ination of James Mulhurn Esquire after being duly
sworn deposes and saith as follows To that from his
first notes of survey made in this section of country
and from a residency made from an other point
of his connected platte he believes that a corner
Lynn tree now down and about the stump of which
there appears to have once stood three small Lymms
is the corner commonly called the four Lymms and
the beginning corner of a tract of land granted to William
Shepherd by the state of North Carolina and is also
a corner of two other tracts of six hundred and forty
acres each granted to said Shepherd by the said
state and the said Deponent further states that he

from his finding a white ash called for as a corner
of Anthony Harbs at nearly the exact distance of ten
hundred & seventy six poles south from said Lymms is
an other reason he has for believing the said Lymms
to be the beginning corner and a corner as aforesaid
