Pedigree of Red Buck as

given by Mr Thomas Storer his owner

Red Buck was bred by Col Hayden of Long
-ia and was got by the bestly celebrated horse

Golden Legger, he by Gray Buzzard & Gray Buzz
ard, by a son of imported Buzzard & imported
Buzzard by Woodpecker, born by Duke-Caring
the by Duke-Regulus & the son of Golden
celton was by March & Sam Red Buck 35 &
Mary Skimp 35 & some Union she by imported
a Buck & imported Red Buck by Devonshire.

Sam Jolly Bell by Colinton, the dam of
Red Buck was a Bertrams mare and was
got by the Jolly Horse, he by James Burton
he by imported Bertrams & imported Bart
on by Sir Arch, Sam Elixir by
imported Bedford 35 & Membrina the
for further accounts see the
Register & Sporting Magazine.

July 1862

1 rain light shower
will be stationary

3 ground wet place in corner of field
gives thin sweet bottom - some place still in

8 ground level on which 48 1/2 bushels

9 land between corn, place creek field with
low corn at Holland

14 plant peas in creek bottom

26 in place good ground nearly

23 built roads to various parts of the

August 11 built garden with new
but 30 planted clay bank & cobb, fruit garden
13 some land up in track, 30 some down
at home

July 1868

1 grain light shovels

Will up potatoes

3 ground soil place in corner of field
grain thin creek bottom - some place else in

3 ground soil over what 48 1/2 bushels

7 kind green corn, place creek field with
the corn at the creek

17 kind peas in creek bottom

24 kind green ground nearly

23 kind peas to various potatoes

August 11 kind potatoes with me
August 30 kind claybank & colls, grain yellow
15 0 one lot up in straw, 60 some down pot
1 00 at home

 " 28 finished plant early field corn
 " 31 800 bushels corn to mill

April 21 give out every colony

28 nearly finished plowing cotton

[illegible]

May 1853-

- 18th Commence sowing & thin corn
4th Rain thunder cloud North East
5th plant, mellow, spreading Tomatoes
7th rain beautifully
8th plant first potato slips
17th rain clear pleasant bottom at 10 AM
19th sowing cotton all places
21st clearing cotton has 7 English
23rd rain & clear fresh all places
25th Showers rain 1 1/2 inches deep
26th sowing bottom corn at 10 AM
" planted potatoes 11 AM
" with some radish with yellow
29th cutting wheat & 1 Cattle
" Evening commence plow corn
31st rain at night abundantly
June ground too wet to plow
Hall up 100 corn 6 big wagon
Roads about 36 barrels corn
nearly all we have

June 1853-

- 6th finish plowing corn field
" rain at house around time
7th sowing cotton at 10 AM
9th Evening Showers Rain fine season
Commence plow cotton in dingy
14th plow bottom corn on big brads
finish sowing corn & 100 plow corn
15th " black leather field plow corn
18th finish plow cotton & 100
19th went to One to field long by
corn & plow
21st Showers RAIN
23rd Clearing at 10 AM
24th RAIN beautifully
25th cutting oats at 10 AM
27th got out wheat 148 bushels
29th finish cutting oats

1855- Duty

- 1 Rain good shower at Col. Hatt
- 2 Sprinkler showing
- 3 Rain RAIN beautifully all day
- 6 Plowing out cotton middles
- 11 ground heavy
- 12 shower RAIN heavy in the middle of the day
- 14 shower RAIN heavy in the middle of the day
10. Commenced putting fodder

[Faint, illegible handwritten notes and stamps are visible along the right margin of the page.]

$\frac{d}{dt} \left(\frac{1}{r^2} \right) = -\frac{2}{r^3} \frac{dr}{dt}$

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation $f(x) = \int_0^x f(t) dt$. It is shown that $f(x)$ is a continuous function and that it satisfies the functional equation $f(x+y) = f(x) + f(y)$. The function $f(x)$ is also shown to be differentiable and its derivative is found to be $f'(x) = f(x)$. This implies that $f(x) = Ce^x$ for some constant C . The value of C is determined by the initial condition $f(0) = 1$, which gives $C = 1$. Therefore, the function $f(x)$ is $f(x) = e^x$.

My dear Mr. Garrison

[illegible]

[The page contains faint, illegible text, likely bleed-through from the reverse side.]

1. The first part of the document is a letter from the President of the United States to the Congress, dated January 3, 1862. It is a message of condolence to the people of the State of California, who have recently suffered from a severe earthquake. The President expresses his sympathy for the victims and offers his assistance in rebuilding the state.

2. The second part of the document is a report from the Secretary of the Interior, dated January 10, 1862. It contains information about the progress of the survey of the public lands in California. The report states that the survey is well advanced and that the results will be published in the near future.

3. The third part of the document is a report from the Secretary of the Treasury, dated January 15, 1862. It contains information about the financial condition of the United States. The report states that the government is in a sound financial position and that the revenue is increasing.

4. The fourth part of the document is a report from the Secretary of the War, dated January 20, 1862. It contains information about the military operations in California. The report states that the military is well prepared to deal with any emergency and that the state is in a state of peace.

5. The fifth part of the document is a report from the Secretary of the Navy, dated January 25, 1862. It contains information about the naval operations in California. The report states that the navy is well prepared to deal with any emergency and that the state is in a state of peace.

6. The sixth part of the document is a report from the Secretary of the Department of the Interior, dated February 1, 1862. It contains information about the progress of the survey of the public lands in California. The report states that the survey is well advanced and that the results will be published in the near future.

7. The seventh part of the document is a report from the Secretary of the Department of the Treasury, dated February 5, 1862. It contains information about the financial condition of the United States. The report states that the government is in a sound financial position and that the revenue is increasing.

8. The eighth part of the document is a report from the Secretary of the Department of the War, dated February 10, 1862. It contains information about the military operations in California. The report states that the military is well prepared to deal with any emergency and that the state is in a state of peace.

9. The ninth part of the document is a report from the Secretary of the Department of the Navy, dated February 15, 1862. It contains information about the naval operations in California. The report states that the navy is well prepared to deal with any emergency and that the state is in a state of peace.

10. The tenth part of the document is a report from the Secretary of the Department of the Interior, dated February 20, 1862. It contains information about the progress of the survey of the public lands in California. The report states that the survey is well advanced and that the results will be published in the near future.

may be further early Dec. 28th 1859

Whereas the undertaking is about to enter into an arrangement with Jackson Thomas for the transportation of his plantation in the County of Guilford Georgia

It is expressly agreed and understood that the said Thomas is to use his best exertions and all his time and energy, not only in the making of the crop, but in the care and attention to the negroes - husbandry and stock in accordance with instructions given or to be given from time to time, for and on consideration of the sum of five hundred and fifty four dollars for the year eighteen hundred and fifty three the rate of twenty two dollars per month if this agreement be dissolved sooner than the term specified of which a notice of five days must be given by either party.

" cut wheat 3 cradles

31 place in old grass fields corn 1st time 4 plows

1859 cure for cramp

When a person is affected with cramp get down hot water quickly, plant the supplemen in the water as completely as possible and then heat is imparted to the blood, which binds it coarsely along the veins + the pain is gone. While the water is in preparation brush the cramped part very briskly with the hand or wooden plank, + add downward of water

Colic in Horses
Take half tea cup full of soda
+ 3 Table Spoonfull of spirit, of
Turpentine in a bottle of pills
w/ with water + stir in the
by Jane Brad

Hints about Colds

Health Journal of Health says that the tendency of winter weather does is to make the feet cold, thus endangering the health, hence they are exposed only in walking when the ground is muddy or slushy, with melting snow, in these cases they are invulnerable, when wetters are on the feet, however, (don't) keep increasing & numerous. There are ordinary the horses, if wetters have been on the feet several hours both shoes & stockings are necessary.

danger - by the condensation & confinement of the vapors of the perspiration, therefore all that is the concern of the perspiration to the feet till warm & dry areas & the whole foot later to the feet till warm & dry in every part, the same rule holds good in relation to the hands & then made waterproof, for common purposes, leather boots & shoes are the best if kept well oiled, with several amounts of dry socks during the day, if the feet perspire profusely & a warm begins to creep, the result of a common cold, it is a sort of nature herself allowing a cure & she will effect it in her own time & more effectually than any man can do it if she only be allowed to interest themselves. What are those patients? But what is not a series of treatments & a

The movement is so rapid that the feet (when cold) let him do these things, let not walk on alone let go to bed & cover up in a warm room & drink as much cold water as the wants or as much warm water as the can & in three cases out of four he will be almost instantly well within thirty six hours. if he does nothing for his cold for forty eight hours after the enough commences, there is nothing that he can do but let that will, by any possibility do him good for the cold with such a short rest as it may be course of about a fortnight in which of all that can be done & medicine will only hinder a cure. "Stiff & cold & there are few" is a mischievous folly, a cold always brings a fever. The cold never begins to get well till the fever begins to subside & every successful that is directed gives the fever.
