FOREWORD

The family described in these charts is a very notable one from the time of its immigration and the number of worthwhile people they have produced. The conditions of the migration were unusual in the history of Speer migrations. The tradition that Christian Speer of Ireland was in London in 1620 seeking passage to America seems well-founded. The sojourn in Germany and the migration thither using the German language is not unheard of. A similar migration was that one which came to Holland and thence to America in 1659 to New Amsterdam, speaking the Dutch language and intermarried thoroughly with the Dutch settlers.

This family is, unlike some others, apt to change the spelling of the name rather often. Henry always spelled it SPEERS. Either Michael Christopher or his son, George, began to spell it SPEARS, and when Jacob, son of Henry, migrated westward to Kentucky and was among his cousins, he adopted the spelling of SPEARS. Then in some generations of the descendants of Henry they dropped the final "s" leaving the name simply SPEER, as at the beginning.

In this chart we have tried always to use the spelling the person listed would have used. We may have failed, in some cases. A word may be said about the many Fry relatives. The early intermarriages with the Frys were on account of the neighbors Henry Speers and Abraham Frye. There were five marriages involving the two families. However in Kentucky the Frys are of another family group. They are the descendants of Joshua Frye, of England, a notable soldier of the Amer Revol. war. They are not supposed to be any relation because the Frys came from England to Kentucky, while the other family were German immigrants along with the Speers, Froman and others. It is possible that they were, like the Speers, from England or Ireland and so related in the early family stem. There is no proof of that.

This chart is the same as the one which was mimeographed by William Finley Speer of Leonia N.J. in 1939. A copy of this MS was sent him and he copied it thus. This Manuscript has not, otherwise, heretofore been printed or published.

It is presented to the Kansas State Historical Museum Library. Other Speer Manuscripts have been deposited in the same library and others will follow as completed. This in the interest of preserving information heretofore never gathered, it is a part of a greater work.

Note. One tradition is that John Walker Jr., son of John S. Walker married #614, Nancy Krepps, dau of Solomon Speers Krepps and Nancy Speers, his wife. That it was their children who are listed above as the children of John S. Walker. I am inclined to believe that John S. Walker and Angeline G. Van Kirk were the parents of Nos. 628, 629 and 630. Whos Who says John Brisben Walker (No. 626) was a son of John and Nancy (Krepps) Walker but the dates are wrong for that.
