INDEX TO BIBLICAL PLACE NAMES

Roman Numerals indicate the map or plate numbers. Letter and figure, following the plate number, show the square on the map in which the name will be found. To locate the *Aborin Mountains*, for example, the index refers you to III-D-5, which simply means turn to Plate III, and in the D-5 square you instantly locate the *Aborin Mountains*.

Other points of interest, as the Churches of Asia, Cities of Decapolis and Cities of Refuge, are included in this Index.
