Sir:- Conformably to the Proclamation of your Excellency we have with all possible dispatch arrange'd the Militia of this County to form a Line of Centinals to prevent the further Progress of the Small Pox, and from the disposition of the different Guards we have the strongest reason to hope for the most salutary Effects-

I do myself the pleasure to transmit a Coppy of my orders for the regulation of the Several Detachments which I am hopefull will meet with the approbation of your Excelency- It is but justice to observe that I have both in Officers & Men met with the greatest alartness in Complying with your orders; although the heat of the Weather & most incessant Rains and millions of meskito's renders the duty harassing in the extreme-

We have been reduce'd to the necessity of puting the Law in fource in two instanss in the case of a M.^r Beal of Savannah and M. Holmes of Col.. Island, who evaded the vigilance of the Guard by a secret route but was in the Course of a few hours brought to Trial, the former find Fifty pounds the latter acquitted-

I am much at a loss to know what provision is made for Militia in actual Service, I have carefully examin'd every part of our Military regulation but can find no stipulated pay - the Law says for neglect of such duty they shall pay a fine not less than one months pay & not more than twelve- Which makes me desirous to know what will be allow'd, that I may be qualeifie'd to give the necessary instructions to the Court Martial that will be appointed for the trial of all Delinquents-

I have the Honor to be very respectfully Y:^r Excellencys

As the necessary arrangement has been with all possible dispatch made in order to Comply with the Proclamation of his Excellency the Governor- It only remains with the Officers Commanding Detachments to consider that by a chearful and strict attention while on duty, they may not only save many worthy Family's from ruin but the lives of many valueable Citizens- On this principal the Commandant does not only order but intreat both Officers and Men to adhere to the following instructions-

- 3.rd Shou'd any Person or Persons be coming from Bryan or Chatham County they shall be ordered by the Guard or Patrol to return and on refusal to Comply with the same it shall then be the duty of the Guard or Patrol if possible to take such person or persons under Military Control an account of which shall be immediately by the Officer on Command transmited to the Commandant or the Judges of the Inferior Court of this County-
- 4.th Should such person or persons attempt to evade the orders or Control of the Guard or Patrol by resistance. Flight or any way so as to effect a pass into this County contrary to orders it shall be the duty of the Guard or Patrol to take an Account of the Same

in the Most particular Manner, Such as to name the Person or Persons if known- take notice of his her or their dress, the Beast he she or they may be riding, and the appearant Course of destination and every Act offerd in open infraction of the Proclamation a report of which shall be immediately made as before directed-

Sir

I arrive at this place last evening - and to day in Company with M^r Soper have Visited the Bullock County guard - I proceeded to muster such ^{as} ~~and~~ were present and pay them off. -

I find the Justices of the Inferior Court have ordered the men Composing the guard from the different Captains Companies in the County to Serve a week at a time, and that those who have served prior to the presant guard are now widely Scattered through the County, and that it will take a very Considerable time to collect them together eigher by Advertisement, or by sending a person to notify them personally - in Consequence of which I have written to the Justices of the Inferior Court - a Copy of which letter I inclose - As this is a difficulty that did not occur before I left Louisville I have sent the Copy that I may have your Sentiments upon it by the next post. --

Upon my return to this place from visiting the Bullock County guards - I found Maj^r Polhill had just arrive, with two of his Dragoons who have been Scouting along the County line and visiting the different guards - He informs me the Same difficulty exists in this County that does in Bulloch, that the men are called out to serve a week at a time, and that many of them are at the extreme part of the County, and that no pay roles have been made out -- He and M^r Soper recommends that I should not pay any in this County until the Service is entirely compleated - and that pay roles will then be regularly made out. - And as I could only make a partial payment for the present, I have Concluded not to pay any untill I hear from your

Excellency - If you should think it Necessary that I should proceed it will not detain me more than a day or so on my return to Louisville

In Bullock, I settled with the person who contracted to furnish the guard at twenty five cents a ration - but in this county it appears the Justices of the Inferior Court have Contracted for One and Nine pence on this road and One and three pence on the other - As I am directed by your instructions to pay regard to their contracts - Were I to make payments at the present to all - I should discharge their charges if they insisted upon it without deduction - but as they have expressed a wish for the Soldiers pay to be delayed - I shall also postpone paying the rations untill I hear from your Excellency --

To morrow morning I will visit the guard on this road and after urging the necessity of strict attention to the duties they are called upon to perform, will pass across to the other guards and investigate Hollidays transaction in attempting to make his way to the up Country - I believe it will be found that some of his facts are not strictly within the bounds of truth --

Notwithstanding the vigilance and active exertions of Maj^r, Polhill and M^r Justice Soper some still make out to get round - I think it probable from an arrangement agreed upon this evening that some of them will shortly be Surprised in their short Cuts to the up Country --

I shall wait in Savannah untill the arival of the next mail - when I shall calculate upon recieving instructions relative to

the difficulties that now present themselves - which I expect will
be found in Liberty County also ---

Pay Roll

1800

His Excellency

Ja^s Jackson

Lanier July 25th 1800.

To the Honorable the Justices of the inferior
Court of the County of Bulloch..

Gentlemen,

I have agreeable to the directions
of his Excellency the Governor Called at this place in order to
pay off the Guard ordered out by you in Conformity to the procla-
mation lately issued - but find the men now on duty under the
Command of Serj^t John Shemfield have only been here Since Monday
the 21st inst - I have therefore proceeded to pay them off, and
have to request you will procure Muster and Pay rolls of those who
have heretofore been called out and performed the duty required of
them that provision may made for paying their wages and Subsistence -
If this could be done prior to my return from Savannah, and I could
be informed of it at M^r Sopers when I arrive there - I should then be
prepared to make the payments - As it might be difficult to get the
men together So as for me to deliver each man his money - I would
Suggest that it might probably be the better way for you to appoint
Some one of your own body to recieve the money for them which might
prevent much Trouble - and for the person so appointed to meet me at
M^r Sopers next Monday Week with the Muster and pay rolls, together
with an account of the Subsistence, which will be twenty five cents a
ration - Also if you have been at any extra expence, by hiring persons
to go express in order to collect you together I will then pay off
in full --

His Excellency the Governor wishes me to impress it on

your minds the actual necessity there Still Exists for keeping a Strict guard untill he gives different orders - Some Clame is already attached to the County, for letting (as report Says) Several Waggons and Persons riding on Horse Back get to the interior of the State by crossing over and going up the South Side of Ogechee - He flatters himself that no instances of the kind in future will happen - I have spoke to the present guard on the Subject, and am of an opinion they will be attentive to their duty --

If any of those who have been daring enough to cross the line designated in the proclamation, should attempt to go back - you will not hisitate to take them into Custody and have them dealt with agreeable to law

I have the honor to be

Gentlemen

Your Most Ob^t Serv^t

His Excellency Governor James Jackson

Greene County Octob^e 15th 1800

Sir!

Since my having had the honor of forwarding my last report to your Excellency, of the 19th ultimo, by M^r Dowel of Jefferson, I have reviewed the 1st Brigade of the 3^d Division; and herewith your Excellency will find the opinion of the Field-Officers in Convention met, at Washington the 29th of Sept. last past; on the recommandatory proceedings of former Conventions held in the 1st Division, and already Submitted to your Excellency.

As I shall soon start to the Reviews of the 2^d Brigade of the 3^d Division, I take the liberty of annexing herewith my account for Services performed and to be performed to the end of the political year; which if it meets with your Excellency's approval, I shall be thankful if any arrangement can be made with the treasurer, So as that the amount may be paid to M^r Cooper; as by the
