Sir

I have just Received by Express information from Colonel Hawkins, of which the enclosed is a Copy, I also forward you a Petition from Captain Crockets men, which I unintentionally omitted by my last Communication; Major Keys Ill Health Compells him to leave the Camp for the present, and it is Doubtfull whether he will Recover in time to go on the Expedition; Colonel Jenkins is in the Same Situation. It is therefore, proper to know, in what manner vacancies thus Occassioned are to be filled.

The Contractor not Yet arrived, I have no alternative left, But to give Certificates for provisions for the Sustainance of the Army, and to authorise those who furnish them to present their a/c to you for payment; things Cannot long remain on this unsettled Situation.

I beg your Excellency to Reflect on the State of affairs

Doctor Williamson having this Day Reported to me in Writing that the Supplies of Medicine & Hospital Stores which has been furnished for the Troops from Georgia in the Service of the United States, is most intirely Exhausted and that a large Supply of Medicine & Hospital Stores are immediately wanted, there being many on the Sick list.

I have therefore thought proper to Order Doct^r. Williamson to Milledgeville for the purpose of Representing to your Excellency the peculiar inconvenience produced by the want of the means necessary to Contribute to the Comfort of the Sick, for the want of which I have been Obligated to permit the absence of many who are Sick, to Seek Comfort beyond the limits of the Camp.

I flatter myself that your Excellency have Reflected on the Expediency of having a head to the Medical department. General Pinckney who at no time had 1000 men at Point Petre Appointed a hospital Surgeon, which appointment was Confirmed and many other instances could be cited to Show that to Such a Body of men, Such an appointment is indispensably necessary.

I herewith Enclose you two Nominations of appointment of Officers of which you will decide on as you may think proper

There are many points of Material Consequence, yet to be decided; I think a visit from you at our Camp is all important as it would be the means of Correcting many errors and in my opinion Expedite our March.

Sir,

I regret extremely the occasion which makes it necessary for me thus to address you. Gen^l. Floyd this morning called a convention of the Captains of the army and informed them that in consequence of a late regulation of the War Department in relation to the Militia of the State in Service here that the companies are to be equalized by taking from those above and adding to those under Eighty. Now Sir I beg you will not consider me as disposed unnecessarily to complain or enquire into the reason-ableness or unreasonableness of any order from my Superiors; I entered the Service with cheerfulness and shall quit it with regret - but if this regulation takes effect in relation to Volunteers I must be permitted plainly to tell you that I will return my commission into your hands to be given to some one who can consent to wear it under such circumstances. Your excellency is no doubt aware of the exertions I have used to raise a full company of the advances I have been compelled to make for their comfort without being reimbursed & of the ties which mutually bind Volunteers - And shall one fifth of this command thus raised and got into Service be left off and transferred to officers whom they do not know and perhaps dislike? A regulation of this kind might without injustice be applied to drafted Militia taken promiscuously and without their consent from the body of the people - But Volunteers expressly for the expedition under officers of their particular choice may certainly be

fairly considered as forming an exception to the rule. These men here under my command Volunteered under their present officers by whom alone they were informed they were to be commanded, say they are well satisfied and appear determined not to be commanded by others. I feel bound as their leader & friend to see that injustice is not done them - it shall not be done them under my command. I should feel irretrievably disgraced if I could consent to be the unwilling instrument, the miserable pandemonium of my own disgrace. If this regulation is enforced, (which I trust your excellency will not suffer) I here solemnly protest against its injustice and the direful consequences that must inevitably result to the service.

Sir

I have taken up my pen to address you on a subject which has given me much uneasiness (towit) the consolidation & equalization of the forces at this place not that I am opposed to a measure of this kind but from the peculiarity of my situation I am Compelled to make known to your Excellency the injustice of applying the whole of the plan to my company

It will occur to the recollection of your Excellency that the Quota of Clarke County amounted to 120 men one half of which volunteered under my command - Colo. Jenkins in his orders to hold ourselves in readiness also directed that the company should be raised to 75 which on my part was done knowing that I had it in my power to raise 100 men provided I could be their commander I requested Colo Jenkins to enquire of your Excellency whether I could retain the Command if I marched so large a number his answer to me was on his return from Milledgeville that the Command of 100 men would be ensured to me provided I brought them on

After the reception of your Excellencys reply thro' Colo Jenkins I conceived myself to be perfectly justifiable in raising volunteers, for the expedition & pledging myself that I would be their immediate commander - & this opinion was confirmed by your Excellency personally when I had the honor of composing a part of a deputation from this regmt. for the purpose of waiting on your Excellency some time since You no doubt recollect that I enquired what would be done with my Company should their numbers be to great to which your reply in substance was that there would be no difficulty for the surplus would be discharged & not placed under the Command of any other officer unless they would again volunteer under the Command of some other person unless my memory is very trecherous I have given your Excellency a faithfull narrative of facts, & I leave you to judge Sir whether I am not bound to see the condition upon which my

268

Company volunteered complied with if possible - I have endeavoured to reconcile the change which is about to take place to my men but my exertion have been fruitless & they insist upon the performance of the Condition of my part or an absolute discharge on their obligations

I hope your Excellency will not think that I am intintionally raising impediments to the expedition for my Conduct is the result of my situation & if I have acted wrong it proceeded not from improper views but from misconception

Governor of Georgia

Wayne County October 23^d 1813

Dear Sir,

Herewith you will receive my certificate accompanied with Captain Knight's account against the State, for furnishing part of the Militia of this County with provisions who were in actual service in August last --

I deem it my duty for the satisfaction of your Excellency to State that from the frequent reports of the determined hostility of the Indians, in July & August our frontier inhabitants, became much alarmed, insomuch that some of them actually removed: About the 13th (August) I received news by express that induced me to believe we were invaded by the savage foe I immediately in conformity to the 27th Section of the Militia law Ordered Captain Knight to take ten men & proceed to the frontier to ascertain the fact. - before Captain Knight's return I received Lanier's circular, which induced me together with the extreme alarm of the inhabitants to continue the scouts untill the 4th of September.--

I am much indebted to the very laudable exertions of Captain Knight in preventing our frontier citizens from flying to the interior of the State, and for his liberal exertions in building a fortification for the defence of our frontier.--

His Excellency

Governor Early

Sir

I have the honor to Acknowledge the Receipt of your letter of the 12th Inst. by Major Crawford together with two thousand Dollars as part of the appropriation made by the Legislature for the immediate Support of this army. this prompt and Liberal act I conceive Calculates to obviate in a great measure, the Embarrassments with which the army has had to Contend for Sometime past. I have authorised a M^r. Butts of Jasper County to disburse for the army, & have Sent on Major Fannin, having understood that you was desirous of Sending him to Augusta to Negotiate a Loan to meet the views of the Legislature on this occasion he will be directed to remain Some time at the Okamulgee in Order to Receive Supplies, pay M^r. Butts drafts, and forward the provisions to the army with as little delay as possible. It is presumable that before the means of which we are now possessed are Exhausted, that something will be Effected and that M^r. Carter will be better prepared to fulfill his Engagement, is here and is very Solicitous to have his abstracts Signed, which I have preemptorily refused untill he produces the advance contem-

plated by his principals Contract, he informed me that he should have nothing more to do with it.

I have this day put the army under marching orders, and will take up its line at an Early hour tomorrow for Chatahoochee with 20 days Rations of Flour, and three of Beef trusting to the chance of being overtaken by additional Supplies of that Article Said to be on its way; I Regret, to Say that the men are very Sickly, 9 Deaths have occurred here & 256 on the Sick list, who are unable to march. Consequently from this morning Reports there is but 1458 Rank and file fit for duty Exclusive of the Detachment who will be left to Garrison this post. Independent of the Sick here Mentioned there are many absent Sick.

In the Course of this Day two Runner came in from Coweta with Express from the Chiefs of that place, who are in a State of great alarm, the Enemy are Represented to be within half a mile of them, a little Skirmishing has taken place with their advance parties. It Seems that McQueen has Expressed his determination to have all our Baggage at the Risk of every man he has, if he persists in This determination we Shall ere long measure Strength; A desire to Comply with your Excellencies Request has led me into detail, which I trust will plead an apology for the prolixity of this letter. I have the Honor to be with Sentiments of high Respect &c Esteem Your Excellencies M^o. Ob^t. Ser^t.

Governor Early,

I find on my arrival here that the four thousand Dollars which I brought from Milledgeville Yesterday, will hardly be sufficient to meet the Forage demands against the Quarter Masters Department, I have therefore directed M^r Butts to call on you and draw the four thousand Dollars contemplated by Gen^l. Orders for the purchase of provisions, for which he will receipt. - The waggons have returned from the Army which were at the Cowetum on Tuesday, at which time all was well. An Expedition was fitting out of a thousand men to go Eighty miles in pursuit of the hostile Indians, which had assembled in considerable number, as stated but where I can not learn - We shall start on thursday morning 50 Waggons corn, & 30 of Rations for the army no complaint as yet for provisions & if our money holds out the army will be plentifully supplied.

I am Dear Governor

Sir

In pursuance of your orders of the 18th Inst I caused to be summoned six men from my Company and four from the Company formerly Commanded by Capt Tompkins. (there being no officer in that District) and forwarded your orders to Capt Graham. requesting him to cause the seven men from his Company to attend at traders Hill on the 21st Inst at Ten O'clock in the forenoon. of that Day, for the purpose of carrying Your Orders into Effect.

Only Ten of the men that had been summoned attended at Traders Hill, on the 21st and too late to proceed any further that day, - - - - -

On the 22nd Inst with the ten Men, and William Cone, I proceeded up to Jone Bevans, being the frontier Settlement at this time, except a Camp, at which, there were no person at that time - - Did not find any Indians, nor the Sign of any - - nor Cou'd I hear of any Indians having been since the Robbery was committed on the 6th. Except three old Indians. that have been in the Settlements 2 or three Years Paste - - was unable to ascertain what had been the Cause of their having committed the Robbery and other acts of violence at Turs -

Herewith you will find the affidavits of William Cone, who was the only person I was able to see of Those that were at the Indians Camp, on the 6th Instant. Was unable to hear of any person or persons having Induced the Indians to come into the Settlements for the purpose of trading with them or for any other Purpose in the frontier Settlements, as they charge them with Killing their Stock, Stealing their Horses, and that they have

made attempts to drive their Cattle a way by droves - - -
