(Jno. M. Fowler) Appointed 2nd serjt after the desertion of A. Williams

(Shelly Downs) Deserted 8 miles east of Flint river

(Ed. R Akin) Dismissed without service

In the organization of the army it was found expedient to suffer the lieut & Ensign of this Company to retain their respective command & it was agreed under this condition expressly that as there were doubts in relation to their pay the ensign should run the risk. - It will be for your Excellency to decide this point.

The Situation this company is precisely the same as that commanded by Lieut. Huckleby

I do certify the foregoing to be a true turn and muster roll of the State Troops, as furnished by the officers of the different Companies of mounted Infantry.

7th December 1813.

306

Dr Porter,

I have sent all the Muskets, cartouch boxes belts' and Horsemen Swords belonging to the State which were at this post unfit for use VIZ 633. Cartouch box's 410 muskets and 88 swords, on viewing them, you will discover their Mutilated condition. I thought it best to send them in for I had no means by which I could have them mended, not only so we are much crowded for house room.

These Arms were returned to us at diferent times by the Officers, and good ones put in their stead, they having been previously instructed to keep an account of such of the men's names as Should injure their Arms improperly, for they would have to make the repairs good. Whether they have attended to this requisit I am unable to say, however the enquiry will be made. You will please place these articles to the Quarter Masters credit - I must also request that you pay out of the money in the Executive twelve dollars to Mr. Brown who will deliver the two loads now on the road, for all the money I brought out when last in, is out, & I am compeled to remain so until I get further orders from the General - I am engaged day & night in business in adjusting my accounts and other contingences coincident to my duty - The Instructions together with the Triplicate receipts relative to the Blankets I wish you to send on for I am unable to issue them, tho' much wanting till I obtain Instructions -

Our army has fought, which you have heard ere this, Maj. Freeman who acted a prominent part in this affair, can tell all the circumstances.

If you have any Rifle flints for us send them out for they are much wanted.

I am D^r Porter your friend.
In truth- Abram B. Fannin

His Excellency

Peter Early

Sir

On enquirey I find the only terms on which I can get a person to contract to Supply the Men to be ordered for this & Liberty County is as follows viz 25 cents per ration to be paid Monthly in Advance, and should the men be withdrawn in case of a peace or any other cause before the Expiration of Six Month all Supplies Actually on hand to revert to the State, at the same timethe contractor will engage not to purch at any one time more than two months rations. I shall not close on those terms until I may know if it will meet your approbation, on better I am of the opinion it cannot be got, I am not as yet able to get any person for the portion of the Company which will be sent to M^ctosh County but may ere long. should the Men be ordered before I can get a contractor for that County they can remain in this and Liberty until one can be got. So far as respects the advancing the Money if that should be any objection with you I am of the opinion I can collect as much from the tax Collectors if you forw'd an order on those for Chatham Bryan Liberty & M^cIntosh. Should you authorise the contract it will be proper to Allow the Contractor some little time to be prepared before the Company may be ordered, or may reach this.

Since my return I have received orders from Gen^l M^cIntosh predicated on General orders of 12th Ult. I find a difficulty in carrying the same into Effect, in as much as the men whom I have designated to March say they cannot go on duty unless some arrangement is made for their Support, as Also for the two horses ordered for each Station. I wrote Gen^l McIntosh

yesterday informing him of this difficulty on which Subject he no doubt will write You. — On my arrival I found no Election had been held in this County for Justices of the inferior Court will you inform me to what plan we are to resort for their Appointment. We have two Justices of the Peace qualified in one district if you should be of the opinion they can order the Election by notice. On enquirey I also find the Didermus which you informed me had been sent in August to qualify Andrew Bird and John Venbrokle Justices for Capt. Birds district has never been received neither is it in the post office. — In our present Situation we shall not have Magistrates Sufficient for holding Elections on any occasion whatever.

I am Very respectfully

Yr Excellencys Very
Obt. Servant

His Excellency

Peter Early

Sir

Since writting the Inclosed I have rec^d
Gen.^l M^c Intoshes reply on the subject of supplying the men
to be ordered on the frontier he observes in his orders from
you nothing on that Subject is expressed, yet as the Resol-
ution which authorised your detaching Men for the Security
of the frontier Counties. likewise authorised your Supplying
rations &c, and that he had no doubt but you had taken Steps
Accordingly, and if you had not, in his opinion he thinks I
am Authorised to Contract for their Supply. - by this reply
from the General you will percieve the Situation in which I
am placed as I am of the opinion I have no power to contract,
and if I had I am aware it will be very difficult to get any
person on almost any terms to supply so small a number as thirty
Men (this being the number called for from my regiment,) and
they to be stationed on the frontier of two Counties. the diffi-
culty in getting provisions their is obvious to me. I was
hopefull the Gen.^l would of written you on this subject as he may
not I thought it proper for me to Apprise you of the difficulties
which occur. I shall have the places for erecting the block
houses designated, and the Men detached ready to March in a few
days. this will be executing the order as far as it appears
to me practicable untill provision is made for them. As I pre-
sume it is not expected Men will turn out on duty unless pro-
vided for Forage which will be necessary for the horses ordered

will be also difficult to be procured as but few planters will
sell that article, or corn in that section of the County.

I am very respectfully

Your Excellencys

Ob.^t Servant

Morgan County. 10th. Dec^r 1813 -

Sir.

I find it will be impossible for me to detain in Service, the men under the Command of Cap^t Coleman on the line, they being first Called out for one months Service under my Orders, there being a part of them discharged by Cap^t Coleman under your Orders, the men now in Service not Considering themselves bound for a further time than they were first ordered for, which time Expired yesterday. I hope your Excellency will give me such orders as will enable me to raise from the militia in Some manner the Same number of men exclusive of those draughted from the first Class which is now ready to march on the line, but no arrangements made for Supplying them, it appearing from the advertisement that the person that may undertake will not be bound to furnish until after the 22^d of this month, the people will I think nearly all move home, if the two posts in this County are guarded with a Sufficient number of men. I design Marching the draughted men to the line on Monday next & hope you will also Clothe me with power to have them Supplied Otherwise the frontier will I fear be left without any protection until I receive Orders from you, unless I get orders by Tuesday at which time they will reach the line, as the men that undertook to furnish for the month appears to be tired of it. It appears to be the Opinion of all the old frontier inhabitants of this County that there will be more danger during the Stay of Gen^l Adams's men in the

Georgia
Jackson County
nation on the line than heretofore, believing the Indians
will brake on the line in Small parties.

The muskets you give me an Order for has not been received
nor Can I Collect them until Co^l Franklin returns, as he has
distributed them and I dont know to whom, Capt Bridges States
to me, that in the Boxes of muskets that I receipted for there
was but 70. instead of 75.

(Reverse)

M^r Tompkins'
Instructions.

Order taken

12th January 1814

Head Quarters,

Monticello 24th Dec. 1813.

Sir,

The detachment of Militia under my command, authorized by a resolution of the legislature of this State, to proceed against the upper and most adjacent waring creek towns, having returned from that service, I take the liberty of laying - before your Excellency the following Statement---

On the 9th Instant the detachment consisting of about 530 men, took up the line of march from Camp Patriotism, near Monticello, but in consequence of frequent rains, & having almost innumerable narrow passes to go through, where our pack horses as well as others often met with considerable difficulty, & were very generally compelled to march in single file, we were unable to cross Chattahoochie, before Wednesday the 15th, which we did about 12 o'clock on that day; It was then rainy and some of the men as well as most of the baggage were very wet. Believing that we should be more successful by being enabled to surprize the enemy, I determined on marching all that night, and attacking the most adjacent town ^{Newyaucau} Nemyanean, which was then thirty miles distant, at daylight on thursday the 16th.

The night however being extremely dark & wet, we found it impossible after repeated exertions by torch light, to proceed; we were consequently compelled to encamp 18 or 20 miles from the town, we wished to surprize. The repeated and almost continued rains which had fallen during our march, and particularly during that night, unavoidably placed our arms in such a situation, as to render it indispensably necessary that

some time should be occupied next morning in putting them in order, hence we were unable to march in a suitable condition to meet an enemy before 10 or 11 o'clock, and therefore could not that day reach the town which was our immediate object..

As soon as we were in a situation to meet the enemy, the line of march was formed and we proceeded near a small settlement containing eleven houses, known by the name of the mad warriors village, where the army was halted, and a small detachment sent forward to cut off such of the enemy as might be found there; not a single Indian was to be seen, tho' there were strong evidences of its having been recently evacuated. Finding some Corn here, such persons as were most deficient supplied themselves: we then set fire to the buildings which contained several articles of property, proceeded to within three miles of Newyaucau, and encamped without fire -- on the morning of Friday the 17th Inst the army was formed into three detachments; the right commanded by Captain Hagerty, the left by Capt. Dawson & the Center by Capt. Brown, in this order the three Divisions marched through difficult pass ways and over very hilly ground to an eminence within ~~the~~ half a mile of the town, where the whole were dismounted except Capt. Martins Company of Cavalry & about 85 Riflemen under the Command of Capt. Cocke. The march was then resumed by the three Divisions so arranged that the Center should fall immediately upon the town, & the right & left wings form such an alignment as would prevent the escape of the enemy either up or down the river, near the margin of which the town was situated. The mounted Riflemen under the command of Capt. Cocke and Capt. Martin's

Corps of Cavalry were directed to form near the river so as to prevent any from escaping in that Direction. A guard consisting of about 40 men were left on the eminence to protect the horses. When we arrived at a little hill which overlooked the town we found to our mortification as we had found at the village the preceding day, not a single Indian, though there were abundant signs of a very recent evacuation, and repeated yells within our hearing on the opposite side of the river. The several Divisions after ascertaining that we should be unable to accomplish that part of the resolution of the legislature which related to the destruction of the enemy, were ordered to repair to the place where the horses were left to return to the town, secure what Corn was wanting & consume the ballance with the horses. Upon our return up the hill where our horses were left, the yells of Indians were heard near them, and two small detachments consisting of the Cavalry & some mounted riflemen were immediately despatched in the direction whence the sound seemed to issue; but the ground being extremely hilly; so as to obstruct the view at very short distances, no Indians could be found. The whole were then marched down to the town, where we discovered on the opposite side of the river a number of Indians in the wood on the brow of a small hill which commanded the ford, and at a distance from the town of perhaps four or five hundred yards, that space being occupied by a large old field & the river Talapousie. The guides who had been procured for this Expedition informed me that the river at this place was more shoal than at any other within our reach, and that it would be impossible to

cross here in consequence of a swell occasioned by the late rains. Judging also from the signs on our route, and from the information given by one of our guides who was well acquainted with the habits and general plan of the war party in this neighborhood, that we should not find any of them on this side, the river and our stock of provisions being by frequent rains very much injured, we were under the painful necessity of executing so much only of the object of the Expedition as came within our immediate reach, which we did by burning the town containing 85 houses and the property found in them consisting principally of a considerable quantity of corn. I judged it expedient to return for encampment the ensuing night beyond the surrounding hills, and we accordingly marched about two & a half miles from the town within half a mile of the river bank, where we lay without fire, thro a very cold night, with in hearing of frequent yells which were generally supposed to be on the opposite side of the river, and prepared to meet any attack that the enemy might think proper to make upon us.

During our Stay in the town, while procuring corn for our horses, three or four of the men went to the margin of the river, where one under the cover of an Indian hut, & others under cover of such brush and shrubbery as the old field afforded exchanged a few shot with the enemy & three of them say they saw an Indian fall at the fire of their guns at

My Adjutant, Thomas Moore Berrien, was at that moment considerably advanced toward the margin of the river & had a spy glass in his hand endeavouring to ascertain the strength of the enemy, states positively that he saw an Indian fall at

the fire of Zachariah Simms musket & Jno. M. Patricks rifle; that they were dragged up the hill & fires raised near them. These few men were in a situation very much exposed in proportion to the enemy and one of them Jno. M. Patrick, of Jasper County, while stooping to take aim at a crowd of Indians received a ball in his left shoulder, which it was found impossible to extract, he is however now on the mend and will probably recover.

It is proper to add that they went to the margin of the river not only without but in direct violation of positive orders.

The other towns which we contemplated burning, Teekabatchie, Tallahassee & Immookfau, were on the opposite side of the river, & it was impossible to get at them owing to the high water - hence nothing was left us but to pursue our march home, which we did with proper precautionary measures to prevent a surprize, until we crossed Chattahoochie, where the whole were permitted to proceed in the order the chose, which very much facilitated the march, and all have arrived safe.

Since my return, I Learn from Capt. Hamilton of Genl Floyds army, who is now in this Neighborhood that his company of cavalry, and some friendly Indians with McIntosh at their head, were ordered to join us at Chattahoochie, this they failed to accomplish and the friendly Indians were deterred from pursuing by information which they received that a force of 2000 hostile Indians were assembled at Oalufuskee, and if we should fall in with them would inevitably cut us off. Capt. Hamilton would have followed us but was appre-

hensive we were so far advanced, he would be unable to overtake us.

Before I conclude this communication, it is proper to State, that the officers & privates, (with such exceptions only as are noted within the remarks of the muster roll) evinced, a degree of firm & deliberate courage, during the whole expedition & particularly at every alarm, which would have done honor to Spartan ^{valor} warriors. I have the honor to be, with high consideration, your Excellency's most ob^t & humble servant.

Dear Sir

Considerations which will I suppose Immediately suggest themselves to you induce me to request that you will suffer the Rangers to retain their fifty stand of arms. Hunter assented to propositions which I made without which I declar'd that I should be inflexible. He instead of violent exclamations of infustice & complaints of oppressions was to make a statement of the condition of his company & to endeavour to convince you that it needed the entire number of fifty. I will not now scribble off a long letter as I did when I wrote you before
