to Glumming & Scott marked on two trees one of which is a black oak the other a white oak about 17 or 18 poles East of James Gardner Spring branch each of those marked trees with large scars cut out of them etc.

John Gardner

The evidence of Henry Johnson and states as follows about eleven years ago I was shown this above mentioned corner by James Mahan to be the North West corner of James Gardner's tract of land and have seen none from said corner for others and in running of south from said corner have found old marked line etc.

H. Johnson

The evidence of A. Washington is as follows I have been shown this above mentioned corner by A. Mahan & likewise Robert Nelson I believe was present & no objection made to its being the original corner above named (I believe this was about 1822 or 1823) I do not positively say that this corner is the legitimate corner I have seen to day but believe it was about that spot see J.W. A. Washington

We do hereby certify that we have taken the evidence of the above witnesses and have recorded the same the 15th of June 1825 at the house of James Gardner
