Montgomery Burns. Novocapitive Will

State of Tennessee
Washington County B Whereas Montgomery Burns a resident of said County of Washington departed this life on the 14th Inst and so far as we know died without making a written will, but during the last days of his sickness did communicate to his friends while on his death bed, at his own house where he had lived for several years immediately preceding his death in the old County of Washington, his wishes as to the management of and disposal of his property giving very nearly the following directions in substance as follows. These statements were made on Sunday and Monday preceding his death and to the best of our knowledge and belief his mind was clear and sound and that he was entire capable of making his last will so far as mental capacity was involved -

First that John Rhea should move his family & effects onto to sd Burns House and take charge of his (burns) property farms negroes Stock and all his affairs - raise the crop and carry on the business so as to close his business all up, and pay all his just debts, as soon as it can be done. This is as repeated as sd Rhea did not like to assume the business - until sd Rhea satisfied him that it would be done -

Second. That said Rhea should keep the children at home together and educate them, keeping them at school as much as possible - wishing them to be well educated -

Third. That the negro boy Tom & Alisah be sold and the other negroes Betty, Alfred, and Lucifer be kept with the children.

Fourth in regards to the suit pending with N. McCormick. He wanted John Rhea to do with it as if it were his own, leaving it discontested with said Rhea to arbitrate or prosecute said suit,

as witness our hands this 21st day of April 1857
