Your Observations and Mine

BY JOE MADDOX

As a result of much research we are attempting to do the unusual by listing alphabetically all the Bloodworths who are buried in Wilkinson County that have grave-markers. Moreover, we are showing who they were and who their wives and parents were.

In most cases, proof can be established, but there is margin for several errors. Therefore, our intent is to supply this as information and to get the reaction of those descendants who are sure we are wrong, when such is the case. Certainly we want the information to be correct.

Those who have an interest should clip this column out and preserve it, because it may not be published again for years. Family research is indeed slow.
