Dear Sir

I have been informed by Majr Genl Daniel that the United States quota of Malitia from this Division are ordered to hold themselves in readiness to March against the Creek Indians; consequently it is of importance that they should be officered as speedily as possible.

I discover in your General Orders lately issued, that all the company officers with a few exceptions such whose names were not known, in the 1st Brigade of the 4th Division, which I have the honor to command, have been recognised by your Excellency. It has been my understanding since I came into office that those officers had been returned as having been elected by the volunteers from the line of officers & then appointed agreeably there to by Genl Daniel conformably to General orders dated the 19th of September 1812 but I have been very recently informed that they were not returned as having been elected but only appointed - I have therefore procured from my Brigade Inspector a list of the officers who were elected & those who were elected & those who were appointed of the company officers - which is herewith enclosed & your Excellency may consider it as an amendment to said return, so as to bring them within the exception of the 2nd Section of the Militia Law of 1812. Should they then be within the Exception of said Law ill it not be necessary to issue commissions to said officers agreeably to the third section of that Law before they can proceed to the Election of their field officers. But doubts exist whether both the company & field officers who were appointed in pursuance of General orders of September 1812 from the line of officers, do

not hold good, in as much as they were made Anterior to the passage of the Law. I will here take the liberty to say to your Excellency that I have had a conversation with Hugh McGummery Esq. who introduced the Bill in Senate & he says that all the appointments made agreeable to Gen^{l} orders of September 1812 whether by Election or appointment were not intended to be interrupted, though I think the Law is badly passed to carry that construction. Col Walton Harris was appointed agreeably to the orders of Septr. 1812. to command the Regiment from this Division & Maj^{r} Samuel Groves to command the Battalion from my Brigade; but which officers have not been so returned as yet: But are proceeding with life to their duty & will get through reviewing & Mustering said Regiment to Marrow -- I am happy to State to your Excellency that the companies form this Division as I am informed by the officers will be well filed. I have thought proper not to order an Election for field officers in the Brigade I have the honor to command until I could address you Sir & be informed what construction your Excellency gives the State Militia Laws & be Advised in what manner & under what regulations I had better proceed with full confidence that my difficulties will be completely obviated by your Excellencys exposition of the said Law

I remain your Excellencys

I hereby certify upon honour the above Muster Roll to be a true Return of All the men in survice at the forts on the founteir of Pulaski County as above Stated

Sept. ---- 1813 — Allen Tooke Capt. Commdt.

Ordered to be filed 16th October 1813

His Excellency David B. Mitchel

Governor of Georgia

Sir.

Knowing the rashness of my present address, from my never having had any acquaintance with you. I am only persuaded to it from an honest zeal, which I feel for the welfare of my native State at all times, but more particularly at the present critical moment, and from the solicitations of some of my friends who have associated together for the purpose of forming a corps of mounted Riflemen, with a view of assisting our Countrymen to repel any attadks of Savage barbarity that may be contemplated. believing that the critical moment is near at hand if not already present when we shall be compelled to take up arms to defend from the merciless cruelty of Ruthless Barbarians the old men the women and the children on our frontier and from the equal cruelty of Free looters those on our Seacoast, and that in such a defence mounted men are far the most effective. It is the humble hope and sincere wish of the association that your Excellency will permit them to organize themselves and join their countrymen in arms as soon as your Excellency may think it necessary to call on them for that purpose.

Conceiving it to be the duty of every good citizen, in an undertaking of this kind, to make known his intentions to the Supreme Executive and know that he has his approbation, before he takes any decisive step; I humbly hope your Excellency will pardon this intrusion on your more important avocations, and be pleased to transmit to me your approbation or disaprobation of this undertaking, for which the members of our association wait to make any farther progress.

With due respect believe me to be

Your Excellency's most Obedient

To His Excellency David B: Mitchell

Sir. Under the orders for detaching the United States Quota. We volunteered our Services under Expectations, that we should Shortly be called into Service, Since which time the legislature has authorized us to raise volunteer corps, under which law, we attached ourselves to volunteer corps of Rifle men, & have been appointed to command them, The officers appointed to command the Quota contend for our Services in the lines where we at first volunteered to serve, but we are under the impression that we ought not, in right to serve out of our grade, being elected & commissioned under a law of this State, and willing at all times to serve in that capacity.

Your Excellency will confer a favor on us to let us know by next mail whether or not we are Exempted under the circumstances as mentioned from this tour of duty as privates, the reasonn I trouble you thus is because Col Jenkins informed us that you were the person to whom application must be made. If it is right that we should serve we hope your Excellency will notify us of it to this place by a line addressed to Either in Order that we may be in a State of readiness

We are your Excellencies

Dear Governor,

I start for the Fort this morning to provid a depostt for the arms & ammunition, together with the Forage -

I have written Colonel Evans who will be on in a few days I think - I may return immediately or, I may stay on the frontier until the troops arrive, and discharge the waggons, as circumstances may require - I wish you Governor to send William to the Alcopauhatchee with the necessary instructions - I would put some funds in his hands if I could see him.

I am Sir

Sir

I have this day received your Excellency's letter of the 9th August by Express.- While at Savannah I received from the Secretary of War information that he had authorised Fifteen hundred of the Georgia militia to be embodied against the Creek Indians; and being aware that they would be in want of supplies, I immediately directed Major Bourke to furnish all such as are authorised by the Regulations on your Requisition; he writes me by this day's mail that he has not at Savannah, Tents or Camp Equipage, and that unfortunately Mr Cumming was no longer Deputy Commissary of Purchases, nor does he mention any other being appointed in his room: as by late Regulations this is the only officer empowerd to purchase these articles, I fear we shall be embarrassed to procure them: what-can be obtained here, and every other necessary supply shall be forwarded as soon as possible.-

I have spoken to the Contractor here who will make arrangements for the supply of provision within the State of Georgia; but the contract does not oblige him to furnish beyond the Western Limit, the transportation beyond that limit must therefore be at the expense of the United States; and that I presume you will find no difficulty in procuring: the greatest difficulty will arise from the want of money: Our Quarter Master's Department being deficient in that essential article: I write to the Department of War requesting funds: perhaps a letter from you to the same quarter may expedite the supply.-

You may rely, Sir, upon my endeavors to furnish the expedition with every necessary within my disposal.

Major Bourke informed me at Savannah that the articles I first directed had been forwarded.

I have the honor to be very respectfully
Sir
Your Excellency's Most Obedient Servant.

Sir

Agreeable to your orders we arive in camp last evening, the whole of my Regiment, and am at a considerable loss to know what to do, we find no person authorized to receive us in the situation we are at present- the company's are not as large as the Law of the United States require but many of them are as large as your Orders require, we are not only at a loss on that head, we are very scarce of provision for the troops and when we have an opor-tunity of getting any it is issued at so late a period in the day that the Troops labour under a considerable disadvantage thereby- the Beef is very indifferent so much so that several quarters have been burnt - their appears to be a considerable difference in the instructions which Captain Cook have received from Genl Pinckney and those which we have received from you Consequently we have taken the liberty of addressing you and hope you will forward us by the bearer Such instructions as we shall be governed by or sutch instructions as will obviate the present difficulties under which we labour.

Milledgeville, Febr 10th 1832.

To His Excellency,

Wilson Lumpkin,

Sir:

In behalf of a company ~~which I command~~, in the county of Jones, known by the title of "The Clinton Independent Blues", I solicit an exchange of the arms now in the possession of said company, for other & better arms in the Arsenal at Milledgeville: & in support of this application, I submit the following reasons. The arms now in our possession, when delivered to said company, were not new, or in good order: they had in the hands of state militia in the war with the Indians, had entirely lost their polish & brightness & many of them were in other respects injured. They have been in the possession of the company aforesaid, for about ten or eleven years, & in so geat a lapse of time, passing thro different hands, they have inevitably ~~be~~en further damaged. In the distribution of better arms to neighbouring volunteer companies, we are entirely eclipsed, & cannot parade on public occasions, without the appearance of mortifying inferiority. Under there circumstances we solicit from Your excellency, an order for the exchange above mentioned: & before the exchange is made, we will clean the arms now in our possession from all rust & dirt.

I am with great Respect & esteem

Camp South of Ocmulgee near F. Hawkins
4th September 1813)

Dear Governor,

The subject of this address is designed to give you some information relative to the situation of the whole detachment of our Militia now in the service of the U. S. in regard to the hospital department- It is not my province, nor is it my wish or intention, to dictate any measures but I do assure you Sir, that, but for the assistance of this Surgeon of Cavalry this detachment would suffer much for medical aid - It is upon him alone they depend for relief, and he is not now provided with the necessary stores to afford it long - I do not wish it to be considered a reflection upon the Gentlemen appointed to the Regiments of Infantry, but it is well understood that neither of them are provided with the means to enable them to execute the duties of their office - every particle of medicine used by them has been furnished by Doc.r Williamson & indeed he has personally attended to the sick since his arrival here - Many are sick, a circumstance naturally consequent upon such a collection of troops at this season - hence the necessity, in the opinion of many, of having a hospital surgeon to the whole detachment - Doc.r Williamson is well qualified & has the power immediately to prepare the necessary stores & will no doubt give general satisfaction, he wishes the appointment if such an one is to be made & is I believe unacquainted with Gen.l Floyd through whom (if he accepts) I presume it must come - Your influence to promote this object would I believe meet almost the united approbation of those immediately interested in it.

Our Cavalry are getting along smoothly - You will have received a more minute detail of the situation of the Infantry by

by a committee of officers whom I understand have been appointed to wait on you -

Sir

I have this honor on the 22nd Ult.o from the moment of the troops on the Indian Frontier it becomes necessary for me to be near the Scene of Action and frequently absent from this place for weeks which renders it difficult to draw the ffunds as they be wanted at this place. I have therefore thought it best to have all my remittances made through the hands of my Partner James Roddey of Charleston as I can draw on him from time to time as may be necessary - I have therefore instructed him to attend to the negotiating for and receiving all monies that may be coming to me under my contract for this State - My abstracts to the end of the last month amount to much more than the advances I have received and as they are all nearly collected will be forwarded to the accountant in a few days --

The number of Militia with the regular troops that are embodied in this State renders it necessary that Mr. Roddey should be in funds as soon as possible to meet the draft that I am obliged to draw on him

I have the honor of inclosing to your Excellency the invoice of military Stores shipped to Savannah on the 8th of this month in addition to those previously forwarded.

By an extract from your letter forwarded to me by Major Bourks, I am informed that you had determined to call into service Two thousand five hundred men instead of fifteen hundred authorised by the Secretary of War; the articles hitherto sent have been forwarded on the estimate for fifteen hundred men only, because as the Secretary has fixed on that number to be called into the service of the United States I do not think myself authorised to furnish supplies for more without his direction; for which I have applied: but to prevent the service from suffering in the mean time on this account I shall proceed to direct supplies to be forwarded to the Deputy Quarter Master at Savannah for the whole number of Two thousand five hundred which he will be authorised to furnish on your requisition: whatever may exceed the supplies necessary for fifteen hundred men to be considered as a loan to the State of Georgia until otherwise directed by the President. -
