The Gunpowder I have now in my possession is
I conceive too precariously situated to be out of danger, being
at present stored contiguous to dwelling Houses, in which at this
season of the year large fires are usually kept. This I thought
incumbent on me to communicate, and request your Instructions to
have it removed to a place proper for its reception, where it may
remain in security

The last Load of Amunition pr M^r Morris came up in very bad order I receiv^d 265^{lb} powder the Lead also falls much Short A number of the Belts & Scabbards appears to have been taken out but I dont know the number that was sent - I have been perplex^d in Gen^l Clarks absence respecting the delivering the arms & amunition out - Col^o Freeman drew for 10^{lb} Powder & Lead equiv-
lant - which I refus^d to deliver but by the request of all the principle men have I deliver^d - Col^o Doley also has apply^d which I also refus^d but an express has just arrive from Maj^r Clark Informing that the Indians had killed one Man Near Knox'fort last evening & had also had been Firing on the Forts below & Maj^r Clark was gone out & requested Doley to make all possible despatch after him he therefore could not get an order from any one that I knew of I have presum^d to deliver him 14^{lb} powder & 35^{lb} Lead & he has taken 30 Muskets against my consent. what I shall do in these Crit-
icle situation I am at a loss Gen^l Clark gave me no orders what to do in his absence - If what I have done doth not meet your ap-

Savannah, Feby. 20th 1788

Sir:

I have the honor of your letter with the orders of Council inclosed last evening. I had previously wrote by Major M'Intosh who is the bearer of this and who fortunately did not set out as he intended; which has given me the opportunity of recalling that letter, and acknowledging the receipt of yours.

This district has again since the return of the moonlight nights been in a continual alarm; as you will perceive by the inclosed letters, which together with a petition. I am informed Major M'Intosh is charged with, will more fully give you an idea of its state than my pen can describe. I sometime since on receiving the account from Mr Bird, issued orders for a detachment from each of the Regiments of Chatham, Effingham & Liberty, to consist of fifty men from each County to act in different directions.- I have not yet heard whether they have met with success; but by my last account Captain Cone was on the trail of the party that committed the last outrage. I wrote you, in my former dispatch, of the suspicions of the Citizens; it still continues, and it has been with difficulty the detachments ordered, notwithstanding the exertions of the Officers have been procured, and I believe not any of them now complete, in this situation. I am happy at the hint given by you of a proportion of the State Troops being marched for this district, should they not be immediately necessary in the other districts. I am fully convinced that were from one hundred and fifty to two hundred of them to make their appearance on the south of Ogeechee, it would answer the most salutary purposes,- it would not only check the Indians, but give a confidence and exertion to the Militia, and set the

188

planters immediately to work. This in numbers and those scattered thro a long extensive range; I must think this district more immediately deserving the attention of the Executive than either of the others, whose numbers are greater and more compact.- I hope the endeavors of the Executives for a pacification with the Indians will meet success. in the meantime, that double board may be assured, not a man more than is absolutely necessary shall be kept out; as well to prevent the expenditure of the specific supplies as to give the Citizens an opportunity of putting their crops in the ground, but I again declare, I think that even (as I suppose will be the case) the State troops should be wanted at the treaty, the very marching them down & instantly back will be politic. After the planters have set the grain in the field, they will not readily abandon it. I shall set out this afternoon for the Southward, where your letter will have great effect.

On South Carolina

On the Subject of the line between
Georgia & S. Carolina

Boundaries

STATE OF SOUTH CAROLINA

AT A GENERAL ASSEMBLY begun and holden at Charleston on Monday the first day of January in the year of our Lord one thousand seven hundred and eighty seven and in the eleventh year of the Independence of the United States of America and from thence continued by divers adjournments to the twenty ninth day of February in the year of our Lord one thousand seven hundred and eighty eight

AN ORDINANCE for ratifying and confirming a Convention between the States of South Carolina and Georgia concluded at Beaufort in the State of South Carolina on the twenty eighth day of April in the year of our Lord one thousand seven hundred and eighty seven and in the eleventh year of the Independence of the United States of America

WHEREAS the State of South Carolina did heretofore present a petition to the United States in Congress assembled and did therein set forth that a dispute and difference had arisen and subsisted between the States of South Carolina and Georgia concerning Boundaries the said States claiming respectfully the same Territories and that the case and claim of the State of South Carolina was as follows that is to say Charles the second King of Great Britain by Charter dated the twenty fourth day of March in the fifteenth year of his Reign granted to eight persons therein names as Lords proprietors thereof all the Lands lying and being within his dominions of America between thirty one and thirty six degrees of north latitude in a direct West Line to the South Seas Stiling the Lands so described the province of Carolina That on the thirtieth day of June in the seventeenth year of his Reign the said King granted to the said Lords proprietors a second Charter enlarging the Bounds of Carolina Viz: from twenty nine degrees of north Latitude to thirty six degrees thirty minutes and from those points on the Sea Coast West in a direct line to the South Seas That seven of the said proprietors of Carolina sold and surrendered to George the second late king of Great Britain all their title and interest in the said province and the share of the remaining proprietor was separated from the King's and allotted to him in the North part of North Carolina. That Carolina was afterward divided into two provinces called North and South Carolina That by a charter dated the ninth of June one thousand seven hundred and thirty two George the second King of Great Britian granted to certain persons therein named all the Land lying between the Rivers Savannah and Altamaha and between Lines to be drawn from the heads of these Rivers respectively to the South Sea and stiled the said Colony Georgia That by the Treaty of Peace concluded at paris on the tenth day of February one thousand seven hundred and sixty three the River Mississippi was declared to be the Western boundary of the North American Colonies That the Governor of South Carolina in the Year one thousand seven hundred and sixty two conceiving that the Lands to the South of the Altamaha still belonged to South Carolina granted several Tracts of the said Land that the government of Georgia (torn) to the King of Great Britain respecting those Grants as being for Land within its Limits and thereupon his Majesty by proclamation dated the seventh day of October one thousand

seven hundred and sixty three annexed to Georgia all the Lands lying between the Rivers Altamaha and Saint Marys the validity of the Grant passed by the Governor of South Carolina as aforesaid remaining however acknowledged and uncontested and the Grantees of the said Land or their Representatives still holding it as their Legal Estate

THAT SOUTH CAROLINA CLAIMS THE LAND lying between the North Carolina line and a line to run due West from the mouth of the Tugoloo River to the Mississippi because as the said State contends the River Savannah loses that name at the confluence of Tugoloo and Keowee Rivers consequently that spot is the head of Savannah River The State of Georgia on the other hand contends that the source of Keowee River is to be considered as the head of Savannah River That the State of South Carolina also claims all the lands lying between a line to be drawn from the head of the Rivers Saint Mary the head of the Altamaha the Mississippi and Florida being as the said State contends within the limits of its charter and not annexed to Georgia by the said proclamation of one thousand seven hundred and sixty three The State of Georgia on the other hand contends that the Tract of country last mentioned is a part of that State The State of South Carolina did therefore by their said petition pray for an hearing and determination of the difference and dispute subsisting as aforesaid between the said State and Georgia agreeable to the Articles of confederation and perpetual Union between the United States of America

AND WHEREAS the State of Georgia were duly notified of the said petition and did by their lawfull agents appear in order to establish their right to the premisses in manner directed by the said articles of confederation and proceedings were thereon had in Congress in order to the appointment of Judges to constitute a Court for hearing and determining the said matter in question and whereas it appeared to be the sincere wish and desire of the said States of South Carolina and Georgia that all and singular the differences and claims subsisting between the said States relative to boundary should be amicably adjusted and compromised

AND WHEREAS the Legislature of the State of South Carolina did elect Charles Cotesworth Pinckney Andrew Pickens and Pierce Butler Esquires Commissioners and did invest them or a majority of them with full and absolute power and authority in behalf of that State to settle and compromise all and singular the differences controversies disputes and claims which subsist between the said State and the State of Georgia relative to boundary and to establish and permanently fix a boundary between the two States, and the said State of South Carolina did declare that it would at all times thereafter ratify and confirm all and whatsoever said Commissioners or a Majority of them should do in and touching the premisses and that the same should be forever binding on the said State of South Carolina

AND WHEREAS the Legislature of the State of Georgia did appoint John Houston, John Habersham and Lachlan McIntosh Esquires Commissioners and did invest them with full and absolute

power and authority in behalf of that State to settle and compromise all and singular the differences controversies disputes and claims which subsist between the said State and the State of South Carolina relative to boundary and to establish and permanently fix a boundary and to establish and permanently fix a boundary between the two States and the said State of Georgia did also declare that it would at all times thereafter ratify and confirm all and whatsoever the said last Commissioners or a majority of them should do in and touching the premises and that the same shall be forever binding on the said State of Georgia

AND WHEREAS the said Charles Cotesworth Pinckney, Andrew Pickens, Pierce Butler, John Habersham and Lachlin McIntosh Esquires Commissioners on the part of the States of South Carolina and Georgia respectively did by mutual consent assemble at the town of Beaufort in the State of South Carolina on the twenty fourth day of April in the year of our Lord one thousand seven hundred and eighty seven in order to the due execution of their respective trusts did reciprocally exchange and consider their full powers and did declare the same legal and for ever binding on both States and in conferring on the most effectual means (torn) establishing and permanently fixing a boundary between them did mutually agree for and in behalf of their respective States to the following Articles- that is to say
