His Excellency

Governor Rabun

Sir

Your communication of the 5th Inst. (by Express) Covering the Sum of Twelve hundred dollars (\$1200) has Just been received by the hand of M^r. John Prior and shall be appropriated as you have directed. There has been an entire failure of the last two mails Consequently your letter in reply to mine of the 10th Inst. has not been received nor is the intelligence which you have received thro the medium of the Savannah papers Correct as to the arival of United States Troops. at Point Petre. we had a Report of their arival in Savannah, but letters from St. Marys as late as the 16 mention nothing of their having reached the neighborhood of that and I am inclined to believe that the destination of their particular troops are intended to guard against evils which it is calculated may grow out of M^cGregor's visit to E. Florida, in which case they will be Stationed at Point Petre as soon as I am apprized of their arrival I shall ascertain from the Commanding Officer the object for which he has been ordered here which will regulate the future measures to be taken with the Militia.

Since I last wrote to you I have required an interview with Major Bailey my ill health having prevented my visiting the frontiers. he informs me that the frontiers are quiet and that

the most of the Inhabitants have returned to their Settlements Since the Establishment of a Strong guard, I have directed him to diminish the guard so soon as the last detachment of the Battalion has performed its tour of duty, which he believes will answer every purpose, tho at the same time thinks that in the entire absence of the semblance of protection that the Settlement would again be broken up.

Sir Gregor M^cGregor^s cause seems to be less popular than he Expected, the Inhabitants within his Jurisdiction yields Sullen acquiescence to his authority. his reinforcements by no means maintain his original four, many having left his Service, M^r. Heath his Judge of admiralty has resigned and abandoned the Cause Col^o. Champlain, it is reported has been arrested on his return to Charleston on a visit. Indeed his numerical force has been much lessened by voluntary abandonment, and Sickness as would appear by a letter which I rec^d. from S^t. Mary^s of the 17th Ins. which States that "Gen^l. M^cGregors followers drop of ~~boys~~ fevers to an alarming degree 17 have already died, and forty on the Sick Report.

On the 14th Inst. Commodore Taylor of the Buenno ayres Squadron arrived at Fernandino in a Brig of 16 Guns, but bring no troops to M^cGregors Support. The board of admiralty have at length Condemnd 1/3 of the Cargo of a French Brig brought on Sometime ago, on this Occasion they Sat Several days with Closed doors.

I take the liberty to forward you my a/c Current with the State of Georgia ^eshowing the manner in which the ballance of

Public money in my hands have been applied which I trust will meet your Excellencys approbation.

Extreme debility has made it a very arduous task for me to sit long enough to make this Communication which will Excuse any want of formality. should it any where discover itself - I have again advanced to M^r. Prior five (\$5) dollars which you will please deduct from his pay as an Express.

I have the honor to be with high Regard & Respect

Your Excellencys obt Sert

Sir

The honorable termination of the late war and the United States being at peace with all nations on Earth It promises tranquility to this Country for Many years.

You will therefore receive this Communication as my resignation of the Command which I have the honor to hold as Major General of the fourth Division of the Militia of this State of Georgia, the legislature being now in Session Composed of a number of our fellow Citizens with whom I have had the honor to associate for many years in the most Perelous times and if differences have arisen in our deliberations It is not more than might have been Expected in the then situation of the Country and I have the Consolation Confidently to believe that whatever difference Might have exested. It was only an honest difference of opinion and that the whole aimed for the prosperity and happiness of our beloved Country and I should do injustice to My feelings if I was in this Communication to Omit to present to the legislature of Georgia My grateful acknowledgements for this mark of their confidence in confiring on me this high and honorable command. I think this a fit occasion to Congratulate the legislature of Georgia and my fellow Citizens Generally on the honorable termination of the late war the happy and flourishing condition of these United States the envy of the Tyrant an assylum for the oppressed the pride and Glory of freemen, I have the Consolation to believe that in the late contest the Citizens of the United States has taught the world this lesson that it is for freemen alone to prescribe bounds beyond which ~~disputes~~ must not approach.

I have the honor to be very
Respectfully your Excellencys
Most obedient & very Humb. Serv^t

Fairfield (Near) St. Marys,

September 5th 1817,

His Excellency Governor Rabun

Sir

Your letter of the 8th ultimo, was received on the 25th and your previous address from Powelton did not come to hand untill the 29th of August owing to its direction to Jefferson, instead of St. Marys.

Immediately on the receipt of your last letter, I required Major Bailey to render unto me, an accurate account of the property captured by his party from the Indians; in order that your instructions might be complied with without delay.

As Respects the Militia ordered out for the protection of the frontiers, your Excellency have repeatedly recommended the appointment of a Contractor, for supplying the Detachments on duty, As I have not adopted that mode, it may be deemed necessary that I should assign my reasons, which are, first, the difficulty of selecting a person that would act in the Capacity of Contractor to a Service so fluctuating, in its probable, durability, and magnitude, Secondly as money is the primary object of Contractors, no one would have undertaken it without being enabled to make some profit on the Market Price of Provisions, and thirdly, the delay, and perhaps failure in getting the Militia out under such an arrangement; I therefore thought It better to make a kind of purchasing Commissary of Major Bailey, whose acquaintance, and influence

in the Neighborhood of St. Mary^s. would enable him to procure provisions without funds, (which a contractor could not have done) and thereby get the Militia into Service with the least delay possible. This, however could only be Effected, by the Major's taking upon himself the Responsibility of Payment, on the faith of the State^s Credit, which no Contractor would have been willing to have done.

In my instructions to Major Bailey of the 12th of May last, I remarked to him as follows, Viz. "It will be your particular duty, to report officially at the Expiration of each tour of duty, the precise number of men on duty, each day, and to appoint a Commissary to issue to them the Provisions(Provisions) which you may procure, Taking care, that the aggregate amount does not exceed the lawfull allowance : It will also be necessary that the Officer Commanding the Detachment shall Certify upon honor, that the provisions charged against the State of Georgia, have been applied to the use of the Detachment, which Certificate must be Countersigned by yourself."

Notwithstanding this Caution, I find on Examination of his abstracts, with the Certified provision a/c^s. as vouchers, (& the best proof of the issues), that they have considerably Exceeded the legal allowance, which I shall not pay, unless specially required by proper authority, (i. e.) (by your Order). I think the ammount forwarded for the disbursement of Expenses incur'd by the ~~Services~~ of the Militia, will be sufficient for the accomplishment of that object unless, indeed, we should

be altogether disappointed in the expected Succow from the General Government, which has already been protracted beyond all reasonable calculation.

On the 21st ult. a Company of (U. S.) Artillery consisting of 80 men Commanded by Captain Payne, arrived at Point Petre, from Charleston. I immediately addressed a note to the Captain desiring to be informed whether his instructions required him to afford protection to the frontiers of the County generally, or to any given Point specifically; He reply'd that for the present he was ordered to Point Petre for a specific purpose, but that previous to his departure from Charleston he was informed by Colonel Brantley, that a Company of (U. S.) Infantry was ordered to Traders hill, and that he had no doubt but that they were at the time of his writing, on their march for that place; I have not heard of their arrival.

Governor Coppinger's predecessor, was so fully answered on a Similar Complaint by our then Governor Early, That I hardly expected to have heard a Repetition of Charges on such vague premises. As the laws of our Country does not deny the right of Expatriation, No axiom is more clear, than if a Citizen Voluntarily transcends the limits of Governmental protection, that he takes upon himself the Risk, and even hazards the Vengiance of the foreign Power in redressing the violation of their laws. If however a Citizen of the U. S. Should regardless of principle steal out of the Country and range himself under the Banners of an adventurer, and in That Character Commit any Capital offence,

and afterwards returns to his Country; On due proof, and identity of the Charge and person he ought in Justice to be as fully amenable to our laws as if a Citizen individually had outraged the laws, and dignity of any power foreign, or domestic, I wish to be understood that these remarks are only Considered as applicable to Governments in peace and amity with the (U.S.) and of Course where the Sovereign power is capable of maintaining the empire of its Laws, and even in that Case the charge, proof, and Identity of the offender, rests with the agrieved.

That some of our Citizens have Joind M^cGregor, there is but little doubt, but I believe the Simple Act of Augmenting in a very Small degree his numerical force is all that can be alledged, which ammounts to nothing in as much as they committed no overt act, nor can I learn that any of Them have individually annoyed the Inhabitants of the Province of E F whose present form of Government they would willingly subvert if they possessed sufficient power.

It is Said, that Sir Gregors Career is drawing to a close that he has but a hand full of men, and that he is aware of the Captain Generals permission to Governor Coppinger to dislodge him, yet he makes no preparation for defence, but have not been negligent of the necessary arrangements for a Sudden departure. It seems to have been a Standing order to the Governors of E. F. to act on the defensive.

»Coppinger apply^d for leave to attack the Scottish Chief which perhaps he unexpectedly obtaind, whether the permission has abated his thirst for Glory or not is uncertain at all events. Nothing has been as yet done unless by M. G^r.

who continues his Bombastical proclamations, we have had many Reports of the Governors approach at the head of a large Body of -----

McGregors impotence, and declining pretentions, has, I have no doubt prevented the necessity of sending an adequate marine as well as land force to this frontier to Counteract, any evil Consequences which may have grown out of the success of his schemes.

I have the honor to be very Respectfully

Your Excellencys Obt. Sert.

Jno. Floyd

Order taken 24th November 1817.

Fort Hawkins 3^d Dec^r 1817

His Excellency

Governor Rabun

Sir,

In consequence of the whole of the Militia not having arrived until Tuesday, I deemed it advisable not to order the Election for Col^l until this day, the result of which has just terminated in favor of Col^l E. Wimberly. On my arrival at this place I must say to my great astonishment I found only two waggons in the employ of the Assistant Deputy Quarter Master, and I am extremely fearful that we shall find great difficulty in procuring them; eight Dollars has been offered the lowest price for which they can be procured, even if at that - Col^l Braeby has notified the acting contractor to furnish 10 000 Rations by the 5th inst which I am conscious he will not be able to do - should he fail he has advised me to procure a Captain Thomas the former contractor a gentleman with whom I have conversed, and he has stated to me that he will be able, to furnish any provisions that may be necessary. I shall however wait to see what the present contractor will do before I act.

Immediately on my arrival at His place I sent on an express to Gen^l Gaines informing him that I had assumed the command of this Detachment (by executive app^t) and that I should hold myself in readiness to obey with promptness and dispatch any orders he might think proper to issue. I have thought proper in consequence of the extravagant prices of provisions &c. (with the advice of Col Braeby) to draw on you for the sum of Six Thousand

Dollars in favor of Major Franklin C. Heard to whom I must
beg have to refer you for farther particulars

Letter from
Lieut. W^m. C Lyman
U. States Army
dated 15 Decemb 1818

Answer Written
1. January 1818.

Camden County Decem^r. 19th 1817,

His Excellency

Governor Rabun

Sir

On the 1st Inst. I had the honor to receive by Colonel E. Hamilton your Excellency's Communication accompanying general orders of the 24th ultimo. I lost no time in the necessary arrangements for complying with your requisition from my Division: To meet with facility the views of the Government, I deemed it advisable to cause the number of men required to be raised from the first Brigade. Your letter of the 28th ult by Colonel Piles, hath also been received and acted upon.

By your instructions of the 24th I perceive it to be your intention that I should pay the Militia for Services rendered on the frontiers, as well as for Rations, Forage &c. The expenses incur'd for the latter has been settled as the accompanying a/c Current and vouchers will show, no arrangements have as yet been made to carry that part of your instructions as relates to pay into Effect, and before these expenses are adjusted it may not be amiss to require your Excellency's determination as to the manner by which the pay of the officers shall be regulated. Major Baillie who caused the execution of my Orders, acted more particularly in the Character of purchasing Commissary. The detachments on duty never exceeded a Subaltern, and seldom more than a Searjeants command, your Excellency will readily perceive the necessity of being explicit on these

points. It is but Just that remuneration for Services rendered should be made, many of the men who were called out are poor, and the Major has been at considerable Expense in the discharge of the duties required of him; at his request I enclose a Small a/c, be good enough to Signify whether it ought to be admitted or not.

~~Nothing of interest has transpired in this Quarter of late,~~ except what has probably reached you, thro' the medium of the Public Prints. This Community anticipates with apparent confidence the views of the Government.

The authorities at Fernandino, are not pleased at the signs of the times - Three hundred regulars at Point Petre, the Expected arrival of another Company and the vessels of war John Adams, &c Enterprize, seems to augur more than Indian Warfare. — A Deputy Marshall specially authorised, has seized a quantity of Prize Sugar at St. Marys, a measure not relished by Speculators in that article; I beg your Excellencys acceptance of my thanks for the prompt attention with which you have communicated important intelligence & Solicit its continuance, I am pleased with the adoption of measures called for by the Crisis. I have

the Honor to be with Sentiments of Esteem

Copy of a Gen^l order
from Maj Gen^l Gaines
Q^r Department
for Supplies

Ordered to be filed
24 January 1818.

H^d Qrs Amelia Island

381

December 27. 1817

Sir,

I have the pleasure to inform you that this place was taken possession of by detachments of U. S. land and naval forces under Colonel Bankhead and Commodore Henley, on the 23rd of the present month, without the effusion of blood.

The Militia required in this quarter will be sent towards the Indian frontiers. Two companies to traders hill, and the residue farther to the Westward; whither I shall direct my steps in the course of four or five days.

I have the honor to be

Very Respectfully

Your most obd^t Serv.^t

Edmund P. Gaines

His Exc.^y

Governor Rabun

Letter from
Maj. Gen^l E. P. Gaines
dated 27th Decemb. 1817.

Peter Hagner Aud.

His Excellency

Gov^r William Rabun

Milledgeville

G^a.

Ordn^{ce} Office.

386

Washington, 21 Oct^r 1818

Sir,

I had the Honor to receive your Excellency's letter of the 26. June ult^o acknowledging the Receipt of a Division of Field - Artillery, furnished by this Department for the use of the State of Georgia, and Stating that the Same would be passed to the Credit of the U. States in the Sum of Six Thousand, three hundred & fifty Dollars, 51/100, conformably to our Estimate or Invoice transmitted therewith.

My subsequent indisposition, & absence from the City, have caused your Communications to remain, thus long, unanswered; as I had placed it among papers not coming under the ordinary notice of the Office.

In reply to Your Excellency's remarks respecting brass & iron Ordnance, I have to observe that the former have, for a considerable time part, been in, general, disuse,--the Officers of our Artillery preferring the latter; --and since the organization of this Dept^t no contracts have been made for a supply of any other kind.

There is also very little, if any, difference in the weight of the two kinds of ordnance; the iron having, for a considerable time, been reduced in their former heavier weights, and rendered as light & manageable as the other--and such we have reason to believe those, which have been transmitted to you, from our Arsenal at N. York will, on trial, be found to prove.

With regard to the brass ordnance, stated by your

Exc ell'y, to have been loaned to the U. States, during the late war. some idea plans to exist here, that they were originally furnished by the U. States to the State of Georgia. altho' at this moment the matter is not ascertained with sufficient certainty. Should that not have been the case; or, that the pieces were delivered as part of its quota, on any distribution of ordn^{ce} by the U.S: I am instructed by Col. Wadsworth, the Chief of this Dept, to assure you, that measures will be taken to restore to the State the same number & kinds as may have been received.

With the highest Respect,

I have the Honor to be Y^r Excellys

Mol Ob.Serv^t

Jn^r Morton Capt. of Ordn^{ce}

Sir.

There has recently been a Company of Artillery formed in this place the command of which had been conferred on me; and as I am anxious to diffuse a spirit of Military order, and a delight in military tactics throughout my Company, I should be much gratified in procuring a few pieces of Artillery for the company to Practice with. If you deem it practicable to encourage my wishes in this regard, and find it practicable to grant me the use of Two field pieces. I pledge myself on Honor to attend to their being safely kept, and returned in good order when called for. As to any further information respecting the Company, and also the standing of the Affairs and men. (should you wish any) I refer you to the bearer Doctor Hobson who resides in this place. An answer by him will be received with pleasure. Should my request be granted wholly or in part, I should be gratified to know if the guns can be obtained at any time when application is made, and what the necessary arrangements will be, that will be required of me when they are received.

I remain Sir

Very respectfully

Savannah Aug^t 1, 1818

Sir

I should have done myself the honour to address your Excellency with a detailed report of my proceedings on the Oconee & the Alatamaha, had not Sickness in my family & some very pressing engagements rendered it impossible for me to reduce my note to order; & had not Mr. McKinnon the only person here that I could get to do it been absent; he had lately returned & had taken the business in hand; I expect to embark tomorrow for New York for the purpose of hastening the preparations of Steam engines there making for active operations on the Oconee next Season: I am happy to have it in my power to inform your Excellency that the river until within a Short distance of the Mouth of Commissioners' creek (about 20 miles by land from Milledgeville is perfectly adapted in good boating states of the river to Steam boat navigation: above that neighbourhood, it requires a great deal of Labour, but I feel great confidence that the Zeal of the Commissioners, joined with the present very favourable State of the river for that purpose, will produce great improvements: It is needless that I should solicit the aid of your Excellency's exertions to promote this important object, as I feel well persuaded that it is only requisite to present to your notice any subject connected with the prosperity of the State to ensure your co-operation. The moment the State of the river, which at present is very low permits, I shall endeavour to fulfil, by assiduous exertions to promote the prosperity of the commerce & Agriculture of the Alatamaha & its tributary Streams, all the expectations which the liberality of the public has authorized it to form from our undertaking

I remain very respectfully

Sir

I take the earliest opportunity to inform your Excellency, that agreeably to the return of the Secretary of the Commissioners of Fortifications, that the said Commissioners had in their possession at the close of the War 17018½ pounds of powder, the property of the State of Georgia. I called upon the Keeper of the States Magazine and he makes a return of 5275 pounds which makes a deficiency of 11743½ pounds. — I have obtained a certificate from the Officer then commanding who received this powder which I have the honor to inclose &c which may serve to make the United States responsible for such deficiency. The officer at present commanding at this post knows nothing respecting a deposit of this powder, he having been placed here after the death of two officers previous stationed here. There is now a great quantity of powder in the same magazine in which this powder was deposited & it is all claimed by the United States. I have understood that no receipt was taken for this powder, it being a matter of Courtesy on the part of the officer to take it in the Magazine. I have conversed with Judge Jones one of the Commissioners on this subject; he has written to M^r. Bolton who was also one of the Commissioners & in his answer he states the powder was deposited, but he does not recollect of any receipt having been taken.

M^r. Bolton refers the Judge to Lieutenant Beaulard whose certificate is here inclosed.

I have the Honor to

August 20th 1818

Dear Sir

I have taken the liberty of writing to you for information as respects the manor of inforcing The Law against those persons that refused to Turn out after being Drafted for the Service of the United States, and fled from their homes so that the Officers could not coerce their attendance Into the Service before the Detachments was Marched to their general places of Destination, But has since returned to their homes By an Act of the United States of 1795 sc 5 Those persons are punishable by a Court martial by a Fine, the fine to be collected by the Marshal of the district in wich the fine may be Ajudged, But this act points out no method By wich the Court martial can be convened But it appears it was left to each Individual State to point out the method of forming Their own Court Marshals; by an Act of the State of Georgia passed in 1808 sc 7 prescribing the nature of the Jurisdiction of Courts of Enquiry and Courts Marshals It appears that courts of enquiry cannot impose a fine for any Officer but those mentioned in that act, and that this Power of Court Marshals is confined to the Trial of Officers Alone at this time, as corporal punishment is forbid in our Army wich was the only two offencis it could take cognizance of at the Time the Act was pased, the last mentioned Act appears to create great deficulty in fetching Those persons to Trial and given rise to a great controversy of opinion in the Law Country As respects the efficacy of the Law, my bad health caused a greater delay in this business than Other wise would have been But as I am partly Recovered from my long illness and wished to fetch those persons of my Regemint to Trial that refused to turn out an obey the Orders of the constituted authority of government Any information as respects the Military Customs among the Militia on this subject Will be thankfully received by your

humble servant

Very Respectfully Your

Obt Servant

A. B. Fannin

Pr J. T. Rowland

Savannah Sept 19th 1818

Sir

A military association entitled the "Savannah Volunteer Guards" to be organized as Infantry has been recently revived in this City. - The number of members at the second & last meeting was fifty six & it is improbable by the first of January will exceed one hundred. - An election for officers is already ordered by Lt Col: Marshall commanding this Regiment. A virtual election has already occurred & the officers nominated are myself as Captain - W. C. Daniell as 1st Lieut. - & Joseph Jackson as Ensign. - The noncommissioned officers have been already appointed & the corps is in every respect perfectly organised. - My object, Sir, in addressing you on this subject is for the purpose of obtaining a supply of one hundred stand of arms or such a number as can be spared by the State. - I must beg, your excellency, to excuse my urging that these arms should be furnished with as little delay as possible. - The utmost scarcity of arms prevails in this City, so much so that the members of this association are compelled to honour for their drill muskets belonging to other corps not on duty. - I am sure I need not to you, Sir, "dilate upon the importance of military association of this nature, particularly in a City, where the danger of fire and the designs of incendiaries, keep the publick mind in a constant state of anxious solicitude & where from the condensed population & the variety of nations we are so much more exposed to publick tumult & disorder. - Should this application for arms meet with your acquiescence you would, sir, confer a very great favor upon the members of the corps, by directing that the muskets should be selected from those of the Whitney (New Haven) manufacture.

I am most respectfully,

Y^r excellency's, obt: St:

Edw^d F. Tattnall.

His Excellency }

W^m Rabun }

Sir

I beg leave to State to your Excellency that the arms heretofore distributed to the different Corps of this Regiment, have been during and since the last War scattered in every direction - Many men at the close of the last contest left this place carrying their arms with them - There is a great scarcity, of Muskets and Bayonets at present and I hope that the application annexed will be answered favorably as I am convinced that the Savannah Volunteer Guards will long continue an efficient and excellent Corps --

Respectfully Y^r Ob^t Servt

J. Marshall Lieut Col 1st Reg^t
